## **NextEra**

Dear decision maker,

I'm genuinely curious if all the NextEra support letters be considered and hold weight against decisions? It's my understanding that only 2 out of the 71 support letters submitted for their Vacaville project were from actual residents living in Vacaville/Solano County. I strongly believe that only those who will be most impacted (Solano county residents) by a fire and the subsequent fallout of same in the facility (historically highly likely) should have any weight in this conversation. Anything beyond that appears fraudulent to me. If it were otherwise, I'm guessing I could submit a letter of support for a company that wanted to install an nuclear waste facility in Marin County?

Thank you for your time and for all you do on behalf of Solano County and it's current and future residents.

Best,

Renee Jardin
