RE: Confidentiality Attestation for Pacific Gas and Electric Company (PG&E)

- **McDonald Island Gas Storage Form CEC-1314 – Underground Gas Storage Data 2025Q3**

Dear Mr. Bohan:

Pacific Gas and Electric Company (PG&E) submits the subject Form CEC-1314 – Underground Gas Storage Data in the Order Instituting Informational Proceeding on Gas Decarbonization (Docket No. 22-OII-02) to the California Energy Commission (CEC). Certain information contained in PG&E's submission is entitled to automatic confidential designation under 20 CCR § 2505(a)(5)(A) and (a)(5)(B)(9). Specifically, the information contained in cells C-E 21 and cells C-H 27-120 of the "Underground Gas Storage Data" worksheets for the above-named facility should be designated as confidential.

McDonald Island M3 was showing partial fail alarm, reduced accuracy of measurement. For July Injection, M3 indicated volume was edited (11/25/2025) to adjacent operational injection meters M4 and M1 with a deviation factor calculated from September and October data (post M3 repair).

I certify under penalty of perjury that the information identified above has not been previously released to the public and that it falls within one of the categories identified in 20 CCR § 2505(a)(5)(B).

If you have any questions, or require more information, please contact me at judy.chang@pge.com.

Sincerely,

Judy Chang
