1 Introduction

The Darden Clean Energy Project (DCEP) is a 1,150 MW solar photovoltaic (PV) facility, a 4,600 MW-hour battery energy storage system (BESS), step-up substation, generation-intertie line, and switchyard on approximately 9,500 acres in western Fresno County, California.

Provided by California AB 205, the California Energy Commission (CEC) has the statutory authority to certify solar photovoltaic, and other facilities, for construction and operation in lieu of any permit, certificate, or similar document required by a state, local, or regional agency, or federal agency, to the extent permitted by federal law, for those facilities, that Opt-in to a thorough review process by CEC staff. DCEP was certified for construction and operation by the CEC on June 11, 2025. Pursuant to the Conditions of Certification (COCs) identified in the CEC's Staff Assessment and Final Order certified on June 12, 2025 and published to the project's docket (23-OPT-02), this is the Monthly Compliance Report (MCR) to the CEC's Compliance Project Manager (CPM). This MCR will include details on recent, or upcoming, submittals to the CPM, Delegate Chief Building Official (DCBO), and/or other relevant authorities pursuant to the requirements outlined in the COCs. As shown in Section 2, Key Events List, site mobilization for the Harlan Switchyard will commence on October 6, 2025 and site mobilization for Darden (including the PV facility, BESS, step-up substation, and generation-intertie line) will commence on November 17, 2025.

2 Key Events List

Project: Darden Clean Energy Project

Docket #: 23-OPT-02C

CEC Compliance Project Manager: Joseph Douglas

Event Description	Date
Certification Date	6/12/2025
Finalize Land Sale Transaction	10/15/2025
On-line Date	3/31/2028
Site Activities	
Start Site Mobilization / Construction (Harlan Switchyard ONLY)	10/6/2025
Start Site Assessment / Pre-construction / Pre-Seeding	11/17/2025
Start Site Mobilization / Construction (Darden)	11/17/2025
Begin Driving Steel Foundations	3/31/2026
Begin Installation of Major Equipment	4/15/2026
First Start/Energizing of PV Array or BESS	4/22/2027
Obtain Building Occupation Permit	5/19/2028
Start Commercial Operation	3/31/2028
Complete All Construction	3/24/2028
Transmission Line Activities	
Start Transmission Line Construction	4/13/2026
Complete Transmission Line Construction	3/24/2027
Synchronization with Grid and Interconnection	4/22/2027

3 Documents Submitted with MCR

COC #	Document Title	Location in MCR
COM-4	Preconstruction Compliance Matrix	Attachment A, Preconstruction Compliance Matrix
COM-5	Compliance Matrix	Section 5, Compliance Matrix
COM-6	Key Events List	Section 2, Key Events List

4 Reporting Period Updates

Reporting Period: August 1 through August 31

4.1. Key Events

DCEP is currently in a pre-construction planning phase, conforming design requirements to all applicable Laws, Ordinances, Regulations and Statutes (LORS), and ensuring all obligations of the COCs are met. No Notices To Proceed (NTP) to report on.

4.2. Other Governmental Agency Filings and Submittals

On-going coordination and review with Fresno County Staff and Fresno County Fire Protection District regarding applicable COCs.

4.3. Additions to Onsite Compliance File

Activity pending, nothing to report.

4.4. Conditions of Certification Updates

This section summarizes only the major updates to the status of compliance for each COC, categorized by technical resource area. Minor updates and progress comments are included in Section 5, Compliance Matrix.

4.4.1. Biological Resources

BIO-5: Worker Environmental Awareness Program (WEAP)

At least 45 days prior to start of site mobilization the project owner shall provide to the CPM for review and approval, the draft WEAP/WEAP Light and all supporting written materials and electronic media prepared or reviewed by the Designated Biologist and a resume of the person(s) administering the program. The CPM must approve the WEAP/WEAP Light materials prior to their use.

- The Draft WEAP was submitted to the CPM on 8/25/2025.

BIO-6: Biological Resources Mitigation Implementation and Monitoring Plan (BRMIMP)

The project owner shall submit the BRMIMP to the CPM for review and approval at least 60 days prior to start of any site mobilization.

- The Draft BRMIMP was submitted to the CPM on 8/25/2025.

4.4.2. Compliance Conditions and Compliance Monitoring Plan**COM-4: Preconstruction Compliance Matrix**

Prior to construction, the project owner is required to submit a compliance matrix to the CPM including only those conditions that must be fulfilled before the start of construction.

- Refer to Attachment A, Preconstruction Compliance Matrix.

COM-5: Compliance Matrix

The project owner is required to submit a compliance matrix to the CPM with each MCR and ACR.

- Refer to Section 5, Compliance Matrix.

COM-6: First Monthly Compliance Report

During preconstruction, construction, or closure, the project owner or authorized agent shall submit an electronic searchable version of the MCR to the CPM within 10 business days after the end of each reporting month.

- This MCR is being submitted in accordance with COM-6.

4.4.3. Cultural and Tribal Cultural Resources**CUL-2 and SWITCH CUL-2: Cultural and Tribal Cultural Resources Mitigation and Monitoring Plan (CTCRMMP)**

At least 90 days prior to the start of construction, the project owner shall provide a draft CTCRMMP to CEC for review and approval.

- One CTCRMMP was prepared for the project and covers all project components, including the PV facility, BESS, step-up substation, generation-intertie line, and switchyard. The Draft CTCRMMP was submitted to the CPM on 8/14/2025.

4.4.4. Facility Design

GEN-2: Schedule of Facility Design Submittals/Master Drawings and Master Specifications List

At least 60 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO and to the CPM the schedule, and the master drawings and master specifications list of documents to be submitted to the DCBO, for review and approval.

- The Draft Schedule of Facility Design Submittals/Master Drawings and Master Specifications List was submitted to the CPM on 8/15/2025.

4.4.5. Geology, Paleontology, and Minerals

SWITCH GEO-1: Geotechnical Report

As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.

- The DCBO had no comments on the Geotechnical Report for the Harlan Switchyard and approved the report on 8/7/2025. The DCBO's approval was submitted to the CPM on 8/18/2025.

4.4.6. Hazards, Hazardous Materials/Waste, and Wildfire

SWITCH HAZ-2: Copy of Letters from the Fresno County Fire Protection District (FCFPD)

The project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan.

- In progress. The FCFPD provided comments on the Construction Fire Prevention Plan, Emergency Action Plan, and Emergency Response Plan for the Harlan switchyard on 8/25/2025. IP Darden will submit revisions to these plans and responses to comments to the FCFPD in early September.

4.4.7. Transmission System Engineering

TSE-1: Schedule of Facility Design Submittals/Master Drawings and Master Specifications List

Before the start of construction, the project owner shall submit the schedule, a Master Drawing List, and a Master Specifications List to the DCBO and to the CPM.

- The Draft Schedule of Facility Design Submittals/Master Drawings and Master Specifications List was submitted to the CPM on 8/15/2025.

4.4.8. Worker Safety and Fire Protection

Worker Safety-1: Project Construction Health and Safety Program and a Copy of Resolved Comments from the FCFPD

At least 90 days prior to the start of construction, the project owner shall submit to the CPM for review and approval a copy of the Project Construction and Safety and Health Program. The project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan.

- A Draft Project Construction Health and Safety Program was submitted to the CPM on 8/20/2025.
- In progress. The FCFPD provided comments on the Construction Fire Prevention Plan, Emergency Action Plan, and Emergency Response Plan on 8/25/2025. IP Darden will submit revisions to these plans and responses to comments to the FCFPD in early September.

Worker Safety-3: Construction Safety Supervisor (CSS) Contact Information

At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS.

- The CSS contact information was approved by the CPM on 8/15/2025.

Worker Safety-11: Valley Fever Prevention and Response Plan

At least 60 days prior to the commencement of site mobilization, the VF Prevention and Response Plan shall be provided to the CPM for review and approval.

- The Valley Fever Prevention and Response Plan was submitted to the CPM on 8/20/2025.

4.5. Two-Month Look Ahead

The project owner will make the following compliance filings, as needed, over the next two months:

- AQ-SC-1: Name, resume, qualifications, and contact information for the AQCOMM and AQCOMM Delegates
- AQ-SC-2: Draft Air Quality Construction Mitigation Plan (AQCMP)
- AQ-SC-6: Voluntary Emissions Reduction Agreement (VERA)
- BIO-3: Written statement confirming that individual Biological Monitor(s) have been trained including the date when training was completed
- BIO-5: CPM-approved Final WEAP
- BIO-6: Final Biological Resources Mitigation Implementation and Monitoring Plan (BRMIMP) (pending receipt of CEC comments on Draft BRMIMP)
- BIO-8: Draft Nesting Bird Management Plan
- BIO-9: Draft Swainson's Hawk Conservation Strategy and Foraging Habitat Revegetation and Management Plan
- BIO-10: Draft Swainson's Hawk Nest Abandonment Contingency Plan
- BIO-11: Security for Swainson's Hawk compensation
- BIO-12: Draft BUOW Mortality Reduction Plan and Draft BUOW Artificial Burrow Replacement Plan
- BIO-13: Security in the amount of in the form of an irrevocable letter of credit or another form of Security for Burrowing Owl compensation OR copy of the Bill of Sale(s) and Payment Receipt for Burrowing Owl compensation
- BIO-14: American badger survey report
- BIO-15: San Joaquin kit fox survey report
- BIO-16: Crotch's bumblebee habitat assessment
- COM-1 through COM-4 and COM-8: Ongoing compliance
- COM-5 and COM-6: MCRs
- COM-11: Letter to property owners within one mile of the project notifying them of a telephone number to contact project representatives with questions, complaints or concerns
- COM-12: Emergency Response Site Contingency Plan (Contingency Plan)
- CUL-2: Final CTCRMMP (pending CEC comments on Draft CTCRMMP)
- CUL-3: Notification that the WEAP has been scheduled and tribal participants have been allowed participation should they have requested so during CEC's ongoing tribal consultation for the undertaking
- GEN-2: Update to the schedule of facility design submittals/master drawings and master specifications list of documents
- GEN-3: Receipt of payment to the DCBO

- GEN-4: DCBO's approvals of the resident engineer (RE) and other delegated engineer(s)
- GEN-5: DCBO's approvals of the responsible engineers
- HAZ-4: Construction Security Plan
- HAZ-6: Soils Management Plan
- HAZ-7: The resume of an experienced and qualified professional engineer or professional geologist
- NOISE-2: Employee Noise Control Program
- NOISE-5: A statement acknowledging that the Construction Noise Restrictions will be observed throughout the construction of the project
- PAL-1: A letter with resumes naming anticipated Paleontological Resource Monitors (PRMs) for the project
- PAL-2: Maps identifying where ground disturbance is anticipated.
- PAL-3: Draft Paleontological Resources Monitoring and Mitigation Plan
- PAL-4: Draft WEAP, including brochure and sticker
- PAL-5: Resume and qualifications of the trainer providing the WEAP training
- SWITCH BIO-1: Blunt-nosed leopard lizard (BNLL) survey report
- SWITCH CUL-2: Final CTCRMMP (pending CEC comments on Draft CTCRMMP)
- SWITCH CUL-3: Notification that the WEAP has been scheduled and tribal participants have been allowed participation should they have requested so during CEC's ongoing tribal consultation for the undertaking
- SWITCH HAZ-1: Hazardous Materials Management Plan
- SWITCH HAZ-2: Copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, Emergency Action Plan, and Emergency Response Plan
- SWITCH TLSN-1: Letter confirming compliance
- SWITCH-Water-1: Proof that the construction permit was granted and that a waste discharge identification number (WDID) was issued by the State Water Resource Control Board (SWRCB)
- SWITCH Waste-1: Construction Waste Management Plan
- SWITCH VIS-1: Surface Treatment Plan
- TRANS-3: Construction Management Plan (CMP) and transmittal letter regarding submittal of the CMP to Caltrans and Fresno County
- TLSN-5: Letter confirming compliance with this condition
- TSE-1: Update to the schedule of facility design submittals/master drawings and master specifications list of documents
- TSE-2: Notification that the DCBO has approved the following:
 - civil engineer
 - geotechnical engineer or civil engineer experienced in soil engineering

- design engineer
- mechanical engineer
- electrical engineer
- VIS-1: Exterior surface coating, color, finish, and materials plan
- VIS-2: Light Pollution Control Plan
- VIS-3: Plan locating support structure adjacent to I-5 and exterior surface coating, color, finish, and materials plan for utility structures crossing I-5
- Waste-1: Construction Waste Management Plan
- Water-1: Proof that the construction permit was granted and that a waste discharge identification number (WDID) was issued by the SWRCB
- Worker Safety-1: A copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, Emergency Action Plan, and Emergency Response Plan.
- Worker Safety-4: Proof of agreement to fund the Safety Monitor services
- Worker Safety-5: Sampling and Analysis Plan and laboratory findings
- Worker Safety-6: Worker fire safety procedures with a standard checklist
- Worker Safety -7:
 - Require that the lithium-ion batteries be shipped from the factory to the project site at a maximum of 30 percent State of Charge (SOC);
 - Provide that fire lanes exist down the length and width of the BESS units wide enough to allow for fire engine access;
 - Provide at least two gates into the BESS facility wide enough for emergency access;
 - Install remote fire or heat sensors at sufficient locations to cover the entire BESS facility (e.g., thermal infrared);
 - Provide fire water flow of at least 1,500 gallons per minute;
 - Install closed-circuit television (CCTV) cameras with Pan, Tilt, Zoom (PTZ), and low-light capability that cover the entire area of the BESS and which would have their own separate power supply;
 - Establish a Command and Control Protocol for staff to perform emergency duties and responsibilities during the detection, initiation, and escalation of a BESS fire;
 - Establish remote telemetry and CCTV viewing in a Command and Control Center located at a safe distance from the BESS facility for an Incident Commander to use;
 - Establish an annual joint training program with the FCFPD that includes tabletop exercises for a BESS fire;
 - Consult with the FCFPD in preparing the fire protection system specifications and drawings for the Operations and Maintenance Building

to ensure an adequate water supply for the fire suppression systems for the BESS facility as well as for occupied buildings; and

- Implement the final provisions of CPUC GO 167-C.
- Worker Safety-10: Proof of portable AED
- Worker Safety-12: A copy of the agreement with the FCFPD for funding or a copy of the arbiter's decision

4.6. Project Incidents and Corrective Actions

Construction has not yet begun, nothing to report.

