RESOLUTION NO: 25-1112-3a

STATE OF CALIFORNIA

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

RESOLUTION: Anthro Energy, Inc.

WHEREAS, on April 28, 2023, the State Energy Resources Conservation and Development Commission (CEC) and CALSTART, Inc. (CALSTART) entered into Agreement Number ZVI-22-035; and

WHEREAS, pursuant to ZVI-22-035, CALSTART administers the PowerForward Zero-Emission Vehicle Battery Manufacturing Grant Program (PowerForward) to solicit, select, and fund projects that will promote in-state battery manufacturing for zero-emission vehicles and related infrastructure; and

WHEREAS, on April 5, 2024, pursuant to ZVI-22-035, CALSTART issued the PowerForward grant solicitation, a competitive grant funding opportunity; and

WHEREAS, on August 13, 2025, CALSTART issued a Notice of Proposed Awards for PowerForward, which includes a proposed \$5,487,364 grant to Anthro Energy, Inc. (Anthro) for the California Production of Advanced Batteries for Zero Emission Vehicles project (Project), a project to design and establish California-based production of advanced injectable phase change electrolytes and cell assembly in Alameda, CA; and

WHEREAS, the City of Alameda (City) is the lead agency under the California Environmental Quality Act (CEQA) for the Project; and

WHEREAS, the City reviewed the proposed Project and determined that it is not a project under CEQA pursuant to California Public Resources Code section 21065 and CEQA Guidelines section 15378(a) because the Project would not result in a direct or reasonably foreseeable indirect physical change in the environment; and

WHEREAS, pursuant to ZVI-22-035, and as responsible agency under CEQA, CEC must make CEQA findings at a CEC Business Meeting before CALSTART may execute a grant agreement with Anthro for the Project; and

WHEREAS, CEC staff has reviewed and considered the City's CEQA findings and other related CEQA documentation and has no information indicating the documentation is inadequate.

THEREFORE, BE IT RESOLVED, that the CEC adopts CEC staff's CEQA findings contained in the Agreement Request Form; and

FURTHER BE IT RESOLVED, that CALSTART may execute a grant agreement with Anthro pursuant to the requirements of ZVI-22-035.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

RESOLUTION: LiCAP Technologies, Inc.

WHEREAS, on April 28, 2023, the State Energy Resources Conservation and Development Commission (CEC) and CALSTART, Inc. (CALSTART) entered into Agreement Number ZVI-22-035; and

WHEREAS, pursuant to ZVI-22-035, CALSTART administers the PowerForward Zero-Emission Vehicle Battery Manufacturing Grant Program (PowerForward) to solicit, select, and fund projects that will promote in-state battery manufacturing for zero-emission vehicles and related infrastructure; and

WHEREAS, on April 5, 2024, pursuant to ZVI-22-035, CALSTART issued the PowerForward grant solicitation, a competitive grant funding opportunity; and

WHEREAS, on August 13, 2025, CALSTART issued a Notice of Proposed Awards for PowerForward, which includes a proposed \$11,283,312 grant to LiCAP Technologies, Inc. (LiCAP) for the California Manufacturing for Activated Dry Electrode project (Project), a project to build an Activated Dry Electrode manufacturing line; and

WHEREAS, the City of Sacramento (City) is the lead agency under the California Environmental Quality Act (CEQA) for the Project; and

WHEREAS, the City reviewed the proposed Project and determined that it is exempt from pursuant to CEQA Guidelines section 15268, not subject to CEQA pursuant to CEQA Guidelines section 15060 (c)(1), and if planning entitlements are required the proposed Project would then be exempt pursuant to CEQA Guidelines section 15301; and

WHEREAS, pursuant to ZVI-22-035, and as responsible agency under CEQA, CEC must make CEQA findings at a CEC Business Meeting before CALSTART may execute a grant agreement with LiCAP for the Project; and

WHEREAS, CEC staff has reviewed and considered the City's CEQA findings and other related CEQA documentation and has no information indicating the documentation is inadequate.

THEREFORE, BE IT RESOLVED, that the CEC adopts CEC staff's CEQA findings contained in the Agreement Request Form; and

FURTHER BE IT RESOLVED, that CALSTART may execute a grant agreement with LiCAP pursuant to the requirements of ZVI-22-035.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

IN THE MATTER OF:

***Refrigeration Service Engineers
Society Proposed Acceptance Test
Technician Certification Provider
2025 Update Report for the 2025
Building Energy Efficiency Standards***

Docket No.: 13-ATTCP-01

**ORDER TO APPROVE THE
REFRIGERATION SERVICE
ENGINEERS SOCIETY PROPOSED
ACCEPTANCE TEST TECHNICIAN
CERTIFICATION PROVIDER 2025
UPDATE REPORT FOR THE 2025
BUILDING ENERGY EFFICIENCY
STANDARDS**

I. BACKGROUND

The California Energy Commission (CEC) approves Acceptance Test Technician Certification Providers (ATTCPs) that train, certify, and oversee installation technicians performing acceptance tests for nonresidential and multifamily buildings. Acceptance testing ensures that installed equipment, controls, and systems operate as required by the California Building Energy Efficiency Standards (Energy Code).

Section 10-103.2(d)2 of the Energy Code (codified in Title 24, Part 1, of the California Code of Regulations), requires ATTCPs to submit an update report to address changes to the Energy Code; and update reports are subject to the application review and determination process specified in section 10-103.2(e) of the 2025 Energy Code.

- II.** Refrigeration Service Engineers Society (RSES), an approved ATTCP, has applied to amend its approved application to comply with the 2025 Energy Code.

EXECUTIVE DIRECTOR'S RECOMMENDATION

RSES submitted an update report to amend its approved application on April 2, 2025, which proposes to modify its application in compliance with the 2025 Energy Code (RSES 2025 Update Report). RSES submitted subsequent application materials, with the final filing, including revisions, received on April 29, 2025, and August 27, 2025.

As specified in section 10-103.2(e) of the 2025 Energy Code, staff reviewed and validated all information received in the update report and determined that RSES meets the criteria and procedures in section 10-103.2(c) for providing acceptance testing certification services with exception to sections 10-103.2(c)3H and 10-103.2(c)3I. The

executive director concurred with these conclusions and signed a recommendation to approve the RSES 2025 Update Report.

Pursuant to section 10-103.2(e), the Executive Director will post the Executive Director recommendation and staff evaluation to docket number 13-ATTCP-01 (<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=13-ATTCP-01>), providing an opportunity for public comment, and all comments will be considered by the November 12, 2025, business meeting.

