## **NO Toxins in Vacaville or Solano County**

I moved my family here 32 years ago to live in a safe clean bedroom community. Slowly in recent years the City of San Francisco and their Liberal Agenda seem to be encroaching into our community, like it belongs to them. It belongs to those who live here. Lithium Batteries are toxic, fire hazards and not safe for any community but if San Francisco wants the plants, then they build them in San Francisco it is closer to the market that desires these batteries. It will be most cost effective if they are built in San Francisco neighborhoods.
