RE: Orange County Power Authority Confidentiality Declaration for
Information Contained in its IEPR Electricity Resource Planning Forms

Orange County Power Authority (OCPA) hereby requests confidentiality for information contained in its 2025 IEPR Electricity Resource Plan forms under Section 2505(b) as a local agency which possesses information pertinent to the responsibilities of the Commission that has been designated by OCPA as confidential under the Public Records Act. Additionally, Government Code Section 7922.000 permits protection of information where the public interest in nondisclosure clearly outweighs the public interest in disclosure. The information in OCPA's ERP Forms is highly commercially sensitive, not publicly known, and if revealed could cause significant harm to load-serving entities, like OCPA.

OCPA requests confidentiality for the following information.

1. Form S-1_REQUIREMENT: Capacity/Energy Requirement, columns H – R, lines 1-29
2. Form S-2_SUPPLY: Capacity/Energy Supply Resources, columns P – AA, AC – AN, lines 32-160
3. Form S-2A_Addendum Monthly: Addendum Monthly Capacity and Energy Data, columns F – DV, lines 10-39
4. Form S-5_Table: Bilateral Contracts Table, column I, lines 10 – 128

OCPA does not publicly disclose its bilateral contract prices, actual costs, projected costs, or projected revenues. OCPA considers such information market sensitive, as public disclosure of this information could compromise OCPA's competitive position in the electricity market.

OCPA requests that the Commission keep OCPA's information confidential and protected from public disclosure for a period of three years, until November 14, 2028. This length of time is needed to ensure that OCPA's market-sensitive load forecast and supply information remains secure from market participants that could make competitive use of this information to the detriment of OCPA, OCPA's ratepayers, and the electricity market as a whole.

Irvine CA, 92619-4283

The data in question can be disclosed if it is aggregated with other LSE load forecast and supply information at a level that does not permit OCPA's confidential information to be derived from the aggregated data.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge. I also certify that as a community choice aggregator, OCPA is a local government agency and I am authorized to make the application and certification on behalf of Orange County Power Authority.

Joseph M. Mosca
Chief Executive Officer
