Acton Resident Yes on bess

BESS is the future!

I want to share my thoughts as An Acton resident. As I see residents post against the project yet the land they so badly don't want the bess built on is covered in trash from illegal dumping mounds of dumped tree trimmings etc. at the minimum this will eliminate illegal dumping in the area as the site will be clean and maintained daily.

This is paving the future for our kids to better sustain the elements and climate ahead as we face additional climate diversity and creating good paying jobs. it's extremely important we continue advancing with grid power support .They keep mentioning fires but what if a fire what if this! What if it works wonderfully and has a positive impact for Los Angeles what if they clean up the lot and donate to the local community. What if we stop what ifing.

God bless,
