RED Flag Warnings, PSPS and 1,150 MW of LFP BESS

Today is October 27th.
There is a red flag warning for the next two days for our community of Acton, which is a designated Very High Fire Hazard Severity Zone. We have been given a SCE Public Safety Power Shutoff warning for tomorrow October 28 through October 29th. Our community has more PSPS events than most communities, so many so that the University of Oregon Research team studying PSPS traveled to Acton to do a community survey.
Our community is not a safe location for 1,150MW of LFP batteries!
We do not need a repeat of the Palisades and Eaton fires!
