Corby Project

As a retired nurse, am very concerned about the effects of having a battery storage facility on Kilkenny Rd or any subsequent development near populated areas. I live in Leisure Town which is a 55 y/old and above residential community. We only have one main street that goes through the residential area. In addition , we also have an Assisted Living facility that is located at the end of Yellowstone Rd. I have seen the reports of numerous lithium battery facilities such as in Monterey county where the facility exploded and took a long time for it to be extinguished. Even simple appliances with lithium batteries are known to explode spontaneously. Many of us in our community have decreased mobility which may hinder us from leaving our homes in a timely manner. So I ask that it not be developed on Kilkenny. Honestly, I donâ€™t want it built anywhere in Solano county after the wildfires we had in 2020. Canâ€™t risk losing more homes or lives to a lithium fire. Thank you for your time Ms. Lee Pono
