Ok... just was trying to read between the lines to see if he was going to try to sell something! Yes, that would be super if you and/or Medhanie would reach out. Thanks Ann-Marie.

Subject: RE: Compass Energy Storage Project Briefing

Hi Julie,

It does seem like he just wants to brief us on it, but I don't think you need to waste your time on it. We could have Medhanie meet with him and myself to fill us in if you want.

Let me know what you think.

Ann-Marie

Hi there-

I initially thought this was a sales pitch (still might be), but he seems to want to brief me on the matter. What do you think?

Julie

Subject: Compass Energy Storage Project Briefing

Dear Chancellor Barnes,

I hope you are doing well. I am contacting you about the Compass Battery Storage Project, which has a geographic overlap with the South Orange County Community College District. Because of its significance to the region, I thought it might be valuable for you to get a briefing on this project, as you may be asked about it in the future.

The Compass Battery Storage Project is a critical infrastructure initiative designed to enhance regional grid stability and resiliency while lowering energy costs during peak hours for approximately 250,000 homes in the area. This effort will play a key role in helping to prevent blackouts within the College District and surrounding communities.

We want to ensure that you have all the necessary information about this project, especially if you are contacted to take a position. Please let me know a convenient time for you, and we will gladly arrange the meeting.

Thank you for your time and consideration.
 Best regards,

Peter B. Dorsch
