RE: Compass Energy Storage Project (24-OPT-02): Part 2 – Supplemental Submittal

Dear Director Bohan:

As noted as forthcoming in our correspondence and Part 1 – Supplemental Submittal to the CEC on November 12, 2025, we are now able to provide the CEC with Part 2 of our Compass Supplemental Submittal to the Compass Energy Storage Application Project (24-OPT-02). This information completes our response to the CEC's prior data requests, as well as the information necessary for the CEC to evaluate the design modifications related to the creek restoration and corresponding stormwater management for the project.

Additionally, in responses to CEC staff's request, and to help facilitate your review of these supplemental materials in context of the overall project, we have included redlines of any section where changes were needed to incorporate these design modifications of the project. These updated documents supersede prior versions of those sections or appendices.

The following is a list of the contents of this Part 2 submittal now uploaded to the CEC docket:

- Attachment A: Redline Section 4.1 Air Quality and appendices
- Attachment B: Redline Section 4.2 Biological Resources and appendices
- Attachment C: Redline Section 4.4 Geological Hazards and Resources and appendices
- Attachment D: Redline Section 4.7 Noise and appendices
- Attachment E: Redline Section 4.9 Public Health and appendices
- Attachment F: Redline Section 4.12 Transportation and appendices
- Attachment G: Redline Section 4.15 Water Resources and appendices
- Attachment H: Application for Lake and Streambed Alteration Agreement and attachments

Mr. Drew Bohan, Executive Director
California Energy Commission
December 15, 2025
Page 2

In combination with Part I, we believe this information is comprehensive and now provides all of the information necessary for the CEC to reactivate the review of this application in preparation for consideration by the Commission.

We welcome any questions from the CEC staff on these and any other matters related to the project.

Sincerely yours,

Renée Louise Robin, J.D.