RSES has not completed the database system for tracking completed acceptance tests and compliance forms as required by sections 10-103.2(c)3H and 10-103.2(c)3I. Staff proposes a Condition of Approval (COA) to allow the CEC to approve the RSES 2025 Update Report. Failure to demonstrate that the database meets the requirements specified in COA to the executive director's satisfaction shall result in automatic termination of the ATTCP's approval of the RSES Update Report.

Failure to comply with any other requirement of COA-2025-1 will result in the Executive Director rescinding the ATTCP approval of the RSES 2025 Update Report.

III. ENERGY COMMISSION FINDINGS

1. Section 10-103.2(d)2 of the 2025 Energy Code, requires acceptance test technician certification providers to submit an update report to address changes to the Energy Code.
2. Update reports are subject to the Application Review and Determination process specified in section 10-103.2(e) of the 2025 Energy Code.
3. RSES submitted an update report to amend its approved application on April 2, 2025, which proposes to modify its application in compliance with the 2025 Energy Code.
4. The Executive Director evaluated RSES' update report and observed that RSES has met the requirements in section 10-103.2(d)2 of the 2025 Energy Code with the consideration of the proposed condition of approval (COA-2025-1)
5. On October 31, 2025, the Executive Director provided a copy of the staff evaluation to interested persons and provided an opportunity for public comment.
6. The Executive Director provided a written recommendation describing the review and validation of the RSES update report by CEC staff and recommended approval of the RSES update report.
7. The Executive Director's written recommendation was made available for public comment on October 31, 2025.

8. The CEC has considered the Executive Director's recommendation, all written comments submitted, and oral comments made at today's business meeting on this matter.
9. The CEC has considered and agrees with staff's CEQA finding. The proposed action is exempt from CEQA.
10. Therefore, the CEC finds that the update report proposed by RSES meets the requirements in section 10-103.2(d)2 of the 2025 Energy Code and confirms the Executive Director's determinations, adopts their recommendation, and approves the RSES proposed update report subject to the condition that RSES complete the database system for tracking completed acceptance tests, as required by sections 10-103.2(c)3H and 10-103.2(c)3I by the dates on the recommended COA without significant disruption to industry. Once the Executive Director is satisfied with each stage, CEC staff will provide RSES with a written acknowledgement of compliance. Should RSES fail to comply with any requirement of COA-2025-1, its Update Report shall automatically terminate.

IV. CONCLUSION AND ORDER

The CEC hereby approves the RSES 2025 Update Report for the 2025 Energy Code and adopts the staff recommendation that this action is exempt from CEQA. Approval of the update report is as subject to the COA as set forth in the Executive Director's recommendation.

IT IS SO ORDERED.

Docket No.: 13-ATTCP-01

***National Energy Management
Institute Committee (NEMIC)
Proposed Acceptance Test
Technician Certification Provider
2025 Update Report for the 2025
Building Energy Efficiency
Standards***

**ORDER TO APPROVE THE
NATIONAL ENERGY MANAGEMENT
INSTITUTE COMMITTEE PROPOSED
ACCEPTANCE TEST TECHNICIAN
CERTIFICATION PROVIDER 2025
UPDATE REPORT FOR THE 2025
BUILDING ENERGY EFFICIENCY
STANDARDS**

I. BACKGROUND

The California Energy Commission (CEC) approves Acceptance Test Technician Certification Providers (ATTCPs) that train, certify, and oversee installation technicians performing acceptance tests for nonresidential and multifamily buildings. Acceptance testing ensures that installed equipment, controls, and systems operate as required by the California Building Energy Efficiency Standards (Energy Code).

Section 10-103.2(d)2 of the Energy Code (codified in Title 24, Part 1, of the California Code of Regulations), requires ATTCPs to submit an update report to address changes to the Energy Code; and update reports are subject to the application review and determination process specified in section 10-103.2(e) of the 2025 Energy Code.

National Energy Management Institute Committee (NEMIC), an approved ATTCP, has applied to amend its approved application to comply with the 2025 Energy Code.

II. EXECUTIVE DIRECTOR'S RECOMMENDATION

NEMIC submitted an update report to amend its approved application on July 1, 2025, which proposes to modify its application in compliance with the 2025 Energy Code (NEMIC 2025 Update Report). NEMIC submitted subsequent application materials, with the final filing, including revisions, received on July 1, 2025, September 2, 2025, and October 27, 2025.

As specified in section 10-103.2(e) of the 2025 Energy Code, staff reviewed and validated all information received in the update report and determined that NEMIC meets the criteria and procedures in section 10-103.2(c) for providing acceptance testing certification services. The Executive Director concurred with these conclusions and signed a recommendation to approve the NEMIC 2025 Update Report.

Pursuant to section 10-103.2(e), the Executive Director will post the Executive Director recommendation and staff evaluation to docket number 13-ATTCP-01 (<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=13-ATTCP-01>), providing an opportunity for public comment, and all comments will be considered by the November 12, 2025, business meeting.

III. ENERGY COMMISSION FINDINGS

1. Section 10-103.2(d)2 of the 2025 Energy Code requires acceptance test technician certification providers to submit an update report to address changes to the Energy Code.
2. Update reports are subject to the Application Review and Determination process specified in section 10-103.2(e) of the 2025 Energy Code.
3. NEMIC submitted an update report to amend its approved application on July 1, 2025, which proposes to modify its application in compliance with the 2025 Energy Code.
4. The Executive Director evaluated NEMIC's update report and observed that NEMIC has met the requirements in section 10-103.2(d)2 of the 2025 Energy Code.
5. On October 31, 2025, the Executive Director provided a copy of the staff evaluation to interested persons and provided an opportunity for public comment.
6. The Executive Director provided a written recommendation describing the review and validation of the NEMIC update report by CEC staff and recommended approval of the NEMIC update report.
7. The Executive Director's written recommendation was made available for public comment on October 31, 2025.
8. The CEC has considered the Executive Director's recommendation, all written comments submitted, oral comments made at today's business meeting on this matter.
9. The CEC has considered and agrees with staff's CEQA findings. The proposed action is exempt from CEQA.

10. Therefore, the CEC finds that the update report proposed by NEMIC meets the requirements in section 10-103.2(d)2 of the 2025 Energy Code and confirms the executive director's determinations, adopts their recommendation, and approves the NEMIC proposed update report.

IV. CONCLUSION AND ORDER

The CEC hereby approves the NEMIC 2025 Update Report for the 2025 Energy Code, and adopts staff's recommendation that this action is exempt from CEQA. Approval of the Update Report is as set forth in the Executive Director's recommendation.

IT IS SO ORDERED.

