Remote participation instructions are below, after the agenda items.

Pursuant to Government Code section 11128.5, the California Energy Commission (CEC) will convene an adjourned meeting to hear the items identified below. The items were properly noticed for the November 12, 2025, Business Meeting, and will be considered by the CEC at this adjourned meeting on the date, time, and location noticed above in this agenda.

The CEC aims to begin the business meeting promptly at the start time, and the end time is an estimate based on the agenda. The meeting may end sooner or later than the time indicated depending on various factors. Commissioners may attend remotely in accordance with Government Code section 11123.2(j). Agenda items may be taken out of order as needed.

Pursuant to the California Code of Regulations (CCR), title 20, section 1104(e), any person may make an oral comment on any agenda item. To ensure the orderly conduct of business, such comments will be limited to two minutes or less per person.

Please visit the [CEC Business Meeting web page](https://www.energy.ca.gov/proceedings/business-meetings) for more information and backup materials for all voting items at <https://www.energy.ca.gov/proceedings/business-meetings>.

THE CEC WILL CONSIDER AND MAY TAKE ACTION ON THE FOLLOWING:

1. Public Comment.

Any person wishing to comment on information items (non-voting items) shall provide comments during this period.

2. Magnolia Power Project (MPP) Petition to Amend (01-AFC-06C) (Adjourned from November 12, 2025, Business Meeting Agenda).

Proposed order approving Southern California Public Power Authority's petition to amend the CEC's certification of the MPP by modifying and adding new Air Quality (AQ) Conditions of Certification (COC) and adopting staff's recommended findings that the project changes will not result in significant air quality, public health, or greenhouse gas impacts on the environment. The CEC staff assessment analyzed proposed efficiency upgrades to the combustion turbine generator equipment that could provide up to a 54 megawatt (MW) increase in electricity generation during high ambient temperature conditions and modify emission limits. It concluded that, with the addition of new and amended AQ COCs, including the South Coast Air Quality Management District permit changes, the effect of the project changes on the environment would be less than significant. Contact: Ashley Gutierrez (Staff Presentation: 5 minutes)

3. City of Burbank (Adjourned from November 12, 2025, Business Meeting Agenda).

Proposed resolutions adopting California Environmental Quality Act (CEQA) findings and approving two grant agreements, DBA-25-003 and DBA-25-004, with the City of Burbank. (Distributed Electricity Backup Assets (DEBA) Funding) Contact: Pamela Doughman (Staff Presentation: 5 minutes)
