

**DOCKETED**

<b>Docket Number:</b>	24-OPT-05
<b>Project Title:</b>	Corby Battery Energy Storage System Project
<b>TN #:</b>	267124
<b>Document Title:</b>	Corby Letters of Support
<b>Description:</b>	Multiple letters from the public expressing support for the Corby Project.
<b>Filer:</b>	Christine Leone
<b>Organization:</b>	NextEra Energy
<b>Submitter Role:</b>	Applicant Representative
<b>Submission Date:</b>	11/11/2025 10:45:03 AM
<b>Docketed Date:</b>	11/11/2025

November 11, 2025

Subject: **Acquisition of Letters of Support for Corby Energy Storage, LLC**

**To Whom It May Concern:**

We respectfully submit this statement to describe the process by which these letters of support for the Corby Energy Storage LLC were obtained.

To ensure transparency and community engagement, we implemented a structured outreach campaign focused on the benefits of battery energy storage. Our messaging highlighted key advantages, including:

- **Economic impact:** Job creation, local investment and long-term cost savings.
- **Energy resiliency:** Enhanced grid reliability and improved energy delivery during peak demand or outages.

This campaign utilized targeted advertising that directed interested parties to a dedicated landing page. The landing page provided:

- **Educational content:** Clear explanations of project benefits and technology.
- **Personalization options:** Visitors could review a pre-drafted support letter and, if they chose, personalize it before submission.

This approach ensured that all letters were voluntary, informed and reflective of individual perspectives. No incentives were offered, and participation was entirely at the discretion of the signatory.

We trust this explanation demonstrates our commitment to ethical engagement and accurate representation of community support.

Please let us know if additional documentation or clarification is required.

Thank you,

Corby Energy Storage, LLC

a NextEra Energy Resources, LLC company

Dear decision maker,

I urge you to bring greater grid reliability and economic development to our area by supporting new battery energy storage projects in Solano County.

The Corby project can provide a unique opportunity for our community to gain approximately \$70 million in additional property tax revenue over the life of the project. This economic boost can help maintain public schools and roads, pay for special projects, and allow our communities and local businesses to thrive.

Encouraging battery energy storage projects will help deliver consistent energy whenever the demand peaks. With your support, the Corby project will help drive economic progress and environmental sustainability in our community.

Thank you for your consideration.

Sincerely,

Sangthong Sikhao

157 B Street Apt D 306

Merced, CA 95341

Dear decision maker,

I want to emphasize the significance of supporting new battery energy storage projects like the Corby project in Solano County, as they hold immense potential for the future economic development of our communities.

Battery storage projects give us an opportunity to generate millions of dollars in additional property tax revenue over the life of the project. This revenue can play a vital role in supporting our public schools, maintaining our roads, funding special projects, and fostering the growth and vitality of our communities and local businesses.

By embracing battery energy storage, we can shape a brighter future for our communities' economic development and environmental well-being.

Thank you for your thoughtful consideration.

Sincerely,

Fairy French

800 Camellia Way,

Vacaville, CA 95688

[Fairyfrench74@gmail.com](mailto:Fairyfrench74@gmail.com)

Dear decision maker,

Battery energy storage projects in Solano County are crucial for the future economic development in our local area.

By supporting the Corby project, we can benefit from a unique opportunity for our communities to receive approximately \$70 million in additional property tax revenue over the life of the project. This revenue can be utilized to address the needs and priorities set by our local government, such as improving our public schools, maintaining our roads, undertaking special projects, and fostering the growth of our communities and local businesses.

Supporting battery storage projects improves the versatility and resiliency of the grid, ensuring power for when it's needed most.

Together, we can make a positive impact on our communities' growth and environmental well-being.

Thank you for your consideration.

Sincerely,

Agnes Castillo

Dear decision maker,

I strongly advocate the Corby project, which can significantly benefit the Solano County economy. This project is crucial for our community's future.

Over the course of its lifespan, the Corby project could provide approximately \$70 million in additional tax revenue for our county. These funds could go toward addressing our local community's needs and priorities, including supporting public schools with advanced resources, programs, and facilities for students as well as growing local businesses.

Your support of the Corby project helps pave the way for supporting our students and our county's economic growth.

Thank you for considering my perspective, and I hope you will support this important project.

By supporting the Corby project, we can benefit from a unique opportunity for our communities to receive approximately \$70 million in additional property tax revenue over the life of the project. This revenue can be utilized to address the needs and priorities set by our local government, such as improving our public schools, maintaining our roads, undertaking special projects, and fostering the growth of our communities and local businesses.

Supporting battery storage projects improves the versatility and resiliency of the grid, ensuring power for when it's needed most.

Together, we can make a positive impact on our communities' growth and environmental well-being.

Thank you for your consideration.

Sincerely,

Mr. Frederick Allen

Dear decision maker,

I urge you to bring greater grid reliability and economic development to our area by supporting new battery energy storage projects in Solano County.

The Corby project can provide a unique opportunity for our community to gain approximately \$70 million in additional property tax revenue over the life of the project. This economic boost can help maintain public schools and roads, pay for special projects, and allow our communities and local businesses to thrive.

Encouraging battery energy storage projects will help deliver consistent energy whenever the demand peaks. With your support, the Corby project will help drive economic progress and environmental sustainability in our community.

Thank you for your consideration.

Sincerely,

Landen Hooker

Dear decision maker,

I want to emphasize the significance of supporting new battery energy storage projects like the Corby project in Solano County, as they hold immense potential for the future economic development of our communities.

Battery storage projects give us an opportunity to generate millions of dollars in additional property tax revenue over the life of the project. This revenue can play a vital role in supporting our public schools, maintaining our roads, funding special projects, and fostering the growth and vitality of our communities and local businesses.

By embracing battery energy storage, we can shape a brighter future for our communities' economic development and environmental well-being.

Thank you for your thoughtful consideration.
