Prairie Song Reliability Project

You can't possibly be thinking of putting this project in our high fire danger area in Agua Dulce, CA. You are looking at it from a corporate point of view. I am looking at it from a member of this community, raised children here, have beloved pets buried in the yard. Have seen Hale Bop Comets in our heavens and horrible black smoke and flames approach with 2 acres of our home. 37 years here and one of your units on fire could poison the air and burn everything we have to the ground. Don't make us and our areas another Pacific Palisades and Alta Dena, PLEASE don't do your project here.
