## **Opposition to Corby Lithium Battery Project Near Residential Area**

Dear California Energy Commission,

I am writing as a Vacaville resident to express my opposition to the proposed Corby Battery Energy Storage Project near our homes. My husband is 100% disabled and uses a wheelchair, and I am deeply concerned about the potential health and safety risks this facility could pose to vulnerable residents like him.

Placing a large-scale lithium battery project so close to a residential area raises serious concerns about fire hazards, toxic exposure, and emergency evacuation safety for those with mobility challenges. I respectfully urge you to consider alternative locations that would not endanger nearby families or those with disabilities.

Thank you for your attention to this matter and for giving the community a chance to be heard.

Sincerely,  
Kathy Pettengill  
Vacaville, CA
