CEC-057 (Revised 1/21)

Notice of Availability
Docket No. 22-BSTD-07
Application Concerning
Locally Adopted Building Energy Efficiency Standards
in Accordance with Section 10-106 of
the California Code of Regulations, Title 24, Part 1

Local Jurisdiction Name: City of Mill Valley

Date of Local Adoption: December 5, 2022, and August 18, 2025

Designation of Locally Adopted Standard: 1340 and 1360

Purpose

California's local jurisdictions planning to enforce locally adopted energy efficiency standards (also called local ordinances or reach codes) that exceed the California Energy Code (Title 24, Part 6) are required to submit an application to the California Energy Commission (CEC), in accordance with California Code of Regulations (CCR), Title 24, Part 1, Chapter 10, Article 1, sections 10-106 and 10-110, and; Public Resources Code section 25402.1(h)(2). Applications submitted by local jurisdictions must provide their findings that the local ordinance, (1) saves more energy than current statewide energy standards and (2) is cost effective. The CEC posts locally adopted reach code applications for public review and comment pursuant to CEC regulation.

The City of Mill Valley has filed an application to enforce its local ordinance. CEC staff has determined this application to be complete including all the supporting information necessary to meet the requirements of section 10-106.

The CEC seeks public comments, including whether the locally adopted energy efficiency or conservation standards will require buildings to be designed to consume less energy than the *2022 California Energy Code*, California Code of Regulations, Title 24, Parts 1 and 6 (2022 Energy Code).

All application materials are available for download on the [CEC's website](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-BSTD-07) at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-BSTD-07>.

The following files are included in this application:

1. Att 1. CEC Cover Letter - City of Mill Valley
2. Att 2. Signed Ordinance No. 1340
3. Att 2a. Ordinance 1340 Staff Report
4. Att 2b. Markup of Ordinance 1340
5. Att 2c. NOE_Ordinance 1340
6. Att 2d. Resolution 22-71 for Ordinance 1340
7. Att 3. Signed Ordinance No. 1360
8. Att 3a. Ordinance 1360 Staff Report
9. Att 3b. Markup of Ordinance 1360
10. Att 3c. Notice of Exemption for Ordinance 1360
11. Att 4. Cost Effectiveness Studies and Data from Cost Effectiveness Explorer
12. Att 5. 2022 to 2025 FlexPath Memo
13. Att 6. Letter from Chief Building Official

Background

Statutory provisions in Public Resources Code section 25402.1(h)(2) and regulatory provisions in sections 10-106 and 10-110 of the California Code of Regulations, Title 24, Part 1 establish a process that allows local governmental agencies to adopt and enforce energy efficiency or energy conservation standards for newly constructed buildings, additions, alterations, and repairs to existing buildings. Such local standards may not be enforced, however, unless and until the CEC finds that the local standards will require buildings to be designed to consume less energy than permitted by the 2022 Energy Code, as demonstrated by the local jurisdiction in an application submitted to the CEC.

Per section 10-106, this application must include the following:

- 1) The proposed energy standards;
- 2) The local governmental agency's findings and supporting analyses on the energy-savings and cost-effectiveness of the local ordinance;
- 3) A statement or finding by the local governmental agency that the local energy standards will require buildings to be designed to consume less energy than permitted by the statewide 2022 Energy Code; and
- 4) Any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act (CEQA).

For the local jurisdiction to enforce the standard, the CEC must then find, based on the submitted application materials and consideration of public comment, that the local standards will result in a reduction in energy consumption compared to the statewide 2022 Energy Code and that the local jurisdiction has adopted its cost-effectiveness determination at a public meeting and subsequently filed it with the CEC.

Public Comments

The CEC encourages the use of its electronic commenting system. Visit the [e-commenting page](#) for this docket [22-BSTD-07](#) at

<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=22-BSTD-07>. Enter your contact information and a subject title that describes your comment. Comments may be included in the "Comment Text" box or attached as a downloadable, searchable document in compliance with California Code of Regulations, Title 20, section 1208.1. The maximum file size allowed is 10 MB.

Written comments must be submitted by: **5:00 p.m. on October 28, 2025.**

Written and oral comments, attachments, and associated contact information (including address, phone number, and email address) will become part of the public record of this proceeding with access available via any internet search engine. Written comments may also be submitted by email. Include docket number **22-BSTD-07** and City of Mill Valley, 2022, 1340 and 1360 in the subject line and email to docket@energy.ca.gov.

A paper copy may be mailed to:
