Docket Number: 24-OPT-05

Please don't put us at risk

When, not if, there's a fire, how will our water, agriculture and air quality be affected? How many of us will develop health issues due to the toxic fumes and smoke? No one knows, so why should we risk Solano residents for the profits of out-of-area investors? If the CEOs and politicians who back this would build homes and move their families along the 300' "buffer zone" I might feel less uneasy...but we all know they would never risk their lives or families.