***California State Pipe Trades Council
(CSPTC) Proposed Acceptance Test
Technician Certification Provider
2025 Update Report for the 2025
Building Energy Efficiency Standards***

Docket No.: 13-ATTCP-01

**ORDER TO APPROVE THE
CALIFORNIA STATE PIPE TRADES
COUNCIL PROPOSED ACCEPTANCE
TEST TECHNICIAN CERTIFICATION
PROVIDER 2025 UPDATE REPORT
FOR THE 2025 BUILDING ENERGY
EFFICIENCY STANDARDS**

I. BACKGROUND

The California Energy Commission (CEC) approves Acceptance Test Technician Certification Providers (ATTCPs) that train, certify, and oversee installation technicians performing acceptance tests for nonresidential and multifamily buildings. Acceptance testing ensures that installed equipment, controls, and systems operate as required by the California Building Energy Efficiency Standards (Energy Code).

Section 10-103.2(d)2 of the Energy Code (codified in Title 24, Part 1, of the California Code of Regulations), requires ATTCPs to submit an update report to address changes to the Energy Code; and update reports are subject to the application review and determination process specified in section 10-103.2(e) of the 2025 Energy Code.

California State Pipe Trades Council (CSPTC), an approved ATTCP, has applied to amend its approved application to comply with the 2025 Energy Code.

II. EXECUTIVE DIRECTOR'S RECOMMENDATION

CSPTC submitted an update report to amend its approved application on July 1, 2025, which proposes to modify its application in compliance with the 2025 Energy Code (CSPTC 2025 Update Report). CSPTC submitted subsequent application materials, with the final filing, including revisions, received on July 1, 2025, August 29, 2025, October 17, 2025, October 23, 2025 and October 24, 2025.

As specified in section 10-103.2(e) of the 2025 Energy Code, staff reviewed and validated all information received in the update report and determined that CSPTC

meets the criteria and procedures in section 10-103.2(c) for providing acceptance testing certification services, with the exception of sections 10-103.2(c)3H and 10-103.2(c)3I. The Executive Director concurred with these conclusions and signed a recommendation to approve the CSPTC 2025 Update Report.

Pursuant to section 10-103.2(e), the Executive Director will post the Executive Director recommendation and staff evaluation to docket number 13-ATTCP-01 (<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=13-ATTCP-01>), and providing an opportunity for public comment. All comments will be considered by the November 12, 2025, business meeting.

CSPTC has not completed the database system for tracking completed acceptance tests and compliance forms as required by sections 10-103.2(c)3H and 10-103.2(c)3I. Staff proposes a Condition of Approval (COA) to allow the CEC to approve the CSPTC 2025 Update Report. Failure to demonstrate that the database meets the requirements specified in COA to the Executive Director's satisfaction, shall result in automatic termination of the ATTCP's approval of the CSPTC Update Report.

Failure to comply with any other requirement of COA-2025-2 will result in the Executive Director rescinding the ATTCP approval of the CSPTC 2025 Update Report.

III. ENERGY COMMISSION FINDINGS

1. Section 10-103.2(d)2 of the 2025 Energy Code, requires acceptance test technician certification providers to submit an update report to address changes to the Energy Code.
2. Update reports are subject to the Application Review and Determination process specified in section 10-103.2(e) of the 2025 Energy Code.
3. CSPTC submitted an update report to amend its approved application on July 1, 2025, which proposes to modify its application in compliance with the 2025 Energy Code.
4. The Executive Director evaluated CSPTC's update report and observed that CSPTC has met the requirements in section 10-103.2(d)2 of the 2025 Energy Code with the consideration of the proposed condition of approval (COA-2025-2).
5. On October 31, 2025, the Executive Director provided a copy of the staff evaluation to interested persons and provided an opportunity for public comment.
6. The Executive Director provided a written recommendation describing the review and validation of the CSPTC update report by CEC staff and recommended approval of the CSPTC update report.
7. The Executive Director's written recommendation was made available for public comment on October 31, 2025.

8. The CEC has considered the Executive Director's recommendation, all written comments submitted, and oral comments made at today's business meeting on this matter.
9. The CEC has considered and agrees with staff's CEQA findings. The proposed action is exempt from CEQA.
10. Therefore, the CEC finds that the update report proposed by CSPTC meets the requirements in section 10-103.2(d)2 of the 2025 Energy Code and confirms the Executive Director's determinations, adopts their recommendation, and approves the CSPTC proposed update report subject to the condition that CSPTC complete the database system for tracking completed acceptance tests, as required by sections 10-103.2(c)3H and 10-103.2(c)3I by the dates on the recommended COA without significant disruption to industry. Once the Executive Director is satisfied with each stage, CEC staff will provide CSPTC with a written acknowledgement of compliance. Should CSPTC fail to comply with any requirement of COA-2025-2, its Update Report shall automatically terminate.

IV. CONCLUSION AND ORDER

The CEC hereby approves the CSPTC 2025 Update Report for the 2025 Energy Code and adopts staff recommendation that this action is exempt from CEQA. Approval of the update report is subject to the COA as set forth in the Executive Director's recommendation.

IT IS SO ORDERED.

Docket No.: 13-ATTCP-01

*California Advanced Lighting Controls
Training Program (CALCTP) **Proposed**
Acceptance Test Technician
Certification Provider 2025 Update
Report for the 2025 Building Energy
Efficiency Standards*

**ORDER TO APPROVE THE CALCTP
PROPOSED ACCEPTANCE TEST
TECHNICIAN CERTIFICATION
PROVIDER 2025 UPDATE REPORT
FOR THE 2025 BUILDING ENERGY
EFFICIENCY STANDARDS**

I. BACKGROUND

The California Energy Commission (CEC) approves Acceptance Test Technician Certification Providers (ATTCPs) that train, certify, and oversee installation technicians performing acceptance tests for nonresidential and multifamily buildings. Acceptance testing ensures that installed equipment, controls, and systems operate as required by the California Building Energy Efficiency Standards (Energy Code).

Section 10-103.1(d)2 of the Energy Code (codified in Title 24, Part 1, of the California Code of Regulations), requires ATTCPs to submit an update report to address changes to the Energy Code; and update reports are subject to the application review and determination process specified in section 10-103.1(e) of the 2025 Energy Code.

California Advanced Lighting Controls Training Program (CALCTP), an approved ATTCP, has applied to amend its approved application to comply with the 2025 Energy Code.

II. EXECUTIVE DIRECTOR'S RECOMMENDATION

CALCTP submitted an update report to amend its approved application on June 18, 2025, which proposes to modify its application in compliance with the 2025 Energy Code (ATTCP 2025 Update Report). CALCTP submitted subsequent application materials, with the final filing, including revisions, received on September 18, 2025, and October 23, 2025.

