PUBLIC SUMMARY OF CONFIDENTIAL MATERIALS- EXHIBITS T5 and T6

California Energy Commission

Docket: 25-BSTD-01

Applicant: Golden State Registry (GSR)

Subject: Summary of Confidential Exhibits Submitted Under Confidentiality Request

I. Purpose of This Public Summary

Golden State Registry (“GSR”) has submitted a request for confidential designation of certain exhibits included in its Energy Code Compliance (ECC) Provider Application.

This Public Summary is provided in accordance with the requirements of **Title 20, California Code of Regulations, § 2501 et seq.**, which require a non-confidential summary suitable for public disclosure.

This summary contains **no confidential information, no specific facility location details, and no proprietary curriculum content.**

II. Identification of Confidential Exhibits

GSR has requested that the following exhibits be designated as confidential:

1. **Exhibit T5 – Field Training Program Curriculum & Procedures**
 2. **Exhibit T6 – Field Training Facility Description**
-

III. General Description of the Confidential Materials (Non-Sensitive)

Exhibit T5 (Training Program Curriculum & Procedures)

This exhibit describes GSR’s training program for ECC Raters, including:

- Hands-on training structure

- General categories of field skills taught
- Sequence of training from classroom to field instruction
- Existence of practical assessments
- Overall program framework

It does **not** include any publicly disclosable sensitive information in this summary.

Exhibit T6 (Field Training Facility Description)

This exhibit describes the general nature of the facility used by GSR to conduct hands-on training.

The public summary confirms only that a training facility exists and is used for:

- Instructor demonstrations
- Supervised practice
- Practical examinations

No confidential location information, operational details, photographs, or facility characteristics are included here.

IV. Basis for Confidentiality (General Summary)

GSR seeks confidentiality because the exhibits contain:

- Proprietary training methods
- Program design and instructional systems
- Internal evaluation tools
- Operational processes
- Non-public facility details
- Trade secret methodologies developed at substantial investment

Disclosure of these materials could harm GSR by allowing competitors to copy or replicate these processes without undertaking their own development work.

This general summary is provided without disclosing any such sensitive information.

V. Duration of Confidentiality

GSR has requested confidentiality for the **2025–2028 Energy Code cycle**, consistent with prior Commission practice.

VI. Conclusion

This Public Summary satisfies the requirement for a publicly accessible description of the confidential material submitted by GSR.

It contains no confidential, proprietary, or location-specific information.
