## **Oppose to Lithium Battery Storage Facilities in Acton,CA**

I strongly oppose all lithium battery storage facilities in Acton California for the following reasons:

\*Acton has been designated as a HIGH fire zone. Homeowners insurance is nearly impossible to obtain and extremely expensive. NOTE: a fire was already in our valley, many acres burned.

\*The value of our homes will depreciate, and with the cost of homeowners insurance, these homes will not sell.

\*Air quality can/will affect those residents with respiratory diseases. Many residents moved from polluted cities to a rural environment for health reasons.

\*LOCATE these facilities in the desert, where it will not create a danger to humans and property.

WHY do these companies want to victimize our town. I strongly oppose any lithium storage facilities in residential areas. Please let us live in peace.
