## **No Magnolia Gas Plant Expansion**

Hi,

I am an Altadena resident and I am opposed to the expansion of gas capacity at the Magnolia Power Plan.

My understanding is that this power plant burns methane, which is a fossil fuel, and so releases large amounts of greenhouse gases into our atmosphere.

My city recently burned to the ground because of climate change. Many people lost their homes. I think that we should reduce fossil fuel emissions. It seems like greenhouse gases are causing serious problems, including wildfires, droughts, and hurricanes.

Please do not expand the gas plant.

Thank you.  
Jonah Kanner