5 Project Compliance Matrix

Darden Clean Energy Project

Air Quality	AQ-12	The right of entry described in CH&SC Section 41510, Division 26, shall apply at all times. The project owner shall make the site available for inspection by representatives of the District, ARB, U.S. EPA and the Energy Commission.	N/A	No Action Needed				
Air Quality	AQ-13	The project owner shall submit a quarterly compliance report to the CPM. In this report, the project owner shall indicate how this condition is being implemented. A summary of significant operation and maintenance events and monitoring records required shall be included in the quarterly operation reports.	Quarterly	Not Started				
Air Quality	AQ-14	A summary of significant operation and maintenance events and monitoring records required shall be included in the quarterly operation reports.	Quarterly	Not Started				
Air Quality	AQ-15	A summary of significant operation and maintenance events and monitoring records required shall be included in the quarterly operation reports.	Quarterly	Not Started				
Air Quality	AQ-16	A negative declaration stating the engine was not used to produce power for the electrical distribution system, as part of a voluntary utility demand reduction program, or for an interruptible power contract operation shall be included in the quarterly operation reports.	Quarterly	Not Started				
Air Quality	AQ-17	A summary of significant operation and maintenance events and monitoring records required shall be included in the quarterly operation reports.	Quarterly	Not Started				

Air Quality	AQ-18	The right of entry described in CH&SC Section 41510, Division 26, shall apply at all times. The project owner shall make the site available for inspection by representatives of the District, ARB, U.S. EPA and the Energy Commission.	N/A	No Action Needed				
Air Quality	AQ-SC-1	At least 30 days prior to the start of ground disturbance, the project owner shall submit to the CPM for approval, the name, resume, qualifications, and contact information for the on-site AQCMM and all AQCMM Delegates.	At least 30 days prior to the start of ground disturbance	In Progress				In Progress
Air Quality	AQ-SC-2	At least 30 days prior to the start of any ground disturbance, the project owner shall submit the AQCMP to the CPM for approval. The AQCMP shall include effectiveness and environmental data for the proposed soil stabilizer. The CPM will notify the project owner of any necessary modifications to the plan within 15 days from the date of receipt.	At least 30 days prior to the start of any ground disturbance	In Progress				In Progress
Air Quality	AQ-SC-3	The AQCMM shall provide the CPM a Monthly Compliance Report to include the following to demonstrate control of fugitive dust emissions: A. A summary of all actions taken to maintain compliance with this condition; B. Copies of any complaints filed with the District in relation to project construction; and C. Any other documentation deemed necessary by the CPM and AQCMM to verify compliance with this condition. Such information may be provided via electronic format or disk at the project owner's discretion.	Monthly	Not Started				
Air Quality	AQ-SC-4	The AQCMM shall provide the CPM a Monthly Compliance Report to include: A. A summary of all actions taken to maintain compliance with this condition; B. Copies of any complaints filed with the District in relation to project construction; and C. Any other documentation deemed necessary by the CPM and AQCMM to verify compliance with this condition. Such information may be provided via electronic format or disk at the project owner's discretion.	Monthly	Not Started				
Air Quality	AQ-SC-5	The AQCMM shall include in the Monthly Compliance Report the following to demonstrate control of diesel construction-related emissions: A. A summary of all actions taken to control diesel construction related emissions; B. A list of all heavy equipment used on site during that month, including the owner of that equipment and a letter from each owner indicating that equipment has been properly maintained; and C. Any other documentation deemed necessary by the CPM, and the AQCMM to verify compliance with this condition. Such information may be provided via electronic format or disk at the project owner's discretion.	Monthly	Not Started				
Air Quality	AQ-SC-6	At least 30 days prior to ground disturbance, the project owner shall submit to the CPM for approval the VERA between the project owner and SJVAPCD.	At least 30 days prior to ground disturbance	In Progress				In Progress
Biological Resources	BIO-1	The project owner shall submit the specified information at least 75 days prior to the start of site mobilization or construction-related ground disturbance activities. No pre-construction site mobilization or construction related activities shall commence until a Designated Biologist has been approved by the CPM. If a Designated Biologist needs to be replaced, the specified information regarding the proposed replacement must be submitted to the CPM at least ten working days prior to the termination or release of the preceding Designated Biologist. In an emergency, the project owner shall immediately notify the CPM to discuss the qualifications and approval of a short-term replacement while a permanent Designated Biologist is proposed to the CPM for consideration.	at least 75 days prior to the start of site mobilization or construction-related ground disturbance activities.	Submitted	7/18/2025 7/25/2025 (supplemental resumes)			Submitted to CPM
Biological Resources	BIO-1	The project owner shall submit the specified information at least 75 days prior to the start of site mobilization or construction-related ground disturbance activities. No pre-construction site mobilization or construction related activities shall commence until a Designated Biologist has been approved by the CPM. If a Designated Biologist needs to be replaced, the specified information regarding the proposed replacement must be submitted to the CPM at least ten working days prior to the termination or release of the preceding Designated Biologist. In an emergency, the project owner shall immediately notify the CPM to discuss the qualifications and approval of a short-term replacement while a permanent Designated Biologist is proposed to the CPM for consideration.	at least ten working days prior to the termination or release of the preceding Designated Biologist	No Action Needed				
Biological Resources	BIO-2	The Designated Biologist shall submit in the MCRs to the CPM copies of all written reports and summaries that document construction activities that have the potential to affect biological resources. The Designated Biologist's written records will be made available for the CPM's inspection on request at any time during normal business hours. During project operation, the Designated Biologist(s) shall submit record summaries in the ACR unless their duties cease, as approved by the CPM.	Annually	Not Started				
Biological Resources	BIO-2	The Designated Biologist shall submit in the MCRs to the CPM copies of all written reports and summaries that document construction activities that have the potential to affect biological resources. The Designated Biologist's written records will be made available for the CPM's inspection on request at any time during normal business hours. During project operation, the Designated Biologist(s) shall submit record summaries in the ACR unless their duties cease, as approved by the CPM.	Monthly	Not Started				

Biological Resources	BIO-3	The project owner shall submit the specified information to the CPM for approval for review and comment at least 45 days prior to the start of any project-related site disturbance activities. Within 10 days of completion of training, the Designated Biologist shall submit a written statement to CPM confirming that individual Biological Monitor(s) have been trained including the date when training was completed. If additional biological monitors are needed during construction or for species specific surveys, the specified information shall be submitted to the CPM for approval at least 10 days prior to their first day of monitoring activities.	at least 45 days prior to the start of any project-related site disturbance activities	Submitted	7/18/2025 7/25/2025 (supplemental resumes)			Submitted to CPM
Biological Resources	BIO-3	The project owner shall submit the specified information to the CPM for approval for review and comment at least 45 days prior to the start of any project-related site disturbance activities. Within 10 days of completion of training, the Designated Biologist shall submit a written statement to CPM confirming that individual Biological Monitor(s) have been trained including the date when training was completed. If additional biological monitors are needed during construction or for species specific surveys, the specified information shall be submitted to the CPM for approval at least 10 days prior to their first day of monitoring activities.	Within 10 days of completion of training	Not Started				
Biological Resources	BIO-3	The project owner shall submit the specified information to the CPM for approval for review and comment at least 45 days prior to the start of any project-related site disturbance activities. Within 10 days of completion of training, the Designated Biologist shall submit a written statement to CPM confirming that individual Biological Monitor(s) have been trained including the date when training was completed. If additional biological monitors are needed during construction or for species specific surveys, the specified information shall be submitted to the CPM for approval at least 10 days prior to their first day of monitoring activities.	for approval at least 10 days prior to their first day of monitoring activities	No Action Needed				
Biological Resources	BIO-4	The project owner shall ensure that the Designated Biologist or Biological Monitor notifies the CPM immediately (and no later than the morning following the incident, or Monday morning in the case of a weekend) of any non-compliance with biological resources conditions of certification or a halt of any site mobilization, ground disturbance, grading, construction, and operation activities with the potential to adversely impact biological resources. The project owner shall notify the CPM of the circumstances and actions being taken to resolve the problem within one (1) working day of initiating the corrective action.	Immediately (and no later than the morning following the incident, or Monday morning in the case of a weekend)	No Action Needed				
Biological Resources	BIO-4	The project owner shall ensure that the Designated Biologist or Biological Monitor notifies the CPM immediately (and no later than the morning following the incident, or Monday morning in the case of a weekend) of any non-compliance with biological resources conditions of certification or a halt of any site mobilization, ground disturbance, grading, construction, and operation activities with the potential to adversely impact biological resources. The project owner shall notify the CPM of the circumstances and actions being taken to resolve the problem within one (1) working day of initiating the corrective action.	within one (1) working day of initiating the corrective action	No Action Needed				
Biological Resources	BIO-5	At least 45 days prior to start of site mobilization the project owner shall provide to the CPM for review and approval, the draft WEAP/WEAP Light and all supporting written materials and electronic media prepared or reviewed by the Designated Biologist and a resume of the person(s) administering the program. The CPM must approve the WEAP/WEAP Light materials prior to their use. At least 10 days prior to site and related facilities mobilization, the project owner shall provide the CPM a copy of the CPM-approved final WEAP/WEAP Light. The project owner shall provide in the Monthly Compliance Report the number of persons who have completed the training in the prior month and a running total of all persons who have completed the training to date. At least 10 days prior to site mobilization the project owner shall submit the approved final WEAP/WEAP Light and implement the training for all workers. The WEAP/WEAP Light shall be routinely administered within 1 week of arrival to any new construction personnel, foremen, contractors, subcontractors, and other personnel working at the project site. Upon completion of the orientation, employees shall sign a form stating that they attended the program and understand all protection measures. These forms shall be maintained by the project owner and shall be made available to the CPM upon request. Workers shall receive and be required to visibly display a hardhat sticker or certificate that they have completed the training. Training acknowledgement forms signed during construction shall be kept on file by the project owner for at least 6 months after the start of commercial operation. Throughout the life of the project, the WEAP/WEAP Light shall be repeated annually for permanent employees, and shall be routinely administered within 1 week of arrival to any new construction personnel, foremen, contractors, subcontractors, and other personnel potentially working within the project area. During project operation, signed statements for operational personnel shall be kept on file for 6 months following the termination of an individual's employment.	At least 45 days prior to start of site mobilization	Submitted	8/25/2025		Submitted to CPM	

Biological Resources	BIO-5	<p>At least 45 days prior to start of site mobilization the project owner shall provide to the CPM for review and approval, the draft WEAP/WEAP Light and all supporting written materials and electronic media prepared or reviewed by the Designated Biologist and a resume of the person(s) administering the program. The CPM must approve the WEAP/WEAP Light materials prior to their use. At least 10 days prior to site and related facilities mobilization, the project owner shall provide the CPM a copy of the CPM-approved final WEAP/WEAP Light. Compliance Conditions and Compliance Monitoring Plan	COM-1	Unrestricted Access. The project owner shall take all steps necessary to ensure that the CPM, responsible CEC staff, and delegate agencies or consultants, have unrestricted access to the facility site, related facilities, project-related staff, and the records maintained on site for the purpose of conducting audits, surveys, inspections, or general or closure-related site visits. Although the CPM will normally schedule site visits on dates and times agreeable to the project owner, the CPM reserves the right to make unannounced visits at any time, whether such visits are by the CPM in person or through representatives from CEC staff, delegated agencies, or consultants.	N/A	In Progress				In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-2	The project owner shall maintain electronic copies of all project files and submittals accessible on site, or at an alternative site approved by the CPM, for the operational life and closure of the project. The files shall also contain at least one hard copy of: 1. the facility's Opt-In Application; 2. all amendment petitions and CEC orders; 3. all site-related environmental impact and survey documentation; 4. all appraisals, assessments, and studies for the project; 5. all finalized original and amended structural plans and "as-built" drawings for the entire project; 6. all citations, warnings, violations, or corrective actions applicable to the project, and 7. the most current versions of any plans, manuals, and training documentation required by the COCs or applicable LORS. The CEC staff and delegate agencies shall, upon request to the project owner, be given unrestricted access to the files maintained pursuant to this condition which includes electronic submission of records to the CEC	N/A	In Progress				In Progress

Compliance Conditions and Compliance Monitoring Plan	COM-3	<p>Verification lead times associated with the start of construction may require the project owner to file submittals during application or amendment processing, particularly if construction is planned to commence shortly after certification. The verification procedures may be modified as necessary by the CPM after notice to the project owner.</p> <p>A cover letter from the project owner or an authorized agent is required for all compliance submittals and correspondence pertaining to compliance matters. The cover letter subject line shall identify the project by docket number, cite the appropriate condition of certification number(s), and give a brief description of the subject of the submittal. When submitting supplementary or corrected information, the project owner shall reference the date of the submittal and the condition(s) of certification applicable.</p> <p>All reports and plans required by the project's COCs shall be submitted in a searchable electronic format (.pdf, MS Word or Excel, etc.) and include standard formatting elements such as a table of contents identifying by title and page number each section, table, graphic, exhibit, or addendum. All report and/or plan graphics and maps shall be adequately scaled and shall include a key with descriptive labels, directional headings, a bar scale, and the most recent revision date.</p> <p>The project owner is responsible for the content and delivery of all verification submittals to the CPM showing that the actions required by the verification were satisfied by the project owner or an agent of the project owner. All submittals shall be submitted electronically by email.</p>	N/A	In Progress				In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-4	<p>Prior to construction, the project owner shall submit to the CPM a compliance matrix including only those conditions that must be fulfilled before the start of construction. The matrix shall be included with the project owner's first compliance submittal or prior to the first pre-construction meeting, whichever comes first, and shall be submitted in a format similar to the description below.</p> <p>Site mobilization and construction activities shall not start until the following have occurred:</p> <ol style="list-style-type: none"> 1. the project owner has submitted the pre-construction matrix and all compliance verifications pertaining to pre-construction COCs; and 2. the CPM has issued an authorization-to-construct letter to the project owner. <p>The deadlines for submitting various compliance verifications to the CPM allow staff sufficient time to review and comment on, and, if necessary, also allow the project owner to revise the submittal in a timely manner. These procedures help ensure that project construction proceeds according to schedule. Failure to submit required compliance documents by the specified deadlines may result in delayed authorizations to commence various stages of the project.</p> <p>If the project owner anticipates site mobilization immediately following project certification, it may be necessary for the project owner to file compliance submittals prior to project certification. In these instances, compliance verifications can be submitted in advance of the required deadlines and the anticipated authorizations to start construction. The project owner must understand that submitting items required in compliance verifications prior to these authorizations is at the owner's own risk. Any approval by CEC staff prior to project certification is subject to change based upon the Commission Decision, or amendment thereto, and early staff compliance approvals do not imply that the CEC will certify the project for actual construction and operation.</p>	Prior to construction	Submitted	7/11/2025			Submitted to CPM
Compliance Conditions and Compliance Monitoring Plan	COM-5	<p>The project owner shall submit a compliance matrix to the CPM with each MCR and ACR. The compliance matrix shall identify:</p> <ol style="list-style-type: none"> 1. the technical area (e.g., biological resources, facility design, etc.); 2. the condition number; 3. a brief description of the verification action or submittal required by the condition; 4. the date the submittal is required (e.g., 60 days prior to construction, after final inspection, etc.); 5. the expected or actual submittal date; 6. the date a submittal or action was approved by the Delegate Chief Building Official (DCBO), CPM, or delegate agency, if applicable; 7. the compliance status of each condition (e.g., "not started," "in progress" or "completed" (include the date)); and 8. if the condition was amended, the updated language and the date the amendment was proposed or approved. <p>The CPM can provide a template for the compliance matrix upon request.</p>	Each MCR	In Progress	<p>June 2025 MCR: 7/11/2025</p> <p>July 2025 MCR: 8/14/2025</p>			In Progress

Compliance Conditions and Compliance Monitoring Plan	COM-7	<p>After construction is complete, the project must submit searchable electronic ACRs to the CPM, as well as other periodic compliance reports (PCRs) required by the various technical disciplines. ACRs shall be completed for each year of commercial operation and are due each year on a date agreed to by the CPM. Other PCRs (e.g. quarterly reports or decommissioning reports to monitor closure compliance), may be specified by the CPM. The searchable electronic copies may be filed on an electronic storage medium or by e-mail, subject to CPM approval. Each ACR must include the docket number, identify the reporting period, and contain the following:</p> <p>1. an updated compliance matrix which shows the status of all COCs (fully satisfied conditions do not need to be included in the matrix after they have been reported as completed);</p> <p>2. a summary of the current project operating status and an explanation of any significant changes to facility operations during the year;</p> <p>3. documents required by specific conditions to be submitted along with the ACR; each of these items shall be identified in the transmittal letter with the condition(s) it satisfies, and submitted as an attachment to the ACR;</p> <p>4. a cumulative list of all post-certification changes approved by the Energy Commission or the CPM;</p> <p>5. an explanation for any submittal deadlines that were missed, accompanied by an estimate of when the information will be provided;</p> <p>6. a listing of filings submitted to, or permits issued by, other governmental agencies during the year;</p> <p>7. a projection of project compliance activities scheduled during the next year;</p> <p>8. a listing of the year’s additions to the on-site compliance file;</p> <p>9. an evaluation of the Site Contingency Plan, including amendments and plan updates; and</p> <p>10. a listing of complaints, incidents, notices of violation, official warnings, and citations received during the year, a description of how the issues were resolved, and the status of any unresolved complaints.</p>	Post construction	Not Started				
Compliance Conditions and Compliance Monitoring Plan	COM-8	Any information that the project owner designates as confidential shall be submitted to the Energy Commission’s Executive Director with an application for confidentiality, pursuant to Title 20, California Code of Regulations, section 2505(a). Any information deemed confidential pursuant to the regulations will remain undisclosed, as provided in Title 20, California Code of Regulations, section 2501 et seq.	N/A	In Progress				In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-9	Pursuant to the provisions of section 25806(b) of the Public Resources Code, the project owner is required to pay an annually adjusted compliance fee. Current compliance fee information is available on the CEC’s website at http://www.energy.ca.gov/siting/filing_fees.html . The project owner may also contact the CPM for the current fee information. The initial payment is due on the date the CEC docket its final Decision. All subsequent payments are due by July 1 of each year in which the facility retains its certification.	Date of Decision	Not Started				

