Prairie Song BESS in Acton

PLEASE don't put this huge, dangerous facility in our rural town. We are an extremely high fire danger area, homeowners insurance is very difficult to purchase due to this fire rating, and this facility will make it all but impossible to procure in the future. Acton won't derive any benefit from the power stored in these batteries but will have to bear the consequences of a battery fire, including toxic fumes, toxic runoff and potential loss of property and life. We have lived in Acton for 30 years and love our property and lifestyle. Forcing Acton to accept this type of facility despite the known dangers is nothing short of shameful.
