Please No!

Dear CEC,

As residents of Acton, we are pleading with you to deny approval to the BESS battery storage facility that seeks to store over 70 acres of Lithium batteries. This is an environmental disaster waiting in the wings. Acton is a high fire, windy and rural area with thousands of residents and livestock. These lithium battery storage facilities have a history of overheating and triggering fires, sending toxic plumes of chemicals into the community. Lithium battery fires can burn for days. This proposal is very upsetting to the residents of Acton. Please deny approval.

Thank you for your time,
Elizabeth and Ralph Barosh