Compliance Conditions and Compliance Monitoring Plan	COM-10	<p>The project owner shall petition the CEC, pursuant to Title 20, California Code of Regulations, section 1882, to modify the design, operation, or performance requirements of the project or linear facilities. The CPM will determine whether staff approval will be sufficient, or whether CEC approval will be necessary. It is the project owner’s responsibility to contact the CPM to determine if a proposed project change triggers the requirements of section 1882. Section 1882 details the required contents for a petition to amend a CEC Decision.</p> <p>For changes in ownership or operational control the existing owner/operator and incoming owner/operator shall jointly in writing notify the CPM, 30 days in advance of the pending change in ownership or operational control, the fact of the change and all relevant contact information. Upon the transition, the new owner/operator will be obligated to comply with all requirements of the certification and will be subject to enforcement actions.</p> <p>A project owner is required to submit a \$5,000 fee for every petition to amend a previously certified facility, pursuant to Public Resources Code section 25806 (e). If the actual amendment processing costs exceed \$5,000.00, the total PTA reimbursement fees owed by a project owner will not exceed the OPT cap of \$1,050,850, adjusted annually. Current amendment fee information is available on the CEC’s website at http://www.energy.ca.gov/siting/filing_fees.html.</p>	N/A	No Action Needed

Compliance Conditions and Compliance Monitoring Plan	COM-15	To ensure that a facility's eventual permanent closure and maintenance do not pose a threat to public health and safety and/or to environmental quality, the project owner shall coordinate with the CEC to plan and prepare for eventual permanent closure.	Prior to permanent closure	No Action Needed				
Cultural and Tribal Cultural Resources	CUL-1	Within 30 days of selection of a CRS, the project owner shall provide a copy of any resume(s) to CEC for review and approval that the CRS meets the Standards.	within 30 days of selection of CRS	Submitted	7/25/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	CUL-2	At least 90 days prior to the start of construction, the project owner shall provide a draft CTCRMMP to CEC for review and approval.	90 days prior to construction	Submitted	8/14/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	CUL-3	At least 20 days prior to the start of construction, the project owner shall notify CEC that the WEAP has been scheduled and allow for participation of any tribal participants should they have requested so during CEC's ongoing tribal consultation for the undertaking.	20 days prior to construction	Not Started				
Cultural and Tribal Cultural Resources	CUL-4	Within 60 days of completion of ground disturbing activities requiring monitoring, the CRS shall provide a monitoring report to the CEC for review and approval, consistent with the CTCRMMP prepared under COC CUL-2.	Submit within 60 days after construction monitoring is completed	Not Started				
Cultural and Tribal Cultural Resources	CUL-5	Should there be an unanticipated discovery of cultural or tribal cultural resources, the CRS shall comply with state law and any provisions described in the CTCRMMP. The CRS shall notify CEC within 24 hours of the discovery and invite CEC's participation in the resolution of the find.	24 hours from discovery	No Action Needed				
Cultural and Tribal Cultural Resources	CUL-6	Should human remains be discovered, the CRS shall comply with state law and any provisions described in the AMDP. The CRS shall notify CEC within 24 hours of the discovery and invite CEC's participation in the resolution of the find.	24 hours from discovery	No Action Needed				
Facility Design	ELEC-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction, the project owner shall submit to the DCBO for design review and approval the above listed documents. The project owner shall include in this submittal a copy of the signed and stamped statement from the responsible electrical engineer attesting compliance with the applicable LORS and shall send the CPM a copy of the transmittal letter in the next MCR.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction	In Progress				In Progress
Facility Design	ELEC-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction, the project owner shall submit to the DCBO for design review and approval the above listed documents. The project owner shall include in this submittal a copy of the signed and stamped statement from the responsible electrical engineer attesting compliance with the applicable LORS and shall send the CPM a copy of the transmittal letter in the next MCR.	Next MCR	Not Started				
Facility Design	GEN-1	Within 30 days following receipt of the certificate of occupancy (CoFo), the project owner shall submit to the Compliance project Manager (CPM) a statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design. The project owner shall provide the CPM a copy of the CoFo within 30 days of receipt from the DCBO. Once the CoFo has been issued, the project owner shall inform the CPM at least 30 days prior to any construction, addition, alteration, moving, demolition, repair, or maintenance to be performed on any portion(s) of the completed facility that requires DCBO approval for compliance with the above codes. The CPM will then determine if the DCBO needs to approve the work. A statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design, shall be submitted to the Compliance Project Manager (CPM).	30 days following the receipt of CoFo	Not Started				
Facility Design	GEN-1	Within 30 days following receipt of the certificate of occupancy (CoFo), the project owner shall submit to the Compliance project Manager (CPM) a statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design. The project owner shall provide the CPM a copy of the CoFo within 30 days of receipt from the DCBO. Once the CoFo has been issued, the project owner shall inform the CPM at least 30 days prior to any construction, addition, alteration, moving, demolition, repair, or maintenance to be performed on any portion(s) of the completed facility that requires DCBO approval for compliance with the above codes. The CPM will then determine if the DCBO needs to approve the work. A statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design, shall be submitted to the Compliance Project Manager (CPM).	The project owner shall provide the CPM a copy of the certificate of occupancy (CoFo) within 30 days of receipt from the DCBO.	Not Started				

Facility Design	GEN-1	<p>Within 30 days following receipt of the certificate of occupancy (CoFo), the project owner shall submit to the Compliance project Manager (CPM) a statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design. The project owner shall provide the CPM a copy of the CoFo within 30 days of receipt from the DCBO. Once the CoFo has been issued, the project owner shall inform the CPM at least 30 days prior to any construction, addition, alteration, moving, demolition, repair, or maintenance to be performed on any portion(s) of the completed facility that requires DCBO approval for compliance with the above codes. The CPM will then determine if the DCBO needs to approve the work.</p> <p>A statement of verification, signed by the responsible design engineer, attesting that all designs, construction, installation, and inspection requirements of the applicable LORS and the CEC's decision have been met in the area of Facility Design, shall be submitted to the Compliance Project Manager (CPM).</p>	The project owner shall inform the CPM at least 30 days prior to any scheduled activity.	Not Started				
Facility Design	GEN-2	<p>At least 60 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO and to the CPM the schedule, and the master drawings and master specifications list of documents to be submitted to the DCBO, for review and approval. These documents shall be the pertinent design documents for the major structures, systems, and equipment. Major structures, systems, and equipment shall be added to or deleted from the list only with CPM approval. The project owner shall provide schedule updates in the monthly compliance report (MCR).</p>	At least 60 days prior to the start of rough grading (or a project owner and DCBO mutually agreed upon alternative time frame)	Submitted	Submitted to DCBO: 8/8/2025 Submitted to CPM: 8/15/2025			Submitted to DCBO and CPM
Facility Design	GEN-3	The project owner shall make the required payments to the DCBO in accordance with the agreement between the project owner and the DCBO. If the CEC delegates the DCBO function to a third party or local agency, the project owner, at the CEC's direction, shall make payments directly to the DCBO based upon a fee schedule negotiated between the CEC and the DCBO. The project owner shall send a copy of the DCBO's receipt of payment to the CPM in the next MCR indicating that applicable fees have been paid.	In accordance with the agreement between the project owner and the DCBO or based upon a fee schedule negotiated between the CEC and the DCBO.	In Progress				In Progress
Facility Design	GEN-4	<p>At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO for review and approval, the resume and qualifications registration number of the RE and any other delegated engineers or construction project manager assigned to the project. The project owner shall notify the CPM of the DCBO's approvals of the RE and other delegated engineer(s) within five days of the approval.</p> <p>If the RE or the delegated engineer(s) is subsequently reassigned or replaced, the project owner has five days to submit the name, qualifications, and registration number of the newly assigned engineer or construction project manager to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.</p>	The project owner shall notify the CPM of the DCBO's approvals of the RE and other delegated engineer(s) within five days of the approval.	In Progress				In Progress
Facility Design	GEN-5	<p>At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO for review and approval, resumes and registration numbers of the responsible civil engineer, soils (geotechnical) engineer, and engineering geologist assigned to the project.</p> <p>At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction, the project owner shall submit to the DCBO for review and approval, resumes and registration numbers of the responsible design engineer, mechanical engineer, and electrical engineer assigned to the project.</p> <p>The project owner shall notify the CPM of the DCBO's approvals of the responsible engineers within five days of the approval.</p> <p>If any one of the designated responsible engineers is subsequently reassigned or replaced, the project owner has five days in which to submit the name, qualifications, and registration number of the newly assigned engineer to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.</p>	At least 30 days prior to the start of rough grading (or a project owner and DCBO mutually agreed upon alternative time frame)	In Progress				In Progress
Facility Design	GEN-6	<p>At least 15 days (or project owner- and DCBO-approved alternative time frame) prior to the start of an activity requiring special inspection, the project owner shall submit to the DCBO for review and approval, with a copy to the CPM, the name(s) and qualifications of the certified weld inspector(s), or other certified special inspector(s) assigned to the project to perform one or more of the duties set forth above. The project owner shall also submit to the CPM a copy of the DCBO's approval of the qualifications of all special inspectors in the next MCR.</p> <p>If the special inspector is subsequently reassigned or replaced, the project owner has five days in which to submit the name and qualifications of the newly assigned special inspector to the DCBO for approval. The project owner shall notify the CPM of the DCBO's approval of the newly assigned inspector within five days of the approval.</p>	15 days (or project owner- and DCBO-approved alternative time frame) prior to the start of an activity requiring special inspection	In Progress				In Progress
Facility Design	GEN-7	The project owner shall transmit a copy of the DCBO's approval of any corrective action taken to resolve a discrepancy to the CPM in the next MCR. If any corrective action is disapproved, the project owner shall advise the CPM, within five days, of the reason for disapproval and the revised corrective action to obtain DCBO's approval.	Discrepancy documentation submitted to the DCBO.	No Action Needed				

Facility Design	GEN-8	Within 15 days of the completion of any work, the project owner shall submit to the DCBO, with a copy to the CPM in the next MCR, (a) a written notice that the completed work is ready for final inspection, and (b) a signed statement that the work conforms to the final approved plans. After storing the final approved engineering plans, specifications, and calculations described above, the project owner shall submit to the CPM a letter stating both that the above documents have been stored and the storage location of those documents. Within 90 days of the completion of construction, the project owner shall provide to the DCBO three sets of electronic copies of the above documents at the project owner's expense. These are to be provided in the form of "read only" files (the latest version of Adobe .pdf available), with restricted (passwordprotected) printing privileges.	Within 15 days of the completion of any work, the project owner shall submit to the DCBO	Not Started				
Facility Design	GEN-8	Within 15 days of the completion of any work, the project owner shall submit to the DCBO, with a copy to the CPM in the next MCR, (a) a written notice that the completed work is ready for final inspection, and (b) a signed statement that the work conforms to the final approved plans. Within 90 days of the completion of construction	Not Started				
Geology, Paleontology, and Minerals	GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	Prior to submittal to CPM, which must occur at least 60 days prior to grading	In Progress				In Progress
Geology, Paleontology, and Minerals	GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	60 days prior to grading	Not Started				
Climate Change and Greenhouse Gas Emissions	GHG-1	To ensure compliance with this condition the project owner must identify and confirm the compliant refrigerant cooling fluid installation, along with an estimated annual greenhouse gas emissions in metric tons of CO2-equivalent (MTCO2e) to be submitted to the CEC CPM for verification, within 30 days prior to installation of HVAC. Once confirmed and approved by the CEC CPM, this verification is considered complete.	30 days prior to installation of HVAC unit.	In Progress				In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-1	At least 60 days prior to the start of operation the project owner shall prepare and submit the HMBP and SPCC Plan to the Fresno County HazMat Compliance Program for review and comment and to the CPM for review and approval. The project owner shall also provide the CPM with a copy of the transmittal letter to the Fresno County HazMat Compliance Program requesting review and comment. At least 30 days prior to the start of operation, the project owner shall provide copies of any comment letters received from the Fresno County HazMat Compliance Program along with any changes to the HMBP and SPCC plans for CPM review and approval. After CPM review and approval, the project owner shall provide complete copies of the final HMBP and SPCC to the Fresno County HazMat Compliance Program, sending copies of the correspondence to the CPM.	60 days prior to the start of operation for draft HMBP and SPCC; 30 days prior to the start of operation for final versions of the HMBP and SPCC	Not Started				
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-2	At least 30 days prior to changing the quantity of or using a new hazardous material onsite, the project owner shall notify and seek approval from the CPM. The project owner shall provide to the CPM, in the Annual Compliance Report, the HMBP's list of hazardous materials and quantities contained at the facility.	30 days prior to changing the quantity or using a new hazmat onsite	No Action Needed				
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-3	The project owner shall keep a copy of the identification number(s) on file at the project site and provide documentation of the hazardous waste generation and notification and receipt of the number to the CPM in the next scheduled Monthly Compliance Report after receipt of the number. Submittal of the notification and issued number documentation to the CPM is only needed once, unless there is a change in ownership, operation, waste generation, or waste characteristics that requires a new notification to EPA. Documentation of any new or revised hazardous waste generation notifications or changes in identification number shall be provided to the CPM 30 days before the change occurs.	Next MCR, As needed when new identification numbers are required	Not Started				

Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-4	At least 30 days prior to commencing construction, the project owner shall notify the CPM that a site-specific Construction Security Plan is available for review and approval.	30 days prior to the start of construction	In Progress					In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-5	At least 30 days prior to the initial receipt of hazardous materials onsite, the project owner shall notify the CPM that a site-specific operations site security plan is available for review and approval. In the annual compliance report, the project owner shall include signed statements similar to Attachments A and B that all current project employees and appropriate contractor background investigations have been performed, and that updated certification statements have been appended to the operations security plan. In the annual compliance report, the project owner shall include a signed statement similar to Attachment C that the operations security plan includes all current hazardous materials transport vendor certifications for security plans and employee background investigations.	30 days prior to receipt of hazardous materials on-site	Not Started					
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-6	At least 45 days prior to any ground disturbance, the project owner shall submit the SMP to the Fresno County CUPA for review and comment and to the CPM for review and approval. An SMP summary shall be submitted to the CPM within 30 days of completion of any ground disturbance.	45 days prior to ground disturbance	In Progress					In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-6	At least 45 days prior to any ground disturbance, the project owner shall submit the SMP to the Fresno County CUPA for review and comment and to the CPM for review and approval. An SMP summary shall be submitted to the CPM within 30 days of completion of any ground disturbance.	Within 30 days of completion of any ground disturbance	Not Started					
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-7	At least 30 days prior to the start of site mobilization, the project owner shall submit the resume to the CPM for review and approval.	30 days prior to site mobilization	In Progress					In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-8	The project owner shall submit the proposed sampling plan to the CPM 45 days prior to proposed BESS operations for review, revisions, and approval prior to BESS operations.	45 days prior to BESS operations	Not Started					
Mandatory Opt In Regulations	LABOR-1	Upon request by the Compliance Project Manager (CPM), the project owner shall provide documentation evidencing compliance with the requirements of Public Resources Code section 25545.3.3.	Upon request	No Action Needed					
Facility Design	MECH-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list, the project owner shall submit to the DCBO for design review and approval the final plans, specifications, and calculations, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with applicable LORS, and shall send the CPM a copy of the transmittal letter in the next MCR. The project owner shall transmit to the CPM, in the MCR following completion of any inspection, a copy of the transmittal letter conveying the DCBO's inspection approvals.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list	In Progress					In Progress
Facility Design	MECH-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list, the project owner shall submit to the DCBO for design review and approval the final plans, specifications, and calculations, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with applicable LORS, and shall send the CPM a copy of the transmittal letter in the next MCR. The project owner shall transmit to the CPM, in the MCR following completion of any inspection, a copy of the transmittal letter conveying the DCBO's inspection approvals.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list	Not Started					
Facility Design	MECH-2	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction of any HVAC or refrigeration system, the project owner shall submit to the DCBO the required HVAC and refrigeration calculations, plans, and specifications, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with the CBC and other applicable codes, with a copy of the transmittal letter to the CPM.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction of any HVAC or refrigeration system,	In Progress					In Progress

