RE: Request for Extension of 15-day Comment Period in Docket Number 22-EVI-04

ChargePoint respectfully request an extension of the comment deadline established in TN#266037 and posted to the 22-EVI-04 docket on 9/8/25. In the changes to the Express Terms posted on 9/8/25 the CEC incorporated by reference two documents which are being provided for the first time in this docket, Semiannual Charging Data Reporting Specification of the Data Dictionary and Hourly Charging Data Reporting Specification of the Data Dictionary.

These documents are a welcome addition to the docket and contain detailed technical information critical to the program implementation and to regulated parties. While a welcome addition, these documents provide a level of detail greater than has been discussed previously, introducing new terms and requirements in practice. Analysis of these new terms and greater details require deeper consideration of their incorporation as is or modified in the final rules.

ChargePoint has filed timely comments in this docket on 8/12/25, 2/18/25, 5/15/24, 12/14/23, 10/25/23, and 11/14/23. Additional time at this near final stage of the regulations does not meaningfully delay this docket that has been in development for more than 3 years and is necessary to ensure the workability of these new details. ChargePoint respectfully request an additional 14 calendar days to develop and submit comments, modifying the due date in TN#266037 to 5pm on October 8, 2025.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Wilson".
