Hi Tim, congrats on being reelected!

Yesterday, we briefed Lisa Bartlett on the Compass Energy Storage Project in San Juan Capistrano. She thought it might be valuable for other SOCCCD Trustees to get a briefing on this project, which has a geographic overlap with the College District, and you might be asked about it.

This battery energy storage system enhances regional grid stability/resiliency and lowers the price of energy during peak hours for approximately 250,000 homes in this area. This will help prevent blackouts in the South Orange County Community College District and other areas. We want to make sure you have the facts about the project in case the board is contacted to take a position on this matter.

Please let me know a convenient time for you, and we will gladly arrange the meeting.

Thanks, Peter

Peter B. Dorsch