Noise and Vibration	NOISE-1	Within five days of receiving a noise complaint, the project owner shall file with the CPM the Noise Complaint Resolution Form, that documents the resolution of the complaint. If mitigation is required to resolve the complaint, and the complaint is not resolved within three business days, the project owner shall submit an updated Noise Complaint Resolution Form when the mitigation is implemented.	Within five days of receiving a noise complaint	No Action Needed				
Noise and Vibration	NOISE-2	At least 30 days prior to the start of ground disturbance, the project owner shall submit the noise control program to the CPM. The project owner shall make the program available to Cal-OSHA upon request.	30 days prior to ground disturbance	In Progress				In Progress
Noise and Vibration	NOISE-3	The survey shall take place within 45 days of the project first achieving a sustained output that produces the highest noise level. Within 30 days after completing the survey, the project owner shall submit a summary report of the survey to the CPM. Included in the survey report will be a description of any additional mitigation measures necessary to achieve compliance with the above listed noise limits, and a schedule, subject to CPM approval, for implementing these measures. When these measures are in place, the project owner shall repeat the noise survey. Within 15 days of completion of the new survey, the project owner shall submit to the CPM a summary report of the new noise survey, performed as described <u>above and showing compliance with this condition.</u>	Survey shall take place within 45 days of project achieving a sustained output that produces the highest noise level; summary report shall be submitted within 30 days of completing the survey	Not Started				
Noise and Vibration	NOISE-3	The survey shall take place within 45 days of the project first achieving a sustained output that produces the highest noise level. Within 30 days after completing the survey, the project owner shall submit a summary report of the survey to the CPM. Included in the survey report will be a description of any additional mitigation measures necessary to achieve compliance with the above listed noise limits, and a schedule, subject to CPM approval, for implementing these measures. When these measures are in place, the project owner shall repeat the noise survey. Within 15 days of completion of the new survey, the project owner shall submit to the CPM a summary report of the new noise survey, performed as described <u>above and showing compliance with this condition.</u>	Survey shall take place within 45 days of project achieving a sustained output that produces the highest noise level; summary report shall be submitted within 30 days of completing the survey	Not Started				
Noise and Vibration	NOISE-4	Within 30 days after completing each survey, the project owner shall submit the noise survey report to the CPM. The project owner shall make the report available to Cal-OSHA upon request from Cal-OSHA.	Survey shall take place within 45 days of project achieving a sustained output that produces the highest noise level; summary report shall be submitted within 30 days of completing the survey	Not Started				
Noise and Vibration	NOISE-4	Within 30 days after completing each survey, the project owner shall submit the noise survey report to the CPM. The project owner shall make the report available to Cal-OSHA upon request from Cal-OSHA.	summary report shall be submitted within 30 days of completing the survey	Not Started				
Noise and Vibration	NOISE-5	Prior to ground disturbance, the project owner shall transmit to the CPM a statement acknowledging that the above restrictions will be observed throughout the construction of the project.	Prior to ground disturbance	In Progress				In Progress
Noise and Vibration	NOISE-6	At least 15 days prior to first pile driving, the project owner shall submit to the CPM a description of the pile driving technique to be employed, including calculations showing its projected noise impacts and peak particle velocity at monitoring locations R-5, R-8, and R-13. Examples of noise-reducing techniques include: (1) the use of pads or impact cushions of plywood; (2) dampened driving, which involves some form of blanket or enclosure around the hammer; (3) the use of vibratory drivers or hydraulic pile pushers instead of impact; or (4) installation of a temporary barriers such as a mobile sound screen near the pile driver or other effective mitigation measures that reduce the noise and vibration impacts of pile driving. At least 10 days prior to first production pile driving, the project owner shall notify residences in the vicinity of the project. The notification may be in the form of letters, or other effective means, as approved by the CPM. In this notification, the project owner shall state that it will perform this activity in a manner to reduce the potential <u>for any project-related noise and vibration complaints.</u>	15 days prior to first pile driving for statement of techniques to be employed and calculations; 10 days prior to first pile driving to notify residences	Not Started				
Noise and Vibration	NOISE-6	At least 15 days prior to first pile driving, the project owner shall submit to the CPM a description of the pile driving technique to be employed, including calculations showing its projected noise impacts and peak particle velocity at monitoring locations R-5, R-8, and R-13. Examples of noise-reducing techniques include: (1) the use of pads or impact cushions of plywood; (2) dampened driving, which involves some form of blanket or enclosure around the hammer; (3) the use of vibratory drivers or hydraulic pile pushers instead of impact; or (4) installation of a temporary barriers such as a mobile sound screen near the pile driver or other effective mitigation measures that reduce the noise and vibration impacts of pile driving. drivers. At least 10 days prior to first production pile driving, the project owner shall notify residences in the vicinity of the project. The notification may be in the form of letters, or other effective means, as approved by the CPM. In this notification, the project owner shall state that it will perform this activity in a manner to reduce the potential for any project-related noise and vibration complaints.	10 days prior to first pile driving to notify residences	Not Started				

Geology, Paleontology, and Minerals	PAL-1	<p>At least 60 days prior to the start of ground disturbance, the project owner shall submit a resume and statement of availability of its designated PRS for on-site work to the CPM, whose approval must be obtained prior to initiation of ground disturbing activities.</p> <p>At least 30 days prior to ground disturbance, the PRS or project owner shall provide a letter with resumes naming anticipated PRMs for the project. The letter shall state that the identified PRMs meet the minimum qualifications for paleontological resource monitoring as required by this condition of certification. If additional PRMs are needed during the project, the PRS shall provide additional letters and resumes to the CPM. The letter shall be provided to the CPM for approval no later than one week prior to the monitor's beginning on-site duties. Prior to any change of the PRS, the project owner shall submit the resume of the proposed new PRS to the CPM for review and approval.</p>	60 days prior to construction	Submitted	7/25/2025			Submitted to CPM
Geology, Paleontology, and Minerals	PAL-1	<p>At least 60 days prior to the start of ground disturbance, the project owner shall submit a resume and statement of availability of its designated PRS for on-site work to the CPM, whose approval must be obtained prior to initiation of ground disturbing activities.</p> <p>At least 30 days prior to ground disturbance, the PRS or project owner shall provide a letter with resumes naming anticipated PRMs for the project. The letter shall state that the identified PRMs meet the minimum qualifications for paleontological resource monitoring as required by this condition of certification. Within 5 days of the reason for disapproval.	No Action Needed				
Facility Design	STRUC-3	On a schedule suitable to the DCBO, the project owner shall notify the DCBO of the intended filing of design changes, and shall submit the required number of sets of revised drawings and the required number of copies of the other above- mentioned documents to the DCBO, with a copy of the transmittal letter to the CPM. The project owner shall notify the CPM, via the MCR, when the DCBO has approved the revised plans.	Schedule suitable to DCBO	No Action Needed				
Facility Design	STRUC-3	On a schedule suitable to the DCBO, the project owner shall notify the DCBO of the intended filing of design changes, and shall submit the required number of sets of revised drawings and the required number of copies of the other above- mentioned documents to the DCBO, with a copy of the transmittal letter to the CPM. The project owner shall notify the CPM, via the MCR, when the DCBO has approved the revised plans.	when DCBO has approved the plans	No Action Needed				
Facility Design	STRUC-4	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of installation of the tanks or vessels containing the above specified quantities of toxic or hazardous materials, the project owner shall submit to the DCBO for design review and approval final design plans, specifications, and calculations, including a copy of the signed and stamped engineer's certification. The project owner shall send copies of the DCBO approvals of plan checks to the CPM in the MCR following receipt of such approvals. The project owner shall also transmit a copy of the DCBO's inspection approvals to the CPM in the MCR following completion of any inspection.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of installation of the tanks or vessels containing the above specified quantities of toxic or hazardous materials	Not Started				
Facility Design	STRUC-4	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of installation of the tanks or vessels containing the above specified quantities of toxic or hazardous materials, the project owner shall submit to the DCBO for design review and approval final design plans, specifications, and calculations, including a copy of the signed and stamped engineer's certification. The project owner shall send copies of the DCBO approvals of plan checks to the CPM in the MCR following receipt of such approvals. The project owner shall also transmit a copy of the DCBO's inspection approvals to the CPM in the MCR following completion of any inspection.	when DCBO has approved the plan checks.	Not Started				
Water Resources	SWITCH WATER-2	At least thirty (30) days prior to commencement of project operation, the project owner shall submit a copy of the Operation DESCP to the CPM for review and approval. The project owner shall notify the CPM in writing of any reported non-compliance instances and include these in the annual compliance report. Any monitoring documentation associated with the DESCP shall be included in the annual compliance report.	30 days prior to commencement of project operation	Not Started				
Air Quality	SWITCH AQ-1	The AQCM shall provide the CPM a Monthly Compliance Report to include the following to demonstrate control of fugitive dust emissions: A. A summary of all actions taken to maintain compliance with this condition; B. Copies of any complaints filed with the District in relation to project construction; and C. Any other documentation deemed necessary by the CPM and AQCM to verify compliance with this condition. Such information may be provided via electronic format or disk at the project owner's discretion.	Within 10 days of the end of the month	Not Started				

Biological Resources	SWITCH BIO-1	The project owner shall submit a report to the CPM, CDFW and USFWS within 30 days of completion of surveys performed within work areas identified as suitable BNLL habitat. The report shall include the names of the surveyors and qualifications as well as describe survey methods, results, impact avoidance and minimization measures to be implemented. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	within 30 days of completion of surveys	Not Started				
Biological Resources	SWITCH BIO-1	The project owner shall submit a report to the CPM, CDFW and USFWS within 30 days of completion of surveys performed within work areas identified as suitable BNLL habitat. The report shall include the names of the surveyors and qualifications as well as describe survey methods, results, impact avoidance and minimization measures to be implemented. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	Within 10 days of the end of the month	Not Started				
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	at least 15 days prior to initiating bat surveys	Submitted	7/25/2025			Submitted to CPM
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	within 30 days after tree removal	No Action Needed				
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	Within 10 days of the end of the month	Not Started				
Cultural and Tribal Cultural Resources	SWITCH CUL-1	Within 30 days of selection of a CRS, the project owner shall provide a copy of any resume(s) to CEC for review and approval that the CRS meets the Standards.	Within 30 days of selection of a CRS	Submitted	7/25/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	SWITCH CUL-2	At least 90 days prior to the start of construction, the project owner shall provide a draft CTCRMMP to CEC for review and approval.	90 days prior to the start of construction	Submitted	8/14/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	SWITCH CUL-3	At least 20 days prior to the start of construction, the project owner shall notify CEC that the WEAP has been scheduled and allow for participation of any tribal participants should they have requested so during CEC's ongoing tribal consultation for the undertaking.	20 days prior to start of construction	In Progress				In Progress
Cultural and Tribal Cultural Resources	SWITCH CUL-4	Within 60 days of completion of ground disturbing activities requiring monitoring, the CRS shall provide a monitoring report to the CEC for review and approval, consistent with the CTCRMMP prepared under COC SWITCH CUL-2.	within 60 days of completion of ground disturbing activities requiring monitoring	Not Started				
Cultural and Tribal Cultural Resources	SWITCH CUL-5	Should there be an unanticipated discovery of cultural or tribal cultural resources, the CRS shall comply with state law and any provisions described in the CTCRMMP. The CRS shall notify CEC within 24 hours of the discovery and invite CEC's participation in the resolution of the find.	within 24 hours of discovery	No Action Needed				
Cultural and Tribal Cultural Resources	SWITCH CUL-6	Should human remains be discovered, the CRS shall comply with state law and any provisions described in the AMDP. The CRS shall notify CEC within 24 hours of the discovery and invite CEC's participation in the resolution of the find.	within 24 hours of discovery	No Action Needed				
Geology, Paleontology, and Minerals	SWITCH GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	Prior to grading	Complete	7/31/2025	8/7/2025	N/A	Approved by DCBO on 8/7/2025
Geology, Paleontology, and Minerals	SWITCH GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	60 days prior to grading	Submitted	8/18/2025			Submitted to CPM on 8/18/2025
Climate Change and Greenhouse Gas Emissions	SWITCH GHG-1	The Air Quality Construction Mitigation Manager (AQCOMM) in Condition of Certification AQ-SC1 shall provide the CPM a Monthly Compliance Report to demonstrate compliance with this condition.	Within 10 days of the end of the month	Not Started				
Hazards, Hazardous Materials/Waste, and Wildfire	SWITCH HAZ-1	Prior to construction, a Hazardous Materials Management Plan shall be prepared	Prior to construction	In Progress				In Progress

