Just say no

This is not OK, I am completely against this for several reasons and the bottom of my list is monetary... The top of my list is SAFETY! if this catches fire you will almost certainly burn all of Angeles forest, The people in this community will be trapped in this canyon and burned alive, we do not have the resources to contain this. I was recently stuck on the 14 freeway for 4 hours because emergency services couldn't reroute traffic from the 14 to Sierra or Soledad, where would they be able to get people around in an emergency. I am not willing to die so some governor can pretend he is saving the world.
