Opposition to the Prairie Song Reliability Project BESS

Let me be among the first to vehemently oppose your siting plan, and please understand that I speak for myself, my wife, my grown children and my three grandchildren - all of whom live in Acton.

We are a high desert, equestrian community. Acton is rural in nature with an abundance of highly flammable brush and chaparral. We are already designated as a high fire risk zone.

The location proposed for the Prairie Song Reliability Project BESS is unacceptable on many levels. The risk of a conflagration, toxic pollution, poisoning of ground water, loss of properties and loss of life are excessive and are simply unacceptable to the residents of Acton.