Hazards, Hazardous Materials/Waste, and Wildfire	SWITCH HAZ-2	At least 90 days prior to the start of construction, the project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan. At least 30 days prior to the start of commissioning, the project Operations and Maintenance Safety and Health Program. The project owner shall provide a copy to the CPM of letters from the FCFPD detailing the resolved comments on the Operations Fire Prevention Plan, Fire Protection System Impairment Program, and Emergency Action Plan.	90 days prior to start of construction	Overdue					See Section 4 of the MCR
Transmission Line Safety and Nuisance	SWITCH TLSN-1	At least 30 days before the construction of structures above 200 feet tall, the project owner shall transmit to the CPM a letter confirming compliance with this condition.	30 days prior to construction	In Progress					In Progress
Visual Resources	SWITCH VIS-1	<p>a. The project owner shall submit an exterior surface coating, color, finish and materials plan to the CPM for approval and simultaneously to the Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to executing a contract to purchase coating, color, finish and materials with a vendor. The CPM shall provide the Director of Planning and Development Services at least 30 days to review the plan and provide comments to the applicant and the CPM.</p> <p>b. If the CPM determines that the exterior surface coating, color, finish, and materials plan requires a revision, the project owner shall provide to the CPM a plan with the specified revision(s) for approval by the CPM before any action or activity with the vendor is executed. Any revision to the plan must be approved by the CPM.</p> <p>c. The project owner shall notify the CPM that exterior surface coatings, colors, and finishes of all listed buildings, equipment, and structures that has been completed are ready for inspection. With this notification, the applicant shall supply to the CPM one set of color photographs showing the project from the Key Views evaluated for the project certification, and individual color photographs showing the completed exterior surface coatings, colors, finishes, and materials for the following: the clarifiers, control room, cooling tower, maintenance building, thickener, and any other building, equipment, and structure as requested by the CPM. Color photographs may be electronically filed or manually filed on electronic media.</p> <p>d. Exterior surface coatings, colors, finishes, and materials shall be installed/applied (completed) on the exterior surfaces of the large/major buildings, equipment, and structures prior to the start of commercial operation.</p> <p>e. The project owner shall supply a description of the condition (status) of the exterior surface coatings, colors, finishes, and materials for the large/major buildings, equipment, structures, and others as needed for the reporting year in the Annual Compliance Report. The report shall include:</p> <ol style="list-style-type: none"> 1. The condition of the exterior surfaces of buildings, equipment, and structures at the end of the reporting year. 2. A listing of maintenance activities performed during the reporting year. 3. A tentative time schedule for maintenance activities for the upcoming year. 	60 days prior to executing a contract to purchase coating, color, finish and materials with a vendor	In Progress					In Progress
Solid Waste Management	SWITCH Waste-1	No less than 30 days prior to the start of site mobilization, the project owner shall submit the Construction Waste Management Plan to the CPM for approval. The Operation Waste Management Plan shall be submitted to the CPM no less than 30 days prior to the start of project operation for approval. The project owner shall submit any required revisions within 20 days of notification by the CPM. In the Annual Compliance Reports, the project owner shall document the actual waste management methods used during the year compared to the planned management methods.	30 days prior to construction	In Progress					In Progress
Solid Waste Management	SWITCH Waste-1	No less than 30 days prior to the start of site mobilization, the project owner shall submit the Construction Waste Management Plan to the CPM for approval. The Operation Waste Management Plan shall be submitted to the CPM no less than 30 days prior to the start of project operation for approval. The project owner shall submit any required revisions within 20 days of notification by the CPM. In the Annual Compliance Reports, the project owner shall document the actual waste management methods used during the year compared to the planned management methods.	30 days prior to operation	Not Started					
Solid Waste Management	SWITCH Waste-1	No less than 30 days prior to the start of site mobilization, the project owner shall submit the Construction Waste Management Plan to the CPM for approval. The Operation Waste Management Plan shall be submitted to the CPM no less than 30 days prior to the start of project operation for approval. The project owner shall submit any required revisions within 20 days of notification by the CPM. In the Annual Compliance Reports, the project owner shall document the actual waste management methods used during the year compared to the planned management methods.	End of the Year during operations	Not Started					
Water Resources	SWITCH WATER-1	At least thirty (30) days prior to site mobilization, the project owner shall submit to the Compliance Project Manager (CPM) proof that the construction permit was granted and that a waste discharge identification number (WDID) was issued by the SWRCB. Within ten (10) days of its mailing or receipt, the project owner shall submit to the CPM any correspondence between the project owner and the SWRCB or the Central Valley Regional Water Quality Control Board (CVRWQCB) concerning the CGP. This information shall include the NOI, any updates to the construction SWPPP, and the notice of termination. The project owner shall notify the CPM in writing of any reported non-compliance and include these in the annual compliance report. Any monitoring documentation associated with the SWPPP shall be included in the annual compliance report.	(30) days prior to site mobilization	In Progress					In Progress. The NOI was submitted to SMARTS on 8/29/2025. SWRCB review pending.

Transmission Line Safety and Nuisance	TLSN-1	At least 30 days before starting construction of the transmission lines or related structures and facilities, the project owner shall submit to the compliance project manager (CPM) a letter signed by a California-registered electrical engineer affirming that the lines will be constructed according to the requirements stated in the condition.	30 days prior to construction of the transmission lines or related structures/facilities	In Progress				In Progress
Transmission Line Safety and Nuisance	TLSN-2	During the first five years of plant operation, the project owner shall provide a summary of inspection results, and any fire prevention activities carried out along the proposed route and provide such summaries in the Annual Compliance Report on transmission line safety and nuisance-related requirements.	Next ACR	Not Started				
Transmission Line Safety and Nuisance	TLSN-3	At least 30 days before the lines are energized, the project owner shall transmit to the CPM a letter confirming compliance with this condition.	30 days prior to operation	Not Started				
Transmission Line Safety and Nuisance	TLSN-4	The project owner shall file copies of the pre- and post-energizing measurements with the CPM within 60 days after the measurements are completed.	6 months from start of operation	Not Started				
Transmission Line Safety and Nuisance	TLSN-5	At least 30 days before the construction of structures above 200 feet tall, the project owner shall transmit to the CPM a letter confirming compliance with this condition.	30 days prior to construction	In Progress				In Progress
Transportation	TRANS-1	The project owner shall retain copies of permits and supporting documents on-site for CPM inspection if requested.	Prior to construction	No Action Needed				
Transportation	TRANS-2	The project owner shall include in its Monthly Compliance Reports (MCR's) copies of all permits/licenses acquired by the project owner and/or subcontractors concerning the transport of hazardous substances.	Next MCR	Not Started				
Transportation	TRANS-3	At least 60 calendar days prior to the start of construction, the project owner shall submit the CMP to Caltrans and Fresno County for review and comment and to the compliance project manager (CPM) for review and approval. The project owner shall also provide the CPM with a copy of the transmittal letter to Caltrans and Fresno County requesting review and comment. At least 30 calendar days prior to the start of construction, the project owner shall provide copies of any comment letters received from Caltrans or Fresno County, or any other interested agencies, along with any changes to the CMP, for CPM review and approval. After CPM review and approval, the project owner shall provide completed copies of the final CMP to Caltrans and Fresno County and any other interested agencies, sending copies of the correspondence to the CPM.	60 days prior to construction	In Progress				In Progress
Transportation	TRANS-3	At least 60 calendar days prior to the start of construction, the project owner shall submit the CMP to Caltrans and Fresno County for review and comment and to the compliance project manager (CPM) for review and approval. The project owner shall also provide the CPM with a copy of the transmittal letter to Caltrans and Fresno County requesting review and comment. At least 30 calendar days prior to the start of construction, the project owner shall provide copies of any comment letters received from Caltrans or Fresno County, or any other interested agencies, along with any changes to the CMP, for CPM review and approval. After CPM review and approval, the project owner shall provide completed copies of the final CMP to Caltrans and Fresno County and any other interested agencies, sending copies of the correspondence to the CPM.	30 days prior to construction	Not Started				
Transmission System Engineering	TSE-1	Before the start of construction, the project owner shall submit the schedule, a Master Drawing List, and a Master Specifications List to the DCBO and to the CPM. The schedule shall contain a description and list of proposed submittal packages for design, calculations, and specifications for major structures and equipment (see a list of major equipment in Table 1: Major Equipment List below). Additions and deletions shall be made to the table only with CPM and DCBO approval. The project owner shall provide schedule updates in the Monthly Compliance Report.	Before the start of construction	Submitted	Submitted to DCBO on 8/8/2025 Submitted to CPM on 8/15/2025			Submitted to DCBO and CPM
Transmission System Engineering	TSE-1	Before the start of construction, the project owner shall submit the schedule, a Master Drawing List, and a Master Specifications List to the DCBO and to the CPM. The schedule shall contain a description and list of proposed submittal packages for design, calculations, and specifications for major structures and equipment (see a list of major equipment in Table 1: Major Equipment List below). Additions and deletions shall be made to the table only with CPM and DCBO approval. The project owner shall provide schedule updates in the Monthly Compliance Report.	in the MCR	Not Started				
Transmission System Engineering	TSE-2	Before the start of rough grading, the project owner shall submit the names, qualifications, and registration numbers of all the responsible engineers assigned to the project to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approvals of the engineers within five days of the approval. Suppose the designated responsible engineer is subsequently reassigned or replaced. In that case, the project owner has five days to submit the newly assigned engineer's name, qualifications, and registration number to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	Before the start of rough grading	In Progress				In Progress

Water Resources	WATER-3	No later than thirty (30) days prior to start of construction, the project owner shall submit a plan to install underground wiring to PV panels in compliance with Ordinance 15.48.080 (A)(2)(a) to the CPM for review and approval and to Fresno County for review.	30 days prior to construction	In Progress				In Progress
Water Resources	WATER-4	No later than ninety (90) days prior to project operation, the project owner shall submit to the CPM evidence that the septic system design has been reviewed and commented on by FCPWPD and also has been approved by the chief building official (CBO). No later than 60 days prior to project operation, the project owner shall submit the operations and maintenance manual to the FCPWPD for review and comment. No later than 30 days prior to project operation, the project owner shall submit the operations and maintenance manual to the CPM for review and approval. The submittal shall include copies of any agency comments the project owner has received. The wastewater system shall be monitored following either the general standards adopted in SWRCB's OWTS regulations or the procedures outlined in the CPM-approved operations and maintenance manual. Any testing results or correspondence exchanged between the project owner and the California Department of Health Services or the SCEHD during operations shall be provided to the CPM in the annual compliance report.	90 days prior to operation	Not Started				
Water Resources	WATER-5	At a frequency determined by the CPM, the project owner shall keep the CPM apprised of all aspects of production well installation. The project owner shall provide the CPM with a copy of the well installation permit. The project owner shall file a well completion report to DWR for the extraction well. Any testing results or correspondence exchanged between the project owner and the California Department of Health Services or the FCPWPD during operations shall be provided to the CPM in the annual compliance report. All results and diagrams associated with groundwater production well installation shall be included in the annual compliance report.	Prior to well construction and operation	Not Started				
Water Resources	WATER-6	During project construction, the monthly compliance report shall include a summary of monthly water use. The project's annual compliance report shall include a monthly and annual summary of water use identifying construction or operations and water source.	Next MCR, ACR	Not Started				
Worker Safety and Fire Protection	Worker Safety-1	At least 90 days prior to the start of construction, the project owner shall submit to the CPM for review and approval a copy of the Project Construction and Safety and Health Program. The project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan.	At least 90 days prior to the start of construction	In Progress				In Progress. See Section 4 of the MCR.
Worker Safety and Fire Protection	Worker Safety-2	At least 30 days prior to the start of commissioning, the project owner shall submit to the CPM for review and approval a copy of the Project Operations and Maintenance Safety and Health Program. The project owner shall provide a copy to the CPM of letters from the FCFPD detailing the resolved comments on the Operations Fire Prevention Plan, Fire Protection System Impairment Program, and Emergency Action Plan.	At least 30 days prior to the start of commissioning	Not Started				
Worker Safety and Fire Protection	Worker Safety-3	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS. The contact information of any replacement CSS shall be submitted to CPM within one business day. The CSS shall submit in the Monthly Compliance Report (MCR) a monthly safety inspection report.	in the MCR	Not Started				
Worker Safety and Fire Protection	Worker Safety-3	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS. The contact information of any replacement CSS shall be submitted to CPM within one business day. The CSS shall submit in the Monthly Compliance Report (MCR) a monthly safety inspection report.	30 days prior to the start of site mobilization	Complete	7/21/2025	8/15/2025	N/A	Approved by CPM on 8/15/2025
Worker Safety and Fire Protection	Worker Safety-3	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS. The contact information of any replacement CSS shall be submitted to CPM within one business day. The CSS shall submit in the Monthly Compliance Report (MCR) a monthly safety inspection report.	MCR	Not Started				
Worker Safety and Fire Protection	Worker Safety-4	At least 60 days prior to the start of construction, the project owner shall provide proof of its agreement to fund the Safety Monitor services to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-5	At least 60 days prior to the start of construction, the project owner shall submit the SAP to the CPM for review and approval. At least 30 days prior to the planned use of the well water, the project owner shall submit the laboratory findings to the CPM for review and approval of the use of the well water.	At least 30 days prior to planned use of the well water	Not Started				
Worker Safety and Fire Protection	Worker Safety-5	At least 60 days prior to the start of construction, the project owner shall submit the SAP to the CPM for review and approval. At least 30 days prior to the planned use of the well water, the project owner shall submit the laboratory findings to the CPM for review and approval of the use of the well water.	At least 60 days prior to the start of construction (SAP)	In Progress				In Progress

Worker Safety and Fire Protection	Worker Safety-6	At least 60 days prior to the start of construction, the project owner shall provide the procedure(s) with the standard checklist to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-7	At least 60 days prior to the start of construction, the project owner shall provide all the information required above (with the exception of k) to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection. Within 10 days of an incident at the BESS facility (including but not limited to fire, malfunction, leak, or thermal runaway of any cell, module, or unit) the project owner shall notify the CPM that a Root Cause Analysis (RCA) is being prepared. The project owner shall work with the CPM to determine a submission date for the completed RCA. The RCA shall be submitted to the FCFPD for review and comment, and to the CPM for review and approval.	Within 10 days of an incident at the BESS facility (including but not limited to fire, malfunction, leak, or thermal runaway of any cell, module, or unit	No Action Needed				
Worker Safety and Fire Protection	Worker Safety-7	At least 60 days prior to the start of construction, the project owner shall provide all the information required above (with the exception of k) to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection. Within 10 days of an incident at the BESS facility (including but not limited to fire, malfunction, leak, or thermal runaway of any cell, module, or unit) the project owner shall notify the CPM that a Root Cause Analysis (RCA) is being prepared. The project owner shall work with the CPM to determine a submission date for the completed RCA. The RCA shall be submitted to the FCFPD for review and comment, and to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-8	The project owner shall ensure that the project adheres to all applicable provisions of NFPA 855. At least 90 days prior to the start of construction of the BESS, the project owner shall provide all system specifications and design drawings to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection.	At least 90 days prior to the start of construction of the BESS	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-9	The project owner shall ensure that the project adheres to all applicable provisions of NFPA 850. At least 90 days prior to the start of construction of the fire protection system, the project owner shall provide all fire protection system specifications and drawings to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection.	At least 90 days prior to the start of construction of the fire protection system	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-10	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM proof that a portable AED is available to be made available on site as soon as physically possible along with a copy of the training and maintenance program for review and approval.	At least 30 days prior to the start of site mobilization	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-11	At least 60 days prior to the commencement of site mobilization, the VF Prevention and Response Plan shall be provided to the CPM for review and approval.	At least 60 days prior to site mobilization	Submitted	8/20/2025			Submitted to CPM.
Worker Safety and Fire Protection	Worker Safety-12	a. No more than 30 days after certification, the project owner shall provide to the CPM for review and approval the schedule for reaching agreement on funding prior to site mobilization. b. At least 30 days prior to the start of site mobilization, or as soon as practicable thereafter, the project owner shall provide to the CPM for review and approval either: 1. A copy of the agreement with the FCFPD or 2. A copy of the arbiter's decision. c. If the agreement or arbiter's decision submitted 30 days prior to site mobilization is limited to funding during construction, then, provided the property tax exclusion still applies, the project owner must provide to the CPM for review and approval an agreement or arbiter's decision to cover the remaining period of the project at least 30 days prior to the completion of construction. d. Upon approval of the agreement or arbiter's decision by the CPM, the project owner shall commence payment of the initial funding and annual funding. If the agreement or arbiter's decision is provided later than 30 days prior to the start of site mobilization, funding will be made retroactive to cover from the start date of site mobilization.	No more than 30 days after certification	Submitted	7/11/2025			Submitted to CPM. An in-person meeting was held with the FCFPD on 7/16/25.
Worker Safety and Fire Protection	Worker Safety-12	a. Biological Resources	BIO-5	At least 45 days prior to start of site mobilization the project owner shall provide to the CPM for review and approval, the draft WEAP/WEAP Light and all supporting written materials and electronic media prepared or reviewed by the Designated Biologist and a resume of the person(s) administering the program. The CPM must approve the WEAP/WEAP Light materials prior to their use. At least 10 days prior to site and related facilities mobilization, the project owner shall provide the CPM a copy of the CPM-approved final WEAP/WEAP Light. The project owner shall provide in the Monthly Compliance Report the number of persons who have completed the training in the prior month and a running total of all persons who have completed the training to date. At least 10 days prior to site mobilization the project owner shall submit the approved final WEAP/WEAP Light and implement the training for all workers. The WEAP/WEAP Light shall be routinely administered within 1 week of arrival to any new construction personnel, foremen, contractors, subcontractors, and other personnel working at the project site. Upon completion of the orientation, employees shall sign a form stating that they attended the program and understand all protection measures. These forms shall be maintained by the project owner and shall be made available to the CPM upon request. Workers shall receive and be required to visibly display a hardhat sticker or certificate that they have completed the training. Training acknowledgement forms signed during construction shall be kept on file by the project owner for at least 6 months after the start of commercial operation. Throughout the life of the project, the WEAP/WEAP Light shall be repeated annually for permanent employees, and shall be routinely administered within 1 week of arrival to any new construction personnel, foremen, contractors, subcontractors, and other personnel potentially working within the project area. During project operation, signed statements for operational personnel shall be kept on file for 6 months following the termination of an individual's employment. Compliance Conditions and Compliance Monitoring Plan	COM-1	Unrestricted Access. The project owner shall take all steps necessary to ensure that the CPM, responsible CEC staff, and delegate agencies or consultants, have unrestricted access to the facility site, related facilities, project-related staff, and the records maintained on site for the purpose of conducting audits, surveys, inspections, or general or closure-related site visits. Although the CPM will normally schedule site visits on dates and times agreeable to the project owner, the CPM reserves the right to make unannounced visits at any time, whether such visits are by the CPM in person or through representatives from CEC staff, delegated agencies, or consultants.	N/A	In Progress				In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-2	The project owner shall maintain electronic copies of all project files and submittals accessible on site, or at an alternative site approved by the CPM, for the operational life and closure of the project. The files shall also contain at least one hard copy of: 1. the facility's Opt-In Application; 2. all amendment petitions and CEC orders; 3. all site-related environmental impact and survey documentation; 4. all appraisals, assessments, and studies for the project; 5. all finalized original and amended structural plans and "as-built" drawings for the entire project; 6. all citations, warnings, violations, or corrective actions applicable to the project, and 7. the most current versions of any plans, manuals, and training documentation required by the COCs or applicable LORS. The CEC staff and delegate agencies shall, upon request to the project owner, be given unrestricted access to the files maintained pursuant to this condition which includes <i>electronic submission of records to the CEC</i>	N/A	In Progress				In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-3	Verification lead times associated with the start of construction may require the project owner to file submittals during application or amendment processing, particularly if construction is planned to commence shortly after certification. The verification procedures may be modified as necessary by the CPM after notice to the project owner. A cover letter from the project owner or an authorized agent is required for all compliance submittals and correspondence pertaining to compliance matters. The cover letter subject line shall identify the project by docket number, cite the appropriate condition of certification number(s), and give a brief description of the subject of the submittal. When submitting supplementary or corrected information, the project owner shall reference the date of the submittal and the condition(s) of certification applicable. All reports and plans required by the project's COCs shall be submitted in a searchable electronic format (.pdf, MS Word or Excel, etc.) and include standard formatting elements such as a table of contents identifying by title and page number each section, table, graphic, exhibit, or addendum. All report and/or plan graphics and maps shall be adequately scaled and shall include a key with descriptive labels, directional headings, a bar scale, and the most recent revision date. The project owner is responsible for the content and delivery of all verification submittals to the CPM showing that the actions required by the verification were satisfied by the project owner or an agent of the project owner. All submittals shall be submitted electronically by email.	N/A	In Progress				In Progress

