Hydrogen refueling for personal car owners

There is a meeting to discuss allocation of financial resources for the refueling of Hydrogen fuel cell vehicles coming up shortly. As a Mirai owner, the ability to refuel and reasonable prices is a priority. Making funds available to improve the refueling infrastructure is very important to the advancement of Hydrogen as an alternative to gasoline and diesel fuel cars and trucks. I hope that these funds can be used as the Hydrogen Highway that Gov. Schwarzenegger envisioned a possibility. Thank you for your time.
