No to Corby Bess and future projects in Solano County

No to Corby Bess and future battery storage system projects in Solano County. As a family we chose Vacaville to be our home. Like many other home owners we invested in our forever home. This project is too close to thousands of homes, hospitals, businesses big and small, and schools. We take pride in living in safety here in Vacaville. Building this battery storage unit will demolish and destroy the safety of living here in Vacaville. The Moss landing disaster is a great example of what will happen to our beautiful city. The uncertainty and of human, animal, and land health is of great concern.
