## **Bess Project in Acton**

I am writing to ask you to consider the danger this project would cause to us in the vicinity or possibly even distant homes as we know can certainly be affected by out of control fires. These batteries are very well known to be dangerous and can spontaneously burst into fire. Not only this, this being the worst of it but it will also affect the values of our homes due to this new danger.

This should not be allowed in such a location. I hope that you will have compassion and consider what this will mean to those of us nearby.

Thank you for your consideration.
