Please vote no corby project in vacaville

Hi. My name is Thanh. I live in vacaville within the 4 mile zone. I have 2 points to make. 1) If the fire from the battery cannot be extinguished without causing an environment disaster, then don't build it at all. 2) vacaville residents are telling you (California Energy Commission) to not allow corby to build it here for many strong reasons. Please listen to us. You, California Energy Commission, have the power to prevent another moss landing disaster. You may not live here, but we do. Please do not cave to pressure from this or any other company that wants to use this bad technology here. Vote no. Vacaville supports a no vote for Corby. Thank you.
