## **No Lithium Ion Battery Storage - Contaminated Soil & Water**

Over the time we have lived on our property, we have cultivated and harvested a beautiful garden. This year has been a bountiful harvest of the most delicious tomatoes & peppers. I don't want to have to worry about contaminated water and soil that could harm our garden and ultimately our health. Please do not allow this Lithium Ion Battery Storage System in our neighborhood or our county. No one deserves to live in fear of what could happen if a battery storage catches fire. I have included a picture of one harvest of tomatoes grown to feed my family & friends.
