## **Comment regarding Item#2 Magnolia Power plant project Petition to Amend**

My name is Rodney Boone and I live in Southern CA. I am strongly opposed to this petition to fund an expansion of the Magnolia Plant. We all know that the South Coast Air Basin is extremely out of attainment in terms of air pollution and to allow the fossil gas plants to continue and, in this case, INCREASE their burning of fossil fuel is unconscionable and frankly immoral. This will increase the emission of NOx, CO, and PM 2.5 around the plant, an area that already carries a steep pollution burden, thus increasing the incidence of respiratory and cardiovascular diseases, premature death, and worsened cognitive function in the Basin's people. I strongly urge the Commission to vote NO on this petition.
