I Support This Project

I am a 25 year Acton resident and support Prarie Song. Battery storage is extremely safe with modern thermal management systems that very very rarely fail. The gas powered vehicles on the freeway are way more hazardous in terms of fire danger. I bought an electric vehicle six months ago and sleep well here in Acton as it charges. The location of this facility is excellent being away from residences and close to one of the largest switching stations in the country. Let's move forward and build this project.
