*Space Conditioning and Water Heating
Equipment Data Tracking*

DOCKET NO. 24-OIR-03

NOTICE OF REOPENING AND EXTENSION
OF PUBLIC COMMENT PERIOD

RE: Energy Data Collection Phase 3 Request
for Information

Notice of Reopening and Extension of Public Comment Period
Request for Information (RFI)
**Energy Data Collection Phase 3 – Space Conditioning And Water
Heating Equipment Data Tracking**

Docket # 24-OIR-03

Responses Due Friday, October 17, 2025

Purpose of Request

The California Energy Commission (CEC) is reopening the submittal period for its Request for Information (RFI) on *Energy Data Collection Phase 3 – Space Conditioning And Water Heating Equipment Data Tracking*, originally published on September 2, 2025 with an original submittal deadline of August 18, 2025. The CEC is proposing to allow materials to be submitted under this RFI until Friday, October 17, 2025 to accommodate participants in a September 30, 2025 workshop on a closely related topic.

Background

On September 2, 2025, the CEC published an RFI requesting that stakeholders and interested members of the public provide written information and feedback on potential data reporting requirements for space heating, space conditioning, and water heating equipment (including heat pumps) sales and deliveries in California. The complete RFI can be downloaded at <https://efiling.energy.ca.gov/GetDocument.aspx?tn=264545&DocumentContentId=101418>.

At the close of the submittal period, staff observed that many of the submittals recommended focusing on improvements to California's building permitting processes. The CEC is engaged in efforts parallel to this RFI to improve permitting and permit compliance, and a staff workshop on compliance improvement is scheduled for Tuesday, September 30, 2025. Information about the workshop, titled *Energy Code Compliance Initiatives*, can be accessed at

<https://www.energy.ca.gov/event/workshop/2025-09/staff-workshop-energy-code-compliance-initiatives>.

Recognizing the overlap between these parallel conversations and the likelihood of participants in the workshop to also value the opportunity to review and submit comments relating to the RFI, the CEC determined that it would be in the public interest to reopen and extend the RFI submittal period to allow workshop participants, who may not have been aware of the RFI, to submit relevant information or feedback to this proceeding.

Submitting Responses to the CEC Docket

Providing responses to the RFI is highly encouraged to inform CEC's policy decisions and planning processes. Public input is essential to ensure a comprehensive record that includes the best available data and information. Written responses, comments, proposals, and other technical material must be submitted to the docket linked below by **5:00 PM on Friday, October 17, 2025**.

Written comments, attachments, and associated contact information (for example, address, telephone number, email address) included in the response will become part of the public record, with access available via any internet search engine.

The CEC encourages use of its electronic commenting system. Visit the e-commenting page, <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=24-OIR03>, which links to the comment page for this docket. Enter your contact information and a comment title describing the subject of your comment(s). Comments may be included in the "Comment Text" box or attached in a format consistent with CCR, Title 20, section 1208.1. The maximum file size is 10 MB.

Written materials may also be submitted by email. Include the docket number 24-OIR-03 and "Energy Data Collection - Phase 3" in the subject line and sent to docket@energy.ca.gov.

If preferred, a paper copy may be submitted to:
