## **Lithium Battery Storage Facility**

I am writing because I do not want a lithium battery storage facility in my neighborhood. This type of facility is more appropriate for a commercial area and not a neighborhood. The peace our area offers is one of the reasons we moved here. Facility cooling systems may do away with that. The aesthetic, will also impact our property values. The purchase of a home is one of the biggest life event you experience. Building the facility in our neighborhood will take away from that and hurt the investments we've made.

Please consider building in a more appropriate location, one that makes sense. Thank you for your consideration.