Compliance Conditions and Compliance Monitoring Plan	COM-4	<p>Prior to construction, the project owner shall submit to the CPM a compliance matrix including only those conditions that must be fulfilled before the start of construction. The matrix shall be included with the project owner's first compliance submittal or prior to the first pre-construction meeting, whichever comes first, and shall be submitted in a format similar to the description below.</p> <p>Site mobilization and construction activities shall not start until the following have occurred:</p> <ol style="list-style-type: none"> 1. the project owner has submitted the pre-construction matrix and all compliance verifications pertaining to pre-construction COCs; and 2. the CPM has issued an authorization-to-construct letter to the project owner. <p>The deadlines for submitting various compliance verifications to the CPM allow staff sufficient time to review and comment on, and, if necessary, also allow the project owner to revise the submittal in a timely manner. These procedures help ensure that project construction proceeds according to schedule. Failure to submit required compliance documents by the specified deadlines may result in delayed authorizations to commence various stages of the project. If the project owner anticipates site mobilization immediately following project certification, it may be necessary for the project owner to file compliance submittals prior to project certification. In these instances, compliance verifications can be submitted in advance of the required deadlines and the anticipated authorizations to start construction. The project owner must understand that submitting items required in compliance verifications prior to these authorizations is at the owner's own risk. Any approval by CEC staff prior to project certification is subject to change based upon the Commission Decision, or amendment thereto, and early staff compliance approvals do not imply that the CEC will certify the project for actual construction and operation.</p>	Prior to construction	Submitted	7/11/2025			Submitted to CPM
Compliance Conditions and Compliance Monitoring Plan	COM-5	<p>The project owner shall submit a compliance matrix to the CPM with each MCR and ACR. The compliance matrix shall identify:</p> <ol style="list-style-type: none"> 1. the technical area (e.g., biological resources, facility design, etc.); 2. the condition number; 3. a brief description of the verification action or submittal required by the condition; 4. the date the submittal is required (e.g., 60 days prior to construction, after final inspection, etc.); 5. the expected or actual submittal date; 6. the date a submittal or action was approved by the Delegate Chief Building Official (DCBO), CPM, or delegate agency, if applicable; 7. the compliance status of each condition (e.g., "not started," "in progress" or "completed" (include the date)); and 8. if the condition was amended, the updated language and the date the amendment was proposed or approved. <p><i>The CPM can provide a template for the compliance matrix upon request</i></p>	Each MCR	In Progress	<p>June 2025 MCR: 7/11/2025</p> <p>July 2025 MCR: 8/14/2025</p>			In Progress
Compliance Conditions and Compliance Monitoring Plan	COM-6	<p>The first MCR is due one month following the docketing of the project's Decision unless otherwise agreed to by the CPM. The first MCR shall include the docket number and an initial list of dates for each of the events identified on the Key Events List. (The Key Events List form is found at the end of this Compliance Conditions and Compliance Monitoring Plan section.) During preconstruction, construction, or closure, the project owner or authorized agent shall submit an electronic searchable version of the MCR to the CPM within 10 business days after the end of each reporting month.</p> <p>MCRs shall be submitted each month until construction is complete and the final certificate of occupancy is issued by the DCBO. MCRs shall be clearly identified for the month being reported. The MCR shall contain, at a minimum:</p> <ol style="list-style-type: none"> 1. a summary of the current project construction status, a revised/updated schedule if there are significant delays, and an explanation of any significant changes to the schedule; 2. documents required by specific conditions to be submitted along with the MCR. Each of these items shall be identified in the transmittal letter, as well as the conditions they satisfy, and submitted as attachments to the MCR; 3. an initial, and thereafter updated, compliance matrix showing the status of all COCs; 4. a list of conditions that have been satisfied during the reporting period, and a description or reference to the actions that satisfied the condition; 5. a list of any submittal deadlines that were missed, accompanied by an explanation and an estimate of when the information will be provided; 6. a cumulative listing of any approved changes to COCs; 7. a listing of any filings submitted to, and permits issued by, other governmental agencies during the month; 8. a projection of project compliance activities scheduled during the next two months; the project owner shall notify the CPM as soon as any changes are made to the project construction schedule that would affect compliance with COCs; 9. a listing of the month's additions to the on-site compliance file; and 10. a listing of incidents, complaints, notices of violation, official warnings, and citations received during the month; a list of any incidents that occurred during the month, a description of the actions taken to date to resolve the issues; and the status of any unresolved actions noted in the previous MCRs. 	one month following the docketing of the project's Decision unless otherwise agreed to by the CPM	Submitted	June 2025 MCR: 7/11/2025			Submitted to CPM

It is the project owner's responsibility to contact the CPM to determine if a proposed project change triggers the requirements of section 1882. Section 1882 details the required contents for a petition to amend a CEC Decision.</p> <p>For changes in ownership or operational control the existing owner/operator and incoming owner/operator shall jointly in writing notify the CPM, 30 days in advance of the pending change in ownership or operational control, the fact of the change and all relevant contact information. Upon the transition, the new owner/operator will be obligated to comply with all requirements of the certification and will be subject to enforcement actions.</p> <p>A project owner is required to submit a \$5,000 fee for every petition to amend a previously certified facility, pursuant to Public Resources Code section 25806 (e). If the actual amendment processing costs exceed \$5,000.00, the total PTA reimbursement fees owed by a project owner will not exceed the OPT cap of \$1,050,850, adjusted annually. Current amendment fee information is available on the CEC's website at http://www.energy.ca.gov/siting/filing_fees.html.</p>	N/A	No Action Needed				
Compliance Conditions and Compliance Monitoring Plan	COM-11	<p>Prior to the start of construction or closure, the project owner shall send a letter to property owners and residences within one mile of the project boundaries, notifying them of a telephone number to contact project representatives with questions, complaints or concerns. All notifications and complaint forms shall be provided in both English and Spanish to ensure effective communication with Spanish-speaking residents. If the telephone is not staffed 24 hours per day, it must include automatic answering with date and time stamp recording.</p> <p>The project owner shall respond to all recorded complaints within 24 hours or the next business day. The project owner shall post the telephone number onsite and make it easily visible to passersby during construction, the first year of project operation, and closure. The project owner shall provide the contact information to the CPM and promptly report any disruption to the contact system or telephone number change to the CPM, who will provide it to any persons contacting him or her with a complaint.</p> <p>Within five business days of receipt, the project owner shall report, and provide copies to the CPM, all complaints, including, but not limited to, noise and lighting complaints, notices of violation, notices of fines, official warnings, and citations. Complaints shall be logged and numbered. Noise complaints shall be recorded on the form provided in the Noise and Vibration conditions of certification. All other complaints shall be recorded on the complaint form at the end of this compliance plan. Additionally, the project owner must include in the next MCR, ACR or PCR, copies of all complaints, notices, warnings, citations and fines, a description of how the issues were resolved, and the status of any unresolved or ongoing matters.</p>	Prior to construction	Not Started

Compliance Conditions and Compliance Monitoring Plan	COM-12	<p>No less than 60 days prior to the start of construction (or other CPM-approved) date, the project owner shall submit, for CPM review and approval, an Emergency Response Site Contingency Plan (Contingency Plan). Subsequently, no less than 60 days prior to the start of commercial operation, the project owner shall update (as necessary) and resubmit the Contingency Plan for CPM review and approval. The Contingency Plan shall evidence a facility's coordinated emergency response and recovery preparedness for a series of reasonably foreseeable emergency events. The CPM may require Contingency Plan updating over the life of the facility. Contingency Plan elements include, but are not limited to:</p> <ol style="list-style-type: none">1. a site-specific list and direct contact information for persons, agencies, and responders to be notified for an unanticipated event;2. a detailed and labeled facility map, including all fences and gates, the windsock location (if applicable), the on and off-site assembly areas, and the main roads and highways near the site;3. a detailed and labeled map of population centers, sensitive receptors, and the nearest emergency response facilities;4. a description of the on-site, first response and backup emergency alert and communication systems, site-specific emergency response protocols, and procedures for maintaining the facility's contingency response capabilities, including a detailed map of interior and exterior evacuation routes, and the E283planned location(s) of all permanent safety equipment;5. an organizational chart including the name, contact information, and first aid/emergency response certification(s) and renewal date(s) for all personnel regularly on-site;6. a brief description of reasonably foreseeable, site-specific incidents and accident sequences (on- and off-site), including response procedures and protocols and site security measures to maintain twenty-four-hour site security;7. procedures for maintaining contingency response capabilities; and8. the procedures and implementation sequence for the safe and secure shutdown of all non-critical equipment and removal of hazardous materials and waste (see also specific conditions of certification for the technical areas of Public Health, Solid Waste Management, Hazards, Hazardous Materials, and Wildfire, and Worker Safety and Fire Protection).	60 days prior to construction	In Progress				In Progress

Cultural and Tribal Cultural Resources	CUL-1	Within 30 days of selection of a CRS, the project owner shall provide a copy of any resume(s) to CEC for review and approval that the CRS meets the Standards.	within 30 days of selection of CRS	Submitted	7/25/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	CUL-2	At least 90 days prior to the start of construction, the project owner shall provide a draft CTCRMMP to CEC for review and approval.	90 days prior to construction	Submitted	8/14/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	CUL-3	At least 20 days prior to the start of construction, the project owner shall notify CEC that the WEAP has been scheduled and allow for participation of any tribal participants should they have requested so during CEC's ongoing tribal consultation for the undertaking.	20 days prior to construction	Not Started				
Facility Design	ELEC-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction, the project owner shall submit to the DCBO for design review and approval the above listed documents. The project owner shall include in this submittal a copy of the signed and stamped statement from the responsible electrical engineer attesting compliance with the applicable LORS and shall send the CPM a copy of the transmittal letter in the next MCR.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction	In Progress				In Progress
Facility Design	ELEC-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of each increment of electrical construction, the project owner shall submit to the DCBO for design review and approval the above listed documents. The project owner shall include in this submittal a copy of the signed and stamped statement from the responsible electrical engineer attesting compliance with the applicable LORS and shall send the CPM a copy of the transmittal letter in the next MCR.	Next MCR	Not Started				
Facility Design	GEN-2	At least 60 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO and to the CPM the schedule, and the master drawings and master specifications list of documents to be submitted to the DCBO, for review and approval. These documents shall be the pertinent design documents for the major structures, systems, and equipment. Major structures, systems, and equipment shall be added to or deleted from the list only with CPM approval. The project owner shall provide schedule updates in the monthly compliance report (MCR).	At least 60 days prior to the start of rough grading (or a project owner and DCBO mutually agreed upon alternative time frame)	Submitted	Submitted to DCBO: 8/8/2025 Submitted to CPM: 8/15/2025			Submitted to DCBO and CPM
Facility Design	GEN-3	The project owner shall make the required payments to the DCBO in accordance with the agreement between the project owner and the DCBO. If the CEC delegates the DCBO function to a third party or local agency, the project owner, at the CEC's direction, shall make payments directly to the DCBO based upon a fee schedule negotiated between the CEC and the DCBO. The project owner shall send a copy of the DCBO's receipt of payment to the CPM in the next MCR indicating that applicable fees have been paid.	In accordance with the agreement between the project owner and the DCBO or based upon a fee schedule negotiated between the CEC and the DCBO.	In Progress				In Progress
Facility Design	GEN-4	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO for review and approval, the resume and qualifications registration number of the RE and any other delegated engineers or construction project manager assigned to the project. The project owner shall notify the CPM of the DCBO's approvals of the RE and other delegated engineer(s) within five days of the approval. If the RE or the delegated engineer(s) is subsequently reassigned or replaced, the project owner has five days to submit the name, qualifications, and registration number of the newly assigned engineer or construction project manager to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	The project owner shall notify the CPM of the DCBO's approvals of the RE and other delegated engineer(s) within five days of the approval.	In Progress				In Progress
Facility Design	GEN-5	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of rough grading, the project owner shall submit to the DCBO for review and approval, resumes and registration numbers of the responsible civil engineer, soils (geotechnical) engineer, and engineering geologist assigned to the project. At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction, the project owner shall submit to the DCBO for review and approval, resumes and registration numbers of the responsible design engineer, mechanical engineer, and electrical engineer assigned to the project. The project owner shall notify the CPM of the DCBO's approvals of the responsible engineers within five days of the approval. If any one of the designated responsible engineers is subsequently reassigned or replaced, the project owner has five days in which to submit the name, qualifications, and registration number of the newly assigned engineer to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	At least 30 days prior to the start of rough grading (or a project owner and DCBO mutually agreed upon alternative time frame)	In Progress				In Progress
Facility Design	GEN-6	At least 15 days (or project owner- and DCBO-approved alternative time frame) prior to the start of an activity requiring special inspection, the project owner shall submit to the DCBO for review and approval, with a copy to the CPM, the name(s) and qualifications of the certified weld inspector(s), or other certified special inspector(s) assigned to the project to perform one or more of the duties set forth above. The project owner shall also submit to the CPM a copy of the DCBO's approval of the qualifications of all special inspectors in the next MCR. If the special inspector is subsequently reassigned or replaced, the project owner has five days in which to submit the name and qualifications of the newly assigned special inspector to the DCBO for approval. The project owner shall notify the CPM of the DCBO's approval of the newly assigned inspector within five days of the approval.	15 days (or project owner- and DCBO-approved alternative time frame) prior to the start of an activity requiring special inspection	In Progress				In Progress

