## **Totally Against**

Home values will decrease.

Huge increase in fire risk- these storage facilities catch on fire often.

WHEN a fire breaks out, they don't extinguish it, they just let it burn, emitting toxic fumes and putting our health at risk.

WHEN a fire breaks out, it would close I-80.

It is a windy area. This is not a safe place!

Post fire- contaminated water, land and uncertainty for residents.

Destruction of agriculture land

Put it in an industrial area!!

Vacaville doesn't benefit from this!