As specified in section 10-103.1(e) of the 2025 Energy Code, staff reviewed and validated all information received in the update report and determined that the CALCTP meets the criteria and procedures in section 10-103.1(c) for providing acceptance testing certification services. The Executive Director concurred with these conclusions and signed a recommendation to approve the CALCTP 2025 Update Report.

Pursuant to section 10-103.1(e), the Executive Director will post the Executive Director recommendation and staff evaluation to docket number 13-ATTCP-01 (<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=13-ATTCP-01>), providing an opportunity for public comment, and all comments will be considered by the November 12, 2025, business meeting.

III. ENERGY COMMISSION FINDINGS

1. Section 10-103.1(d)2 of the 2025 Energy Code requires acceptance test technician certification providers to submit an update report to address changes to the Energy Code.
2. Update reports are subject to the Application Review and Determination process specified in section 10-103.1(e) of the 2025 Energy Code.
3. CALCTP submitted an update report to amend its approved application on June 18, 2025, September 18, 2025, and October 23, 2025, which proposes to modify its application in compliance with the 2025 Energy Code.
4. The Executive Director evaluated CALCTP's update report and observed that CALCTP has met the requirements in section 10-103.1(d)2 of the 2025 Energy Code.
5. On October 31, 2025, the Executive Director provided a copy of the staff evaluation to interested persons and provided an opportunity for public comment.
6. The Executive Director provided a written recommendation describing the review and validation of the CALCTP update report by CEC staff and recommended approval of the CALCTP update report.
7. The Executive Director's written recommendation was made available for public comment on October 31, 2025.
8. The CEC has considered the Executive Director's recommendation, all written comments submitted, oral comments made at today's business meeting on this matter.
9. The CEC has considered and agrees with staff's CEQA findings. The proposed action is exempt from CEQA.

10. Therefore, the CEC finds that the update report proposed by CALCTP meets the requirements in section 10-103.1(d)2 of the 2025 Energy Code and confirms the executive director's determinations, adopts their recommendation, and approves the CALCTP proposed update report.

IV. CONCLUSION AND ORDER

The CEC hereby approves the CALCTP 2025 Update Report for the 2025 Energy Code and adopts staff recommendation that this action is exempt from CEQA. Approval of the Update Report is as set forth in the Executive Director's recommendation.

IT IS SO ORDERED.

**STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION**

**RESOLUTION FINDING BUILDING ENERGY EFFICIENCY STANDARDS
CONTAINED IN THE CITY OF MENLO PARK ORDINANCE NO. 1124 SATISFY
STATUTORY REQUIREMENTS UNDER PUBLIC RESOURCES CODE SECTION
25402.1(h)(2)**

WHEREAS, The City of Menlo Park adopted Ordinance No. 1124, which establishes certain locally adopted building energy efficiency standards; and

WHEREAS, Public Resources Code section 25402(a) and (b) establishes that the California Energy Commission (CEC) shall prescribe, by regulation, statewide building energy efficiency and conservation standards; and

WHEREAS, Public Resources Code section 25402.1(h)(2) provides that nothing in Public Resources Code section 25402(a) or (b) shall prohibit the enforcement of city or county building energy efficiency standards if: (1) the city or county files the basis of its determination that the standards are cost-effective with the CEC and (2) the CEC finds that the locally adopted standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to Public Resources Code section 25402(a) and (b); and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106 establishes a process for local governmental agencies to submit an application to the CEC for a determination that locally adopted building energy efficiency standards meet the requirements set forth in Public Resources Code section 25402.1(h)(2); and

WHEREAS, The City of Menlo Park submitted an application to the CEC that included (1) the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1124 are cost-effective and (2) documentation that the locally adopted energy efficiency standards contained in Ordinance No. 1124 will require the diminution of energy consumption levels compared to the 2022 Building Energy Efficiency Standards (Energy Code), as required by California Code of Regulations, Title 24, Part 1, section 10-106, on August 29, 2025; and

WHEREAS, The City of Menlo Park adopted a determination at a public meeting on August 26, 2025, that the locally adopted energy efficiency standards contained in Ordinance No. 1124 are cost-effective; and

WHEREAS, CEC staff has analyzed whether the locally adopted energy efficiency standards contained in Ordinance No. 1124 will require the diminution of energy

consumption levels compared to the 2022 Energy Code, and determined that it will do so; and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106(b)(4) requires that the local governmental agency's application include any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act, Public Resources Code section 21000 et seq.; and

WHEREAS, The City of Menlo Park, in its application to the CEC, submitted the California Environmental Quality Act documentation required by California Code of Regulations, Title 24, Part 1, section 10-106(b)(4);

WHEREAS, CEC staff has considered the application of the California Environmental Quality Act (CEQA) to approval of the City of Menlo Park's application to enforce its local energy efficiency ordinance and finds that the approval is ministerial and does not meet the definition of a "project" under Cal. Code Regs., Title 14, section 15378(a), because the approval has no potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment, and even if the approval was to be considered a project, then the project would fall under the "common sense exemption" in California Code of Regulations, title 14, section 15061(b)(3) because it can be seen with certainty that there is no possibility the approval of Menlo Park's application would have a significant effect on the environment; ; and

WHEREAS, The locally adopted energy efficiency and conservation standards application filed by the City of Menlo Park satisfies the requirements of California Code of Regulations, Title 24, Part 1, section 10-106; and

THEREFORE, BE IT RESOLVED, that, pursuant to Public Resources Code section 25402.1(h)(2), the CEC finds the following: (1) The City of Menlo Park has filed the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1124 are cost-effective, and (2) Ordinance No. 1124 will require the diminution of energy consumption levels compared to the 2022 Energy Code; and

THEREFORE, BE IT FURTHER RESOLVED, that on the basis of the entire record before it, the CEC hereby adopts staff's finding that the approval of the City of Menlo Park's application to enforce its local energy efficiency ordinance is not subject to CEQA because the approval is ministerial and does not meet the definition of a "project" as it is not an activity that has the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment, and even if it was a project, it is exempt from CEQA pursuant to the Common-Sense Exemption (Cal. Code Regs., tit 14, 15061(b)(3)) because it can be seen with certainty that there is no possibility that the activity will have a significant effect on the environment; and

THEREFORE, BE IT FURTHER RESOLVED, that the CEC directs the Executive

Director to take all actions necessary to implement this Resolution.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a Resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

