## **NO Lithium Ion Battery Storage in my front yard - Prime Ag Land**

This project is literally proposed in my front yard. No one should have to be this close to such a potential threat. This is dangerous, it will plummet my property values, the noise we will have to listen to so the fans can keep the batteries cool so they aren't as likely to catch fire. No one should have to deal with that! Please SAY NO! The attached picture is from my front porch and the proposed site is on the other side of the road, just behind the canal ditch.
