## **Lithium Battery Storage locations in Acton, CA**

Our household is STRONGLY AGAINST any Lithium Battery Storage locations in Acton CA both currently planned or future planning. The following reasons are:

- 1) Extreme risk of Wildfire danger in all of Acton CA. It is VERY REAL.
- 2) High Risk of Batteries catching on fire. The evidence is clear.
- 3) High Risk of contamination of soil and water
- 4) High Risk of Health Issues from Lithium Batteries
- 5) Unsightly and Esthetically not in line with rural living or environment. We all moved here for the rural lifestyle.
- 6) Decline of Property value. Our homes and properties are part of our assets. Is that fair to anyone in our community? NO,
- 7) Threat to Wildlife, Flora, Fiona and ecological environment.

All the above are very valid reasons for NO on Lithium Battery Storage units in Acton CA. Find other locations not in our backyard. It may cost you more, but you know you can find other locations other than Acton CA.