**RESOLUTION FINDING BUILDING ENERGY EFFICIENCY STANDARDS
CONTAINED IN THE CITY OF SUNNYVALE ORDINANCE NO. 3244-25 SATISFY
STATUTORY REQUIREMENTS UNDER PUBLIC RESOURCES CODE SECTION
25402.1(h)(2)**

WHEREAS, The City of Sunnyvale adopted Ordinance No. 3244-25, which establishes certain locally adopted building energy efficiency standards; and

WHEREAS, Public Resources Code section 25402(a) and (b) establishes that the California Energy Commission (CEC) shall prescribe, by regulation, statewide building energy efficiency and conservation standards; and

WHEREAS, Public Resources Code section 25402.1(h)(2) provides that nothing in Public Resources Code section 25402(a) or (b) shall prohibit the enforcement of city or county building energy efficiency standards if: (1) the city or county files the basis of its determination that the standards are cost-effective with the CEC and (2) the CEC finds that the locally adopted standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to Public Resources Code section 25402(a) and (b); and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106 establishes a process for local governmental agencies to submit an application to the CEC for a determination that locally adopted building energy efficiency standards meet the requirements set forth in Public Resources Code section 25402.1(h)(2); and

WHEREAS, The City of Sunnyvale submitted an application to the CEC that included (1) the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 3244-25 are cost-effective and (2) documentation that the locally adopted energy efficiency standards contained in Ordinance No. 3244-25 will require the diminution of energy consumption levels compared to the 2022 Building Energy Efficiency Standards (Energy Code), as required by California Code of Regulations, Title 24, Part 1, section 10-106, on September 04, 2025; and

WHEREAS, The City of Sunnyvale adopted a determination at a public meeting on August 26, 2025, that the locally adopted energy efficiency standards contained in Ordinance No. 3244-25 are cost-effective; and

WHEREAS, CEC staff has analyzed whether the locally adopted energy efficiency standards contained in Ordinance No. 3244-25 will require the diminution of energy

consumption levels compared to the 2022 Energy Code, and determined that it will do so; and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106(b)(4) requires that the local governmental agency's application include any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act, Public Resources Code section 21000 et seq.; and

WHEREAS, The City of Sunnyvale, in its application to the CEC, submitted the California Environmental Quality Act documentation required by California Code of Regulations, Title 24, Part 1, section 10-106(b)(4); and

WHEREAS, CEC staff has considered the application of the California Environmental Quality Act (CEQA) to approval of the City of Sunnyvale's application to enforce its local energy efficiency ordinance and finds that the approval is ministerial and does not meet the definition of a "project" under Cal. Code Regs., Title 14, section 15378(a), because the approval has no potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment, and even if the approval was to be considered a project, then the project would fall under the "common sense exemption" in California Code of Regulations, title 14, section 15061(b)(3) because it can be seen with certainty that there is no possibility the approval of Sunnyvale's application would have a significant effect on the environment; and

WHEREAS, The locally adopted energy efficiency and conservation standards application filed by the City of Sunnyvale satisfies the requirements of California Code of Regulations, Title 24, Part 1, section 10-106; and

THEREFORE, RESOLVED, that, pursuant to Public Resources Code section 25402.1(h)(2), the CEC finds the following: (1) The City of Sunnyvale has filed the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 3244-25 are cost-effective, and (2) Ordinance No. 3244-25 will require the diminution of energy consumption levels compared to the 2022 Energy Code; and

THEREFORE, BE IT FURTHER RESOLVED, that on the basis of the entire record before it, the CEC hereby adopts staff's finding that the approval of the City of Sunnyvale's application to enforce its local energy efficiency ordinance is not subject to CEQA because the approval is ministerial and does not meet the definition of a "project" as it is not an activity that has the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment, and even if it was a project, it is exempt from CEQA pursuant to the Common-Sense Exemption (Cal. **RESOLUTION FINDING BUILDING ENERGY EFFICIENCY STANDARDS
CONTAINED IN THE CITY OF MILL VALLEY ORDINANCE NOS. 1340 AND 1360
SATISFY STATUTORY REQUIREMENTS UNDER PUBLIC RESOURCES CODE
SECTION 25402.1(h)(2)**

WHEREAS, The City of Mill Valley adopted Ordinance Nos. 1340 and 1360, which establish certain locally adopted building energy efficiency standards; and

WHEREAS, Public Resources Code section 25402(a) and (b) establishes that the California Energy Commission (CEC) shall prescribe, by regulation, statewide building energy efficiency and conservation standards; and

WHEREAS, Public Resources Code section 25402.1(h)(2) provides that nothing in Public Resources Code section 25402(a) or (b) shall prohibit the enforcement of city or county building energy efficiency standards if: (1) the city or county files the basis of its determination that the standards are cost-effective with the CEC and (2) the CEC finds that the locally adopted standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to Public Resources Code section 25402(a) and (b); and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106 establishes a process for local governmental agencies to submit an application to the CEC for a determination that locally adopted building energy efficiency standards meet the requirements set forth in Public Resources Code section 25402.1(h)(2); and

WHEREAS, The City of Mill Valley submitted an application to the CEC that included (1) the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1340 are cost-effective and (2) documentation that the locally adopted energy efficiency standards contained in Ordinance No. 1340 will require the diminution of energy consumption levels compared to the 2022 Building Energy Efficiency Standards (Energy Code), as required by California Code of Regulations, Title 24, Part 1, section 10-106, on September 5, 2025; and

WHEREAS, The City of Mill Valley adopted a determination at a public meeting on December 05, 2022, , that the locally adopted energy efficiency standards contained in Ordinance No. 1340 are cost-effective; and

WHEREAS, CEC staff has analyzed whether the locally adopted energy efficiency standards contained in Ordinance No. 1340 will require the diminution of energy

consumption levels compared to the 2022 Energy Code, and determined that it will do so; and

WHEREAS, The City of Mill Valley submitted an application to the CEC that included (1) the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1360 are cost-effective and (2) documentation that the locally adopted energy efficiency standards contained in Ordinance No. 1360 will require the diminution of energy consumption levels compared to the 2022 Building Energy Efficiency Standards (Energy Code), as required by California Code of Regulations, Title 24, Part 1, section 10-106, on September 5, 2025; and

WHEREAS, The City of Mill Valley adopted a determination at a public meeting on August 18, 2025, that the locally adopted energy efficiency standards contained in Ordinance No. 1360 are cost-effective; and

WHEREAS, CEC staff has analyzed whether the locally adopted energy efficiency standards contained in Ordinance No. 1360 will require the diminution of energy consumption levels compared to the 2022 Energy Code, and determined that it will do so; and

