Oppose Lithium Storage facility

I am deeply opposed to allowing a Lithium storage facility on Burnes Rd in Vacaville. I live very close to that intersection and already suffer from asthma. Taking a large risk and building a storage facility so close to family homes in Vacaville seems like a really bad idea. Lithium batteries have already proven to be somewhat unstable and should they catch fire, are very hard to extinguish. There must be better locations for such a facility. Common sense tells all of us, we can do better than that.
