Good morning, commissioners.

I am writing this email in support of the proposed AVAIO Pittsburg Generating Facility and the Pittsburg Data Hub. This project has the potential to establish East Contra Costa County as a tech hub for future expansion of green energy technology in the long run. In the short term it will create construction jobs for local residents and provide opportunities for Pittsburg youth to enter into construction careers with middle class wages and benefits and no student debt. Please approve this project to move forward and help bring East Contra Costa into the 21<sup>st</sup> century.

Kind Regards

Jason Lindsey