WHEREAS, California Code of Regulations, Title 24, Part 1, section 10-106(b)(4) requires that the local governmental agency's application include any findings, determinations, declarations, or reports, including any negative declaration or environmental impact report, required pursuant to the California Environmental Quality Act, Public Resources Code section 21000 et seq.; and

WHEREAS, The City of Mill Valley, in its application to the CEC for both Ordinance Nos. 1340 and 1360, submitted the California Environmental Quality Act documentation required by California Code of Regulations, Title 24, Part 1, section 10-106(b)(4); and

WHEREAS, CEC staff has considered the application of the California Environmental Quality Act (CEQA) to approval of the City of Mill Valley's applications to enforce its local energy efficiency ordinances 1340 and 1360 and finds that the approval is ministerial and does not meet the definition of a "project" under Cal. Code Regs., Title 14, section 15378(a), because the approval has no potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment, and even if the approval was to be considered a project, then the project would fall under the "common sense exemption" in California Code of Regulations, title 14, section 15061(b)(3) because it can be seen with certainty that there is no possibility the approval of Mill Valley's application would have a significant effect on the environment; and

WHEREAS, The locally adopted energy efficiency and conservation standards applications filed by the City of Mill Valley satisfy the requirements of California Code of Regulations, Title 24, Part 1, section 10-106; and

THEREFORE, BE IT RESOLVED, that, pursuant to Public Resources Code section

25402.1(h)(2), the CEC finds the following: (1) The City of Mill Valley has filed the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1340 are cost-effective, and (2) Ordinance No. 1340 will require the diminution of energy consumption levels compared to the 2022 Energy Code; and

THEREFORE, BE IT FURTHER RESOLVED, that, pursuant to Public Resources Code section 25402.1(h)(2), the CEC finds the following: (1) The City of Mill Valley has filed the basis of its determination that the locally adopted energy efficiency standards contained in Ordinance No. 1360 are cost-effective, and (2) Ordinance No. 1360 will require the diminution of energy consumption levels compared to the 2022 Energy Code; and

THEREFORE, BE IT FURTHER RESOLVED, that on the basis of the entire record before it, the CEC hereby adopts staff's finding that the approval of the City of Mill Valley's application to enforce its local energy efficiency ordinance Nos. 1340 and 1360 is not subject to CEQA because the approval is ministerial and does not meet the definition of a "project" as it is not an activity that has the potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment, and even if it was a project, it is exempt from CEQA pursuant to the Common-Sense Exemption (Cal. Code Regs., tit 14, 15061(b)(3)) because it can be seen with certainty that there is no possibility that the activity will have a significant effect on the environment; and

THEREFORE BE IT FURTHER RESOLVED, that the CEC directs the Executive Director to take all actions necessary to implement this Resolution.

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement ZVI-25-006 with Buzze Inc. for a \$1,105,493 grant. This project will install at least 124 Level 2 EV charging ports across approximately 18 multifamily housing communities throughout California, including but not limited to San Diego, Santa Clara, Los Angeles, Alameda, and Sonoma counties; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

RESOLUTION: CALSTART, Inc.

WHEREAS, the County of Sacramento (County) is the Lead Agency under the California Environmental Quality Act (CEQA) for the CAT POWER Hub: The California Advanced Technology Probably Off-road Job Site Energy Resource Hub Project (Project), a proposed project to develop and demonstrate an off-road, off-grid operations hub in Sacramento for mobile, machine charging, and battery energy storage systems to support electric machines and equipment operating at two job sites; and

WHEREAS, pursuant to CEQA, the County prepared, and subsequently certified on April 24, 1996, the Final Environmental Impact Report (EIR) for the Morrison Creek Mining Reach Upstream (North) of Jackson Highway, which included a Mitigation Monitoring and Reporting Program, prepared an Environmental Coordinator Memorandum dated April 10, 2017, and on January 23, 2018 at the County's Board of Supervisor meeting approved Amended Use Permit PLNP2017-0049 (AUP), all of which are included in the backup materials; and

WHEREAS, at its January 23, 2018 Board of Supervisors Meeting, the County recognized the Environmental Coordinator Memorandum dated April 10, 2017, and determined, pursuant to CEQA Guidelines section 15162, that there are no substantial changes in the project or in the circumstances under which the project is to be undertaken and that the project involves no new significant impacts that were not considered in the previous EIR and AUP; and

WHEREAS, the Energy Commission is considering proposed Agreement ZVI-25-005, a grant for the CAT POWER Hub: The California Advanced Technology Probably Off-road Job Site Energy Resource Hub Project; and

WHEREAS, prior to acting on Agreement ZVI-25-005, the Energy Commission desires to make certain findings under CEQA.

THEREFORE, BE IT RESOLVED, the Energy Commission has reviewed and considered the County's EIR, Environmental Coordinator Memorandum, and AUP, and the findings contained therein, and the Energy Commission staff's findings, which are contained in the "California Environmental Quality Act (CEQA) Analysis for ZVI-25-005, CAT POWER Hub: The California Advanced Technology Probably Off-road Job Site Energy Resource Hub Project" memorandum, all of which are included in the backup materials, and finds these documents are adequate for its use as the decision-making body for its consideration of ZVI-25-005; and

FURTHER BE IT RESOLVED, the Energy Commission's approval of ZVI-25-005 is within the scope of the AUP, and within the activities evaluated in the EIR; and

FURTHER BE IT RESOLVED, since the EIR was finalized and certified by the County, and since the AUP was approved by the County, none of the circumstances within California Code of Regulations, title 14, section 15162 are present and there have been no substantial project changes and no substantial changes in the project circumstances that would require major revisions to the EIR or AUP, either due to the involvement of new significant environmental effects or to an increase in the severity of previously identified significant impacts, and there is no new information of substantial importance that would change the conclusions set forth in the EIR; and

FURTHER BE IT RESOLVED, the Energy Commission has not identified any feasible alternative or additional feasible mitigation measures within its power that would substantially lessen or avoid any significant effect the Project would have on the environment; and

FURTHER BE IT RESOLVED, the Energy Commission approves ZVI-25-005 with CALSTART, Inc. for a \$16,775,193 grant; and

FURTHER BE IT RESOLVED, that this document authorizes the Executive Director or their designee to execute the same on behalf of the Energy Commission.

