## **No Battery Storage**

I oppose the battery storage project as I am concerned of how close it is to residents and farms. If it takes having to go around local ordinance in order to try to get such a project to pass then it certainly does not pass the sniff test for me. If there is nothing to hide and no reason for us citizens to be concerned then don't make it seem like there is. I firmly believe there are reasons why this project didn't get authorization locally. It is unfair that others who won't have to live even close to the area or be concerned with anything going wrong can be the ones to make the call on whether or not to allow it to be done just because it benefits their pockets. We need to protect our town and focus on the safety and well being of the community first.
