Lithium batteries

I'm tired of the government poison agenda. These lithium batteries are highly toxic and there is lithium in our smart meters too! Get an analog meter! No smart cities, smart meters, smart phones, smart water ect. I oppose this company to be installed in our home town! For the people by the people! It's time to stand up to our government officals and fight back. If they approve this then it shows they don't care for our wellbeing!