STATE OF CALIFORNIA
STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

IN THE MATTER OF:

**Imperial Irrigation District’s 2024
Integrated Resource Plan Filing**

Docket No. 18-IRP-01

**ORDER FINDING COMPLIANCE WITH
PUBLIC UTILITIES CODE SECTION
9621**

I. BACKGROUND

Pursuant to Senate Bill 350 (Stats. 2015, ch. 547), Public Utilities Code (PUC) section 9621 requires publicly owned utilities with an annual electrical demand exceeding 700 gigawatt hours to adopt integrated resource plans (IRPs) at least once every five years and submit them to the California Energy Commission (CEC). The IRPs must contain supporting information sufficient to demonstrate that they meet certain requirements, including greenhouse gas emission reduction targets and renewable energy procurement goals, as set forth in PUC section 9621. Under PUC section 9622, the CEC must review IRPs for consistency with these requirements. On October 4, 2018, the CEC adopted the *Publicly Owned Utility Integrated Resource Plan Submission and Review Guidelines* to govern the submission of IRPs.

II. STAFF RECOMMENDATION

Staff recommends that the CEC find the Imperial Irrigation District’s 2024 IRP, filed on April 29, 2024, under Docket Number 18-IRP-01, complete and consistent with the requirements of PUC section 9621.

III. ENERGY COMMISSION FINDINGS

- a. On April 29, 2024, Imperial Irrigation District submitted an IRP and supporting documentation to the CEC (the IRP Filing); and
- b. On January 29, 2025, the CEC notified Imperial Irrigation District that its IRP Filing was complete; and

- c. The complete IRP Filing has been available since April 29, 2024, and no public comments were received; and
- d. On September 9, 2025, CEC staff, under the authority of the Executive Director, filed its review on the CEC website (*Review of Imperial Irrigation District 2024 Integrated Resource Plan*, TN No. 265923) determining the IRP Filing to be consistent with the requirements for PUC Section 9621 and this document has been available for public comment for at least 45 days; and
- e. On September 9, 2025, CEC staff informed Imperial Irrigation District in writing of staff's determination (TN No. 265924) and the Executive Director informed Imperial Irrigation District in writing that the CEC would consider adopting this determination at the CEC Business Meeting on November 12, 2025; and
- f. The CEC concurs with staff's recommendation that Imperial Irrigation District's IRP Filing is complete and consistent with the requirements of PUC section 9621.

IV. CONCLUSION AND ORDER

The CEC hereby adopts staff's recommendation and orders that Imperial Irrigation District's IRP Filing complies with requirements set forth in Public Utilities Code section 9621.

IT IS SO ORDERED.

CERTIFICATION

STATE OF CALIFORNIA
STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

IN THE MATTER OF:

**CHEERS ECC-Provider and Data
Registry Applications for the 2025
Energy Code**

Docket No.: 25-BSTD-01

**Order to Approve the CHEERS
Energy Code Compliance Provider
and Residential Data Registry
Applications**

I. BACKGROUND

The Energy Code Compliance (ECC) Program regulations¹ support projects in demonstrating compliance with the 2025 Energy Code through required testing and documentation. The ECC Program helps ensure both code compliance and the quality installation of efficiency measures that consumers expect. The ECC program is administered by ECC-Providers that train and certify ECC-Raters to determine whether installed energy efficiency measures meet Energy Code requirements.

As such, the ECC-Program replaces the field verification and diagnostic testing (FV&DT) scope of the Home Energy Rating System (HERS) Program. The HERS Program regulations for FV&DT provisions will expire on December 31, 2025.²

The 2025 Energy Code regulations define an ECC-Provider as "an organization approved by the Commission to administer the ECC program pursuant to the requirements of Section 10-103.3."³

Additionally, the 2025 Energy Code specifies an approval process as well as functional and technical requirements of a residential data registry.⁴ Finally, "[f]or residential compliance document registration, the Registration Provider shall be approved in accordance with the requirements in Section JA7.8 and shall also be an ECC-Provider approved by the Energy Commission."⁵

¹ California Code of Regulations, title 24, part 1, chapter 10, section 10-103.3

² California Code of Regulations, title 20, division 2, chapter 4, article 8, section 1670(i), as amended to be operative until the date 24 CCR 10-103.3 becomes effective

³ California Code of Regulations, title 24, part 1, chapter 10, section 10-102

⁴ Id., section 10-109(i)1A

⁵ 2025 Reference Appendices, Joint Appendix section JA7.4.1 Registration Provider

California Home Energy Efficiency Rating Services (CHEERS), a HERS Provider, has submitted an ECC-Provider Application and a 2025 Energy Code Residential Data Registry Application for CEC approval. Approval will not decertify the CHEERS data registry as approved for past Energy Code cycles.

Subsequently, the CEC's Executive Director recommended approval of the applications to the Energy Commission, for consideration at the next-possible regularly scheduled business meeting.

II. EXECUTIVE DIRECTOR'S RECOMMENDATION

The recommendation (TN 266830) is available on the CEC's website on [docket log 25-BSTD-01](#) (2025 Energy Code Compliance Provider Applications). The recommendation is for approval of the CHEERS (1) ECC-Provider application and (2) Residential Data Registry application.

The recommendation is appended by a staff evaluation that identifies the applicant, the scope of each application, and the basis for approving each application. Staff also identifies limitations in provisions and impacts on parties that are not the applicant.

III. ENERGY COMMISSION FINDINGS

1. CCR, Title 24, Part 1, section 10-103.3(c) requires Energy Code Compliance Providers to be approved by the Commission through an application process. To become an ECC-Provider, an applicant must submit a full application.
2. CHEERS submitted ECC-Provider application components, including revised materials, to the CEC between May 2025 and October 2025. On September 25, 2025, staff published a notice of a complete application on docket log 25-BSTD-01 for public review and comment, pursuant to 20 CCR 1674(c)(2).
3. CCR, Title 24, Part 1, section 10-109(a) requires data registries and external digital data sources (EDDS) to be approved by the CEC in order to be used to demonstrate compliance with Part 6.
4. CHEERS submitted data registry (including EDDS) application components, including revised materials, to the CEC between August 2025 and October 2025. On September 25, 2025, staff published a notice of a complete application on docket log 25-BSTD-01 for public review and comment, pursuant to 24 CCR 10-110(b).
5. Staff evaluated the submitted applications for compliance with applicable regulations to ensure that CHEERS, its certification programs, other provider responsibilities, its registry, and its EDDS would be compliant upon CEC approval.

