DATA REQUESTS – SET NO. 3 – LAND USE

BOTTLE ROCK GEOTHERMAL POWER PLANT (79-AFC-04C)

LAND USE

Author: Jeanine Hinde

BACKGROUND: Section “2 Project Description” of the PTA describes the proposed modifications and new structures that would be installed on the site. Under subsection “2.2.3 Proposed Mayacma Project Facilities,” dimensions are given for the ORC units and the sound-attenuating structures to partially cover those units. The project description also lists the new steam vent stack and associated equipment, to be sized according to the revised steam flow rate (subsection “2.2.1 Process Overview”).

DATA REQUEST

1. Please provide the approximate dimensions for the steam vent stack and other proposed, standing structures, except for the ORC units.
