Pre-application Workshop for New Funding Solicitation

First, I'd like to thank CEC staff for their dedicated work toward finding a funding balance for EV chargers and hydrogen refueling stations, especially given the often vocal and disparate viewpoints expressed.

As I understand it, in the next few weeks a \$40 M solicitation will open. This solicitation will use previously unallocated hydrogen funds and will support LD/MD/HD hydrogen stations.

I would like to ask that a pre-application workshop be set up to carefully consider stakeholder input. Further, as a part of this GFO, it would be important to establish policies that will ensure that available funds are utilized to the maximum extent possible for the deployment - and ongoing operation - of LD, MD and HD hydrogen refueling infrastructure.

Thank you, Greg Cane, President CHCOA