6. The staff evaluation is summarized and attached to the executive director's recommendation as "Exhibit 1." The evaluation includes a scope of approval for each of the ECC-Provider application and the data registry application.
7. Pursuant to 20 CCR 1674(c)(2) and 24 CCR section 10-110(e), the Executive Director Recommendation was submitted to the CEC and made available to interested persons via docket log 25-BSTD-01 and to the applicant by email on October 20, 2025, which was least 15 business days prior to the November 12 business meeting, as required by 20 CCR 1674(c)(5).
8. CHEERS submitted revised exhibits with final corrections and amendments to its application materials. Staff updated its evaluation to reflect the revised filings and to state that the recommendation was unaffected.
9. 24 CCR section 10-110(f) requires the complete application package, any additional information considered by the executive director, and the Executive Director's recommendation to be considered at the next business meeting after submission of the recommendation.
10. The CEC has considered and agrees with staff CEQA findings. The proposed action is exempt from CEQA because it can be seen with certainty that the approval of the applications will not have a significant effect on the environment.
11. The Energy Commission confirms the Executive Director's recommendation and finds that the requirements of CCR, Title 20, section 1674 and CCR, Title 24, Part 1, section 10-110 have been met. Therefore, CHEERS has met the requirements to be approved as an ECC-Provider and to operate its 2025 Energy Code data registry.

IV. CONCLUSION AND ORDER

The CEC hereby approves CHEERS as an ECC-Provider for the 2025 Energy Code triennial cycle. The CEC also approves the CHEERS residential data registry to provide 2025 Energy Code single-family and low-rise multifamily residential certificates of compliance, installation, and verification, as well as nonresidential certificates of verification. Finally, the CEC adopts staff's recommendation that these actions are exempt from the California Environmental Quality Act (CEQA).

IT IS SO ORDERED.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of an order duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

STATE OF CALIFORNIA

STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

RESOLUTION ADOPTING AMENDMENTS TO BUILDING ENERGY
BENCHMARKING REGULATIONS

WHEREAS, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff California Environmental Quality Act (CEQA) findings contained in the CEQA memorandum; and

WHEREAS, pursuant to AB 102 (Ting 2023, Section 68), the Building Energy Benchmarking Program has an Administrative Procedure Act exemption allowing for the adoption of regulations, guidelines, or other standards for the program at a commissioner business meeting after at least one public workshop; and

WHEREAS, on September 23, 2025, CEC staff noticed a public workshop on the proposed regulatory update to the Building Energy Benchmarking Regulations and published the proposed regulatory changes; and

WHEREAS, on October 13, 2025, the CEC held a public workshop on the proposed regulatory update; and

WHEREAS, after the public workshop, the CEC had a ten-day public comment period on the proposed regulations; and

THEREFORE, THE CALIFORNIA ENERGY COMMISSION FINDS:

With regard to CEQA:

- The CEC has considered the application of CEQA to the proposed regulations and concluded that the proposed regulations:
 - (1) are not a “project” subject to CEQA pursuant to CEQA Guidelines, section 15378 (b)(2) and (5), in that they deal with general policy and procedural activities or organizational and administrative activities and do not involve commitment to any specific project that may result in a direct or indirect physical change in the environment;
 - (2) are exempt from CEQA because they fall within the so-called “common sense” exemption pursuant to CEQA Guidelines, section 15061(b)(3), which indicates that CEQA only applies to projects that have a “significant effect on the environment” as defined in Public Resources Code section 21068 and in

CEQA Guidelines, section 15382, as being a substantial, or potentially substantial, adverse change in the environment;

- (3) are categorically exempt from CEQA as a data collection activity that does not result in a serious or major disturbance to an environmental resource pursuant to CEQA Guidelines, section 15306; and
- (4) are categorically exempt from CEQA as an action taken to maintain natural resources pursuant to CEQA Guidelines, section 15307; and
- (5) are categorically exempt from CEQA as an action taken to protect the environment pursuant to CEQA Guidelines, section 15308.

With regard to the Administrative Procedure Act:

- The proposed regulations are exempt pursuant to AB 102 (Ting 2023, Section 68) provided at least one public workshop was held. A public workshop was held on October 13, 2025.

THEREFORE, BE IT RESOLVED, based upon the entire record of this proceeding, the CEC hereby adopts the described regulations. We take this action under the authority of Public Resources Code section 25213, 25218(e), and 25402.10; and to implement, interpret, and make specific Public Resources Code sections 25116 and 25402.10; and

FURTHER BE IT RESOLVED, that documents and other materials that constitute the rulemaking record can be found at the CEC, 715 P Street, Sacramento, California, 95814 in the custody of the Docket Unit and online in [Docket Number 25-OIR-01](https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-OIR-01), <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=25-OIR-01>; and

FURTHER BE IT RESOLVED, that, the CEC delegates the authority and directs CEC staff to take, on behalf of the CEC, all actions reasonably necessary to have the proposed regulations go into effect, including but not limited to making any appropriate non-substantive changes to the regulations; preparing all appropriate documents; compiling and submitting the rulemaking file to the Office of Administrative Law (OAL); making any changes to the rulemaking file required by OAL; and filing a notice of exemption with the Office of Planning and Research. This delegation explicitly includes authority for the Executive Director or Chief Deputy Director to sign the Form 400 on behalf of the CEC.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

RESOLUTION: EVgo Services LLC

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement ARV-25-002 with EVgo Services LLC for a \$3,761,382 grant. This project will install at least 42 public EV DC fast charging ports across three sites located in disadvantaged and/or low-income communities in Los Angeles County; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on November 12, 2025.

RESOLUTION: Alliance for Sustainable Energy, LLC

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement EPC-25-035 with Alliance for Sustainable Energy, LLC (as the manager and operator for the National Renewable Energy Laboratory) for a \$3,249,955.00 grant to develop a standardized concept design for a floating, high-voltage direct-current (HVDC) substation for California conditions considering electrical and structural performance, cost, risk, environmental impact, grid integration, supply chain, and logistics; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

RESOLUTION: Integral Consulting Inc.

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement EPC-25-037 with Integral Consulting Inc. for a \$3,000,000 grant. The project will develop entanglement and environmental monitoring and mitigation technology associated with floating offshore wind projects. Technologies include entanglement prediction modeling, a risk assessment framework, and a system of uncrewed underwater and surface vehicles equipped with sonar and visible-light sensors to monitor, identify, and mitigate fishing gear and debris entangled within California's designated wind energy areas; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

RESOLUTION: Sofar Ocean Technologies, Inc.

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement EPC-25-038 with Sofar Ocean Technologies, Inc. for a \$2,993,427 grant. This project will develop and test a novel, multi-modal system for detecting entanglements in floating offshore wind infrastructure at pre-established test sites in the San Francisco Bay and off the coasts of Half Moon Bay and San Francisco. This novel system will integrate sensors with artificial intelligence and machine learning algorithms to enhance the efficacy of entanglement detection; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.