Facility Design	GEN-7	The project owner shall transmit a copy of the DCBO's approval of any corrective action taken to resolve a discrepancy to the CPM in the next MCR. If any corrective action is disapproved, the project owner shall advise the CPM, within five days, of the reason for disapproval and the revised corrective action to obtain DCBO's approval.	Discrepancy documentation submitted to the DCBO.	No Action Needed				
Geology, Paleontology, and Minerals	GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	Prior to submittal to CPM, which must occur at least 60 days prior to grading	In Progress				In Progress
Geology, Paleontology, and Minerals	GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	60 days prior to grading	Not Started				
Climate Change and Greenhouse Gas Emissions	GHG-1	To ensure compliance with this condition the project owner must identify and confirm the compliant refrigerant cooling fluid installation, along with an estimated annual greenhouse gas emissions in metric tons of CO2-equivalent (MTCO2e) to be submitted to the CEC CPM for verification, within 30 days prior to installation of HVAC. Once confirmed and approved by the CEC CPM, this verification is considered complete.	30 days prior to installation of HVAC unit.	In Progress				In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-4	At least 30 days prior to commencing construction, the project owner shall notify the CPM that a site-specific Construction Security Plan is available for review and approval.	30 days prior to the start of construction	In Progress				In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-6	At least 45 days prior to any ground disturbance, the project owner shall submit the SMP to the Fresno County CUPA for review and comment and to the CPM for review and approval. An SMP summary shall be submitted to the CPM within 30 days of completion of any ground disturbance.	45 days prior to ground disturbance	In Progress				In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	HAZ-7	At least 30 days prior to the start of site mobilization, the project owner shall submit the resume to the CPM for review and approval.	30 days prior to site mobilization	In Progress				In Progress
Facility Design	MECH-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list, the project owner shall submit to the DCBO for design review and approval the final plans, specifications, and calculations, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with applicable LORS, and shall send the CPM a copy of the transmittal letter in the next MCR. The project owner shall transmit to the CPM, in the MCR following completion of any inspection, a copy of the transmittal letter conveying the DCBO's inspection approvals.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list	In Progress				In Progress
Facility Design	MECH-1	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list, the project owner shall submit to the DCBO for design review and approval the final plans, specifications, and calculations, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with applicable LORS, and shall send the CPM a copy of the transmittal letter in the next MCR. The project owner shall transmit to the CPM, in the MCR following completion of any inspection, a copy of the transmittal letter conveying the DCBO's inspection approvals.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of any increment of major mechanical related components' construction listed in the DCBO-approved master drawing and master specifications list	Not Started				
Facility Design	MECH-2	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction of any HVAC or refrigeration system, the project owner shall submit to the DCBO the required HVAC and refrigeration calculations, plans, and specifications, including a copy of the signed and stamped statement from the responsible mechanical engineer certifying compliance with the CBC and other applicable codes, with a copy of the transmittal letter to the CPM.	At least 30 days (or a project owner and DCBO mutually agreed upon alternative time frame) prior to the start of construction of any HVAC or refrigeration system,	In Progress				In Progress
Noise and Vibration	NOISE-2	At least 30 days prior to the start of ground disturbance, the project owner shall submit the noise control program to the CPM. The project owner shall make the program available to Cal-OSHA upon request.	30 days prior to ground disturbance	In Progress				In Progress
Noise and Vibration	NOISE-5	Prior to ground disturbance, the project owner shall transmit to the CPM a statement acknowledging that the above restrictions will be observed throughout the construction of the project.	Prior to ground disturbance	In Progress				In Progress

Noise and Vibration	NOISE-6	<p>At least 15 days prior to first pile driving, the project owner shall submit to the CPM a description of the pile driving technique to be employed, including calculations showing its projected noise impacts and peak particle velocity at monitoring locations R-5, R-8, and R-13. Examples of noise-reducing techniques include: (1) the use of pads or impact cushions of plywood; (2) dampened driving, which involves some form of blanket or enclosure around the hammer; (3) the use of vibratory drivers or hydraulic pile pushers instead of impact; or (4) installation of a temporary barriers such as a mobile sound screen near the pile driver or other effective mitigation measures that reduce the noise and vibration impacts of pile driving.</p> <p>At least 10 days prior to first production pile driving, the project owner shall notify residences in the vicinity of the project. The notification may be in the form of letters, or other effective means, as approved by the CPM. In this notification, the project owner shall state that it will perform this activity in a manner to reduce the potential for any project-related noise and vibration complaints.</p>	15 days prior to first pile driving for statement of techniques to be employed and calculations; 10 days prior to first pile driving to notify residences	Not Started

The project owner shall also transmit a copy of the DCBO's inspection approvals to the CPM in the MCR following completion of any inspection.	when DCBO has approved the plan checks.	Not Started				
Air Quality	SWITCH AQ-1	The AQCMM shall provide the CPM a Monthly Compliance Report to include the following to demonstrate control of fugitive dust emissions: A. A summary of all actions taken to maintain compliance with this condition; B. Copies of any complaints filed with the District in relation to project construction; and C. Any other documentation deemed necessary by the CPM and AQCMM to verify compliance with this condition. Such information may be provided via electronic format or disk at the project owner's discretion.	Within 10 days of the end of the month	Not Started				
Biological Resources	SWITCH BIO-1	The project owner shall submit a report to the CPM, CDFW and USFWS within 30 days of completion of surveys performed within work areas identified as suitable BNLL habitat. The report shall include the names of the surveyors and qualifications as well as describe survey methods, results, impact avoidance and minimization measures to be implemented. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	within 30 days of completion of surveys	Not Started				
Biological Resources	SWITCH BIO-1	The project owner shall submit a report to the CPM, CDFW and USFWS within 30 days of completion of surveys performed within work areas identified as suitable BNLL habitat. The report shall include the names of the surveyors and qualifications as well as describe survey methods, results, impact avoidance and minimization measures to be implemented. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	Within 10 days of the end of the month	Not Started				
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	at least 15 days prior to initiating bat surveys	Submitted	7/25/2025			Submitted to CPM
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	within 30 days after tree removal	No Action Needed				
Biological Resources	SWITCH BIO-2	The project owner shall submit the resume of the qualified bat biologist at least 15 days prior to initiating bat surveys. The project owner and/or DB shall submit an email to the CPM prior to tree removal notify the CPM if bats are present. The project owner shall submit a final survey report to the CPM within 30 days after tree removal. The project owner shall summarize the survey findings and describe any implemented avoidance or minimization measures in the Monthly Compliance Report (MCR), pursuant to Condition of Certification BIO-6.	Within 10 days of the end of the month	Not Started				
Cultural and Tribal Cultural Resources	SWITCH CUL-1	Within 30 days of selection of a CRS, the project owner shall provide a copy of any resume(s) to CEC for review and approval that the CRS meets the Standards.	Within 30 days of selection of a CRS	Submitted	7/25/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	SWITCH CUL-2	At least 90 days prior to the start of construction, the project owner shall provide a draft CTCRMMP to CEC for review and approval.	90 days prior to the start of construction	Submitted	8/14/2025			Submitted to CPM
Cultural and Tribal Cultural Resources	SWITCH CUL-3	At least 20 days prior to the start of construction, the project owner shall notify CEC that the WEAP has been scheduled and allow for participation of any tribal participants should they have requested so during CEC's ongoing tribal consultation for the undertaking.	20 days prior to start of construction	In Progress				In Progress
Geology, Paleontology, and Minerals	SWITCH GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	Prior to grading	Complete	7/31/2025	8/7/2025	N/A	Approved by DCBO on 8/7/2025
Geology, Paleontology, and Minerals	SWITCH GEO-1	As described in the CBC (2022) Section 1803.6, the project owner shall submit a written geotechnical report to the DCBO. The project owner shall provide to the CPM copies of the geotechnical investigations and geohazards report, building permit, and any comments by the DCBO at least 60 days prior to grading.	60 days prior to grading	Submitted	8/18/2025			Submitted to CPM on 8/18/2025
Hazards, Hazardous Materials/Waste, and Wildfire	SWITCH HAZ-1	Prior to construction, a Hazardous Materials Management Plan shall be prepared	Prior to construction	In Progress				In Progress
Hazards, Hazardous Materials/Waste, and Wildfire	SWITCH HAZ-2	At least 90 days prior to the start of construction, the project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan. At least 30 days prior to the start of commissioning, the project Operations and Maintenance Safety and Health Program. The project owner shall provide a copy to the CPM of letters from the FCFPD detailing the resolved comments on the Operations Fire Prevention Plan, Fire Protection System Impairment Program, and Emergency Action Plan.	90 days prior to start of construction	Overdue				See Section 4 of the MCR

Transmission Line Safety and Nuisance	SWITCH TLSN-1	At least 30 days before the construction of structures above 200 feet tall, the project owner shall transmit to the CPM a letter confirming compliance with this condition.	30 days prior to construction	In Progress				In Progress
Visual Resources	SWITCH VIS-1	<p>a. The project owner shall submit an exterior surface coating, color, finish and materials plan to the CPM for approval and simultaneously to the Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to executing a contract to purchase coating, color, finish and materials with a vendor. The CPM shall provide the Director of Planning and Development Services at least 30 days to review the plan and provide comments to the applicant and the CPM.</p> <p>b. If the CPM determines that the exterior surface coating, color, finish, and materials plan requires a revision, the project owner shall provide to the CPM a plan with the specified revision(s) for approval by the CPM before any action or activity with the vendor is executed. Any revision to the plan must be approved by the CPM.</p> <p>c. The project owner shall notify the CPM that exterior surface coatings, colors, and finishes of all listed buildings, equipment, and structures that has been completed are ready for inspection. With this notification, the applicant shall supply to the CPM one set of color photographs showing the project from the Key Views evaluated for the project certification, and individual color photographs showing the completed exterior surface coatings, colors, finishes, and materials for the following: the clarifiers, control room, cooling tower, maintenance building, thickener, and any other building, equipment, and structure as requested by the CPM. Color photographs may be electronically filed or manually filed on electronic media.</p> <p>d. Exterior surface coatings, colors, finishes, and materials shall be installed/applied (completed) on the exterior surfaces of the large/major buildings, equipment, and structures prior to the start of commercial operation.</p> <p>e. The project owner shall supply a description of the condition (status) of the exterior surface coatings, colors, finishes, and materials for the large/major buildings, equipment, structures, and others as needed for the reporting year in the Annual Compliance Report. The report shall include:</p> <ol style="list-style-type: none"> 1. The condition of the exterior surfaces of buildings, equipment, and structures at the end of the reporting year. 2. A listing of maintenance activities performed during the reporting year. 3. A tentative time schedule for maintenance activities for the upcoming year. 	60 days prior to executing a contract to purchase coating, color, finish and materials with a vendor	In Progress				In Progress
Solid Waste Management	SWITCH Waste-1	No less than 30 days prior to the start of site mobilization, the project owner shall submit the Construction Waste Management Plan to the CPM for approval. The Operation Waste Management Plan shall be submitted to the CPM no less than 30 days prior to the start of project operation for approval. The project owner shall submit any required revisions within 20 days of notification by the CPM. In the Annual Compliance Reports, the project owner shall document the actual waste management methods used during the year compared to the planned management methods.	30 days prior to construction	In Progress				In Progress
Water Resources	SWITCH WATER-1	At least thirty (30) days prior to site mobilization, the project owner shall submit to the Compliance Project Manager (CPM) proof that the construction permit was granted and that a waste discharge identification number (WDID) was issued by the SWRCB. Within ten (10) days of its mailing or receipt, the project owner shall submit to the CPM any correspondence between the project owner and the SWRCB or the Central Valley Regional Water Quality Control Board (CVRWQCB) concerning the CGP. This information shall include the NOI, any updates to the construction SWPPP, and the notice of termination. The project owner shall notify the CPM in writing of any reported non-compliance and include these in the annual compliance report. Any monitoring documentation associated with the SWPPP shall be included in the annual compliance report.	(30) days prior to site mobilization	In Progress				In Progress. The NOI was submitted to SMARTS on 8/29/2025. SWRCB review pending.
Transmission Line Safety and Nuisance	TLSN-1	At least 30 days before starting construction of the transmission lines or related structures and facilities, the project owner shall submit to the compliance project manager (CPM) a letter signed by a California-registered electrical engineer affirming that the lines will be constructed according to the requirements stated in the condition.	30 days prior to construction of the transmission lines or related structures/facilities	In Progress				In Progress
Transmission Line Safety and Nuisance	TLSN-5	At least 30 days before the construction of structures above 200 feet tall, the project owner shall transmit to the CPM a letter confirming compliance with this condition.	30 days prior to construction	In Progress				In Progress
Transportation	TRANS-1	The project owner shall retain copies of permits and supporting documents on-site for CPM inspection if requested.	Prior to construction	No Action Needed				
Transportation	TRANS-2	The project owner shall include in its Monthly Compliance Reports (MCR's) copies of all permits/licenses acquired by the project owner and/or subcontractors concerning the transport of hazardous substances.	Next MCR	Not Started				
Transportation	TRANS-3	At least 60 calendar days prior to the start of construction, the project owner shall submit the CMP to Caltrans and Fresno County for review and comment and to the compliance project manager (CPM) for review and approval. The project owner shall also provide the CPM with a copy of the transmittal letter to Caltrans and Fresno County requesting review and comment. At least 30 calendar days prior to the start of construction, the project owner shall provide copies of any comment letters received from Caltrans or Fresno County, or any other interested agencies, along with any changes to the CMP, for CPM review and approval. After CPM review and approval, the project owner shall provide completed copies of the final CMP to Caltrans and Fresno County and any other interested agencies, sending copies of the correspondence to the CPM.	60 days prior to construction	In Progress				In Progress

