Deny The Prairie Song BESS in Acton

The Prairie Song BESS in Acton is a dangerous and foolhardy endeavor. Acton is a High Wildfire Risk Area--most residents can't even get Fire Insurance except through the Fair Plan because no conventional Insurance Companies will write for us. To put a BESS in Acton is to court disaster. And the technology in 10 years will probably be obsolete, but the fire risk will remain. The embers and flames, from a BESS explosion, carried by our record breaking winds to our native scrub and juniper vegetation will assure that homes, human and animal lives will be lost, as well as structures. There are other places to put a BESS, like the Mojave desert, where the native vegetation is almost non existent. The financial convenience of a BESS in Acton cannot be allowed to outweigh the risk to us the residents, and our lives and property.
