Sacramento, California 95814

CEC-057 (Revised 1/21)

Notice of Opening Income Verifications HEEHRA Phase I Single-Family Rebates

Beginning November 25, 2025, HEEHRA rebate income verifications are open for **new single family heat pump HVAC projects. All HEEHRA projects must be installed and invoiced by December 31, 2025 to take advantage of 25C tax credit** that expires at the end of the year and is only available for heat pumps placed into service by December 31, 2025. This Energy Efficient Home Improvement Credit tax credit could provide additional financial benefits to homeowners. See the following IRS page announcement and contact your tax professional to learn more:

<https://www.irs.gov/credits-deductions/energy-efficient-home-improvement-credit>.

All HEEHRA projects must be completed and invoiced by February 28, 2026.

Homeowners should go to the HEEHRA page to learn more about this process:

<https://techcleanca.com/incentives/heehrarebates/>

The HEEHRA Phase I program provides up to \$8,000 in single-family rebates to income-qualified, California homeowners for the installation of a new, energy efficient and program-qualified heat pump HVAC system. HEEHRA rebates are only available through a TECH-certified and HEEHRA-trained contractor. Look for contractors with the HEEHRA badge: <https://www.switchison.org/contractor-finder>

Homeowners with approved HEEHRA income verifications work with their TECH-certified and HEEHRA-trained contractor to submit a reservation request. To check the status of your income verification and/or pending HEEHRA rebate reservation, email

TECH.info@energy-solution.com.

Projects must have an approved reservation to apply for HEEHRA rebates.

HEEHRA rebate reservations with an approved income verification are processed first come, first served. Available funding is limited and varies by region. Check TECH Public Reporting Budget Report for updates: <https://techcleanca.com/heat-pump-data/budget-report/>

Projects installed before receiving an approved reservation are not eligible for HEEHRA rebates.

The HEEHRA Phase I program continues to process and finalize rebate applications of completed projects for both single-family homes and multifamily properties.

If you have questions about the HEEHRA rebate program or the status of your rebate, please contact TECH.info@energy-solution.com or the CEC's IRA Residential Rebates Customer Support Center at IRAResidentialrebates@energy.ca.gov or (916) 343-8471. Contractors who need support to complete a rebate reservation or rebate application should call (833) 256-0560 or email TECH.contractor@energy-solution.com.
