## **No on Battery Project in Vacaville**

I am a longtime Vacaville Resident since 1989. I grew up here from 2 years old, I now have children of my own and they are being raised in this beautiful and tight knit community. We love to ride bikes in the country side, hike, explore and just look at the view. Please do not ruin our beautiful countryside with a battery farm. That is abhorrent, greedy, selfish, and disrespectful to our family. There has been so much going on in the world today. Our community has had to put up with tearing into our countryside to build solar panels on community property and taking out trees, properties, corporate stores and restaurants, increase traffic, increase homelessness, and no new schools. We the people need to be heard. No more. Let us live in peace. There are many deers and wildlife that keep getting pushed further out. That battery farm will ruin their habitat. We have fires that happen every year because of mismanagement in our state, and if a fire runs through the battery farm it will be a huge hazard for our community. Please listen to us, we don't want it. We are your constituents and we say NO!
