**RE: Repeated Application for Confidential Designation
Constellation NewEnergy, Inc. 2025 IEPR Electricity Resource Planning
Forms Submission, Docket No. 25-IEPR-02.**

Dear Mr. Bohan:

Constellation NewEnergy, Inc., (“CNE”) respectfully requests protection of certain information provided to the Commission in its accompanying Electricity Resource Planning Forms submission.

Information submitted to the Energy Commission may be deemed confidential without the need for a new application under California Code of Regulations, Title 20, Sections 2505(a)(1)(G) and 2505(a)(4) if CNE files a certification under penalty of perjury that the new information is substantially similar to the information previously granted confidentiality. By letter dated December 5, 2024 (see Attachment A hereto) you approved CNE’s request for confidential designation for information submitted in CNE’s 2024 IEPR Electricity Resource Planning submission in Docket 24-IEPR-02.

CNE’s 2025 IEPR Electricity Resource Planning Forms submission contains information that is substantially similar to its previously submitted 2024 IEPR Electricity Resource Planning Forms, and information and all facts and circumstances relevant to the confidentiality of the information remain unchanged.

We bring to the Commission’s attention, however, two pieces of newly added data for which CNE has not previously requested confidentiality in this context, but for which confidentiality was granted in another Commission proceeding. CNE requests confidential designation for data on Form S-2, Line 8, Short-Term and Spot Market Energy Supply Purchases (and Sales) for years 2023 and 2024 in cells AC78 and AD78. CNE requests confidentiality for this information because if left unredacted would reveal sufficient information to illuminate CNE’s confidential retail load and supply balance information. By letter dated August 12, 2025 (see Attachment B hereto) you approved CNE’s request for confidential designation for this spot

market procurement data in CNE’s 2024 Power Source Disclosure Annual Report submission in Docket 25-PSDP-01, albeit for a shorter period of time than being requested now.

Specifically, CNE requests that the following information, as also indicated by the yellow pattern cells on the accompanying Excel workbook, worksheets “S-1_REQUIREMENT”, “S-2_SUPPLY”, and “S-5 Table” remain confidential through December 31, 2028:

Form	Information to be held confidential

2025 IEPR Electricity Resource Planning Form CEC Form S-5: Bilateral Contracts Table	Other Bilateral_Resource Adequacy Aggregate, Capacity (MW) Under Contract, line number 7c (cell I48 only).
<p>* As noted above, CNE was previously granted its request for a three-years forward confidentiality period in the last IEPR cycle. As such, 2023 and 2024 information continues to be confidential through December 31, 2025, and is accordingly included here. CNE is also patterning this confidentiality request to be consistent with</p>

confidentiality granted by other agencies, including the California Public Utilities Commission, in an effort to harmonize confidentiality of reported information.	

I certify under penalty of perjury that the information contained in this repeated application for confidential designation is true, correct, and complete to the best of my knowledge. I also certify that I am authorized to make this repeated application and certification on behalf of Constellation NewEnergy, Inc.

Please feel free to contact me at abrown@b2energylaw.com should you or Staff have any questions or require additional information regarding this Repeated Application. Thank you for your consideration of our request.
