RE: CEC Staff Workshop on the Draft Renewables Portfolio Standard Tenth Edition Guidebook

Pacific Gas and Electric Company (PG&E) appreciates the opportunity to comment on the California Energy Commission's (CEC) draft Renewables Portfolio Standard Guidebook, Tenth Edition (RPS Guidebook), presented at the CEC's workshop held on October 6, 2025.

PG&E supports adoption of the Tenth Edition of the RPS Guidebook

PG&E reviewed the proposed updates to the RPS Guidebook and participated in the CEC's workshop. PG&E commends CEC staff for the improvements, clarifications, and updates made to the RPS Guidebook, reflecting RPS legislation changes along with clarifications to existing processes such as the treatment of energy storage, location eligibility and biomethane delivery requirements, and verification and compliance. PG&E supports the proposed updates to the RPS Guidebook and its adoption by the CEC.

PG&E appreciates the opportunity to respond to this request for public comments and looks forward to continuing to collaborate with the CEC on renewable energy program matters. Please reach out to me if you have any questions.

Sincerely,

Josh Harmon
