Not all are opposed

As a Current Acton resident Im looking forward to the Bess project and benefits it has moving forward. It is crucial we continue building Bess facilities to help support Energy reliability. This is just my opinion and no offense to the Acton residents who oppose the project, but the same ones who are against this did the same thing against a restaurant that will help support local teens getting their first job and providing a service to the town which creates growth. The pros FAR out weigh the cons, continue the course for the future of Grid support.