Transportation	TRANS-3	At least 60 calendar days prior to the start of construction, the project owner shall submit the CMP to Caltrans and Fresno County for review and comment and to the compliance project manager (CPM) for review and approval. The project owner shall also provide the CPM with a copy of the transmittal letter to Caltrans and Fresno County requesting review and comment. At least 30 calendar days prior to the start of construction, the project owner shall provide copies of any comment letters received from Caltrans or Fresno County, or any other interested agencies, along with any changes to the CMP, for CPM review and approval. After CPM review and approval, the project owner shall provide completed copies of the final CMP to Caltrans and Fresno County and any other interested agencies, sending copies of the correspondence to the CPM.	30 days prior to construction	Not Started				
Transmission System Engineering	TSE-1	Before the start of construction, the project owner shall submit the schedule, a Master Drawing List, and a Master Specifications List to the DCBO and to the CPM. The schedule shall contain a description and list of proposed submittal packages for design, calculations, and specifications for major structures and equipment (see a list of major equipment in Table 1: Major Equipment List below). Additions and deletions shall be made to the table only with CPM and DCBO approval. The project owner shall provide schedule updates in the Monthly Compliance Report.	Before the start of construction	Submitted	Submitted to DCBO on 8/8/2025 Submitted to CPM on 8/15/2025			Submitted to DCBO and CPM
Transmission System Engineering	TSE-1	Before the start of construction, the project owner shall submit the schedule, a Master Drawing List, and a Master Specifications List to the DCBO and to the CPM. The schedule shall contain a description and list of proposed submittal packages for design, calculations, and specifications for major structures and equipment (see a list of major equipment in Table 1: Major Equipment List below). Additions and deletions shall be made to the table only with CPM and DCBO approval. The project owner shall provide schedule updates in the Monthly Compliance Report.	in the MCR	Not Started				
Transmission System Engineering	TSE-2	Before the start of rough grading, the project owner shall submit the names, qualifications, and registration numbers of all the responsible engineers assigned to the project to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approvals of the engineers within five days of the approval. Suppose the designated responsible engineer is subsequently reassigned or replaced. In that case, the project owner has five days to submit the newly assigned engineer's name, qualifications, and registration number to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	Before the start of rough grading	In Progress				In Progress
Transmission System Engineering	TSE-2	Before the start of rough grading, the project owner shall submit the names, qualifications, and registration numbers of all the responsible engineers assigned to the project to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approvals of the engineers within five days of the approval. Suppose the designated responsible engineer is subsequently reassigned or replaced. In that case, the project owner has five days to submit the newly assigned engineer's name, qualifications, and registration number to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	5 days from the approval	Not Started				
Transmission System Engineering	TSE-2	Before the start of rough grading, the project owner shall submit the names, qualifications, and registration numbers of all the responsible engineers assigned to the project to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approvals of the engineers within five days of the approval. Suppose the designated responsible engineer is subsequently reassigned or replaced. In that case, the project owner has five days to submit the newly assigned engineer's name, qualifications, and registration number to the DCBO for review and approval. The project owner shall notify the CPM of the DCBO's approval of the new engineer within five days of the approval.	5 days from reassigning or replacing	No Action Needed				
Transmission System Engineering	TSE-3	Before the start of each increment of construction, the project owner shall submit to the DCBO for review and approval the final design plans, specifications, and calculations for equipment and systems of the power plant switchyard, outlet line, and termination, including a copy of the signed and stamped statement from the responsible electrical engineer verifying compliance with all applicable LORS, and send the CPM a copy of the transmittal letter in the next monthly compliance report.	Before the start of each increment of construction	In Progress				In Progress
Transmission System Engineering	TSE-3	Before the start of each increment of construction, the project owner shall submit to the DCBO for review and approval the final design plans, specifications, and calculations for equipment and systems of the power plant switchyard, outlet line, and termination, including a copy of the signed and stamped statement from the responsible electrical engineer verifying compliance with all applicable LORS, and send the CPM a copy of the transmittal letter in the next monthly compliance report.	in the MCR	Not Started				

Transmission System Engineering	TSE-4	<p>Before the start of construction or start of modification of transmission facilities, the project owner shall submit to the DCBO for approval:</p> <p>a. Design drawings, specifications, and calculations conforming with CPUC General Order 95 or National Electric Safety Code (NESC); Title 8 of the California Code and Regulations (Title 8); Articles 35, 36, and 37 of the High Voltage Electric Safety Orders, National Electric Code (NEC) and related industry standards, for the poles/towers, foundations, anchor bolts, conductors, grounding systems, and major switchyard equipment.</p> <p>b. For each element of the transmission facilities identified above, the submittal package to the DCBO shall contain the design criteria, a discussion of the calculation method(s), a sample calculation based on “worst case conditions”¹ and a statement signed and sealed by the registered engineer in responsible charge, or other acceptable alternative verification, that the transmission element(s) will conform with CPUC General Order 95 or National Electric Safety Code (NESC); Title 8 of the California Code and Regulations (Title 8); Articles 35, 36 and 37 of the High Voltage Electric Safety Orders, PG&E standards, National Electric Code (NEC), and related industry standards.</p> <p>c. Electrical one-line diagrams signed and sealed by the registered professional electrical engineer in charge, a route map, and an engineering description of the equipment and configurations covered by requirements TSE-5 a through f.</p> <p>d. The Generator Special Facilities Agreement shall be provided concurrently to the CPM and DCBO. The project owner shall identify and justify the substitution of equipment and substation configurations for DCBO and CPM approval.</p> <p>e. Any changes or updates to the executed LGIA signed by the PG&E and the project owner.</p> <p>f. Before the construction of any project modification requiring approval of the PG&E, provide the interconnection approval to the CPM. Interconnection approval for modification of existing facilities can be in the form of an approved Material Modification or approval of the proposed changes to the project and the existing interconnection facilities. Within 15 days after the cessation of construction, the project owner shall provide a statement to the CPM from the registered engineer in responsible charge (signed and sealed) that the switchyard and transmission facilities conform to the abovelisted requirements.</p>	Before the start of construction or start of modification of transmission facilities	In Progress				In Progress
Visual Resources	VIS-1	<p>a. The project owner shall submit an exterior surface coating, color, finish and materials plan to the CPM for approval and simultaneously to the Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to executing a contract to purchase coating, color, finish and materials with a vendor. The CPM shall provide the Director of Planning and Development Services at least 30 days to review the plan and provide comments to the applicant and the CPM.</p> <p>b. If the CPM determines that the exterior surface coating, color, finish, and materials plan requires a revision, the project owner shall provide to the CPM a plan with the specified revision(s) for approval by the CPM before any action or activity with the vendor is executed. Any revision to the plan must be approved by the CPM.</p> <p>c. The project owner shall notify the CPM that exterior surface coatings, colors, and finishes of all listed buildings, equipment, and structures that has been completed are ready for inspection. With this notification, the applicant shall supply to the CPM one set of color photographs showing the project from the Key Views evaluated for the project certification, and individual color photographs showing the completed exterior surface coatings, colors, finishes, and materials for the following: the clarifiers, control room, cooling tower, maintenance building, thickener, and any other building, equipment, and structure as requested by the CPM. Color photographs may be electronically filed or manually filed on electronic media.</p> <p>d. Exterior surface coatings, colors, finishes, and materials shall be installed/applied (completed) on the exterior surfaces of the large/major buildings, equipment, and structures prior to the start of commercial operation.</p> <p>e. The project owner shall supply a description of the condition (status) of the exterior surface coatings, colors, finishes, and materials for the large/major buildings, equipment, structures, and others as needed for the reporting year in the Annual Compliance Report. The report shall include:</p> <ol style="list-style-type: none"> 1. The condition of the exterior surfaces of buildings, equipment, and structures at the end of the reporting year. 2. A listing of maintenance activities performed during the reporting year. 3. A tentative time schedule for maintenance activities for the upcoming year. 	(60) days prior to executing a contract to purchase coating, color, finish and materials with a vendor	In Progress				In Progress

Visual Resources	VIS-2	<p>a. The project owner shall submit a light pollution control plan to the CPM for approval and simultaneously to the Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to executing a contract to purchase permanent outdoor luminaires for the project. The CPM shall provide the Director of Planning and Development Services at least 30 days to review the plan and provide comments to the applicant and the CPM.</p> <p>b. If the CPM determines the light pollution control plan requires a revision, the project owner shall provide to the CPM a plan with the specified revision(s) for approval by the CPM before any action or activity with the vendor is executed. Any revision to the plan must be approved by the CPM.</p> <p>c. The project owner shall notify the CPM when the installation of the luminaires has been completed and are ready for inspection. After inspection if the CPM requires a modification to a luminaire(s) (e.g., design, installation, location), the project owner shall have 30 days after receiving the notification to complete the modification and request a follow-up inspection.</p> <p>d. If a light and glare complaint is filed with the project owner within 48 hours of receiving the complaint, the project owner shall supply the CPM with a completed complaint resolution form report as specified in the Compliance Conditions, a proposal to resolve the complaint and time schedule for resolution. The project owner shall notify the CPM within 48 hours after completing/resolving the complaint.</p>	60 days prior to executing a contract to purchase permanent outdoor luminaires for the project; inspection after installation	In Progress				In Progress
Visual Resources	VIS-3	<p>a. The project owner shall submit a plan locating the support structures adjacent to I-5 for approval to the CPM, Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to siting the structures.</p> <p>b. The project owner shall submit an exterior surface coating, color, finish and materials plan for the utility structures crossing I-5 for approval to the CPM, Director of Planning and Development Services for the County of Fresno for review and comment sixty (60) days prior to executing a contract to purchase coating, color, finish and materials with a vendor. The CPM shall provide the Director of Planning and Development Services at least 30 days to review the plan and provide comments to the applicant and the CPM.</p> <p>c. If the CPM determines that the exterior surface coating, color, finish, and materials plan requires a revision, the project owner shall provide to the CPM a plan with the specified revision(s) for approval by the CPM before any action or activity with the vendor is executed. Any revision to the plan must be approved by the CPM.</p> <p>d. The project owner shall notify the CPM that exterior surface coatings, colors, and finishes of the structures has been completed are ready for inspection. With this notification, the applicant shall supply to the CPM one set of color photographs showing the project from the Key Views evaluated for the project certification, and individual color photographs showing the completed exterior surface coatings, colors, finishes, and materials as requested by the CPM. Color photographs may be electronically filed or manually filed on electronic media.</p> <p>e. Exterior surface coatings, colors, finishes, and materials shall be installed/applied (completed) on the exterior surfaces of the structures prior to the start of commercial operation.</p>	(60) days prior to siting the structures	In Progress				In Progress
Solid Waste Management	Waste-1	No less than 30 days prior to the start of site mobilization, the project owner shall submit the Construction Waste Management Plan to the CPM. The Operation Waste Management Plan shall be submitted to the CPM no less than 30 days prior to the start of project operation. The project owner shall submit any required revisions within 20 days of notification by the CPM. In the Annual Compliance Reports, the project owner shall document the actual waste management methods used during the year compared to the planned management methods.	30 days prior to construction	In Progress				In Progress
Water Resources	WATER-1	At least thirty (30) days prior to site mobilization, the project owner shall submit to the Compliance Project Manager (CPM) proof that the construction permit was granted and that a waste discharge identification number (WDID) was issued by the SWRCB. Within ten (10) days of its mailing or receipt, the project owner shall submit to the CPM any correspondence between the project owner and the SWRCB or the Central Valley Regional Water Quality Control Board (CVRWQCB) concerning the CGP. This information shall include the NOI, any updates to the construction SWPPP, and the notice of termination. The project owner shall notify the CPM in writing of any reported non-compliance and include these in the annual compliance report. Any monitoring documentation associated with the SWPPP shall be included in the annual compliance report.	30 days prior to construction	In Progress				In Progress
Water Resources	WATER-3	No later than thirty (30) days prior to start of construction, the project owner shall submit a plan to install underground wiring to PV panels in compliance with Ordinance 15.48.080 (A)(2)(a) to the CPM for review and approval and to Fresno County for review.	30 days prior to construction	In Progress				In Progress
Water Resources	WATER-5	At a frequency determined by the CPM, the project owner shall keep the CPM apprised of all aspects of production well installation. The project owner shall provide the CPM with a copy of the well installation permit. The project owner shall file a well completion report to DWR for the extraction well. Any testing results or correspondence exchanged between the project owner and the California Department of Health Services or the FCPWPD during operations shall be provided to the CPM in the annual compliance report. All results and diagrams associated with groundwater production well installation shall be included in the annual compliance report.	Prior to well construction and operation	Not Started				
Worker Safety and Fire Protection	Worker Safety-1	At least 90 days prior to the start of construction, the project owner shall submit to the CPM for review and approval a copy of the Project Construction and Safety and Health Program. The project owner shall provide to the CPM a copy of letters from the FCFPD detailing resolved comments on the Construction Fire Prevention Plan, the Emergency Action Plan, and Emergency Response Plan.	At least 90 days prior to the start of construction	In Progress				In Progress. See Section 4 of the MCR.

Worker Safety and Fire Protection	Worker Safety-3	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS. The contact information of any replacement CSS shall be submitted to CPM within one business day. The CSS shall submit in the Monthly Compliance Report (MCR) a monthly safety inspection report.	30 days prior to the start of site mobilization	Complete	7/21/2025	8/15/2025	N/A	Approved by CPM on 8/15/2025
Worker Safety and Fire Protection	Worker Safety-3	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM the name and contact information of the CSS. The contact information of any replacement CSS shall be submitted to CPM within one business day. The CSS shall submit in the Monthly Compliance Report (MCR) a monthly safety inspection report.	MCR	Not Started				
Worker Safety and Fire Protection	Worker Safety-4	At least 60 days prior to the start of construction, the project owner shall provide proof of its agreement to fund the Safety Monitor services to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-5	At least 60 days prior to the start of construction, the project owner shall submit the SAP to the CPM for review and approval. At least 30 days prior to the planned use of the well water, the project owner shall submit the laboratory findings to the CPM for review and approval of the use of the well water.	At least 60 days prior to the start of construction (SAP)	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-6	At least 60 days prior to the start of construction, the project owner shall provide the procedure(s) with the standard checklist to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-7	At least 60 days prior to the start of construction, the project owner shall provide all the information required above (with the exception of k) to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection. Within 10 days of an incident at the BESS facility (including but not limited to fire, malfunction, leak, or thermal runaway of any cell, module, or unit) the project owner shall notify the CPM that a Root Cause Analysis (RCA) is being prepared. The project owner shall work with the CPM to determine a submission date for the completed RCA. The RCA shall be submitted to the FCFPD for review and comment, and to the CPM for review and approval.	At least 60 days prior to the start of construction	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-8	The project owner shall ensure that the project adheres to all applicable provisions of NFPA 855. At least 90 days prior to the start of construction of the BESS, the project owner shall provide all system specifications and design drawings to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection.	At least 90 days prior to the start of construction of the BESS	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-9	The project owner shall ensure that the project adheres to all applicable provisions of NFPA 850. At least 90 days prior to the start of construction of the fire protection system, the project owner shall provide all fire protection system specifications and drawings to the FCFPD for review and comment, to the CPM for review and approval, and to the DCBO for plan check approval and construction inspection.	At least 90 days prior to the start of construction of the fire protection system	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-10	At least 30 days prior to the start of site mobilization, the project owner shall submit to the CPM proof that a portable AED is available to be made available on site as soon as physically possible along with a copy of the training and maintenance program for review and approval.	At least 30 days prior to the start of site mobilization	In Progress				In Progress
Worker Safety and Fire Protection	Worker Safety-11	At least 60 days prior to the commencement of site mobilization, the VF Prevention and Response Plan shall be provided to the CPM for review and approval.	At least 60 days prior to site mobilization	Submitted	8/20/2025			Submitted to CPM.
Worker Safety and Fire Protection	Worker Safety-12	a. No more than 30 days after certification, the project owner shall provide to the CPM for review and approval the schedule for reaching agreement on funding prior to site mobilization. b. At least 30 days prior to the start of site mobilization, or as soon as practicable thereafter, the project owner shall provide to the CPM for review and approval either: 1. A copy of the agreement with the FCFPD or 2. A copy of the arbiter's decision. c. If the agreement or arbiter's decision submitted 30 days prior to site mobilization is limited to funding during construction, then, provided the property tax exclusion still applies, the project owner must provide to the CPM for review and approval an agreement or arbiter's decision to cover the remaining period of the project at least 30 days prior to the completion of construction. d. Upon approval of the agreement or arbiter's decision by the CPM, the project owner shall commence payment of the initial funding and annual funding. If the agreement or arbiter's decision is provided later than 30 days prior to the start of site mobilization, funding will be made retroactive to cover from the start date of site mobilization.	No more than 30 days after certification	Submitted	7/11/2025			Submitted to CPM. An in-person meeting was held with the FCFPD on 7/16/25.
Worker Safety and Fire Protection	Worker Safety-12	a. No more than 30 days after certification, the project owner shall provide to the CPM for review and approval the schedule forreaching agreement on funding prior to site mobilization. b. At least 30 days prior to the start of site mobilization, or as soon as practicable thereafter, the project owner shall provide to the CPM for review and approval either: 1. A copy of the agreement with the FCFPD or 2. A copy of the arbiter's decision. c. If the agreement or arbiter's decision submitted 30 days prior to site mobilization is limited to funding during construction, then, provided the property tax exclusion still applies, the project owner must provide to the CPM for review and approval an agreement or arbiter's decision to cover the remaining period of the project at least 30 days prior to the completion of construction. d.
